Fairbank**

Shang Yang's Reforms And State Control In China:

Shang Yang's Reforms and State Control in China Kuan Yang, 1977 **Revival: Shang yang's reforms and state control in China. (1977)** Li Yu-Ning, 2018-10-24 This title was first published in 1977 A wide ranging series of carefully prepared translations of books published in China since 1949 each with an extended introduction by a western scholar

Shang Yang's Reforms and State Control in China Li Yu-ning, 1977 **Shang Yang's Reforms and State Control in China** Yang Shang, 1977-01-01 **The Cambridge History of China: Volume 1, The Ch'in and Han Empires, 221 BC-AD 220** Denis Crispin Twitchett, John King Fairbank, 1978 The Cambridge history of China general editors Denis Twitchett v 13 *To Rebuild the Empire* Josephine Chiu-Duke, 2000-03-09 Provides both a biography of the pivotal Tang Dynasty figure Lu Chih and an intellectual history of his era which is instrumental in the revival and transformation of Confucianism *Autocratic Tradition and Chinese Politics* Zhengyuan Fu, 1993 This book examines the Chinese political tradition over the past two thousand years and argues that the enduring and most important feature of this tradition is autocracy The author interprets the communist takeover of 1949 not as a revolution but as a continuation of the imperial tradition The book shows how Mao Zedong revitalised this autocratic tradition along five lines the use of ideology for political control concentration of power in the hands of a few state power over all aspects of life law as a tool wielded by the ruler who is himself above the law and the subjection of the individual to the state Using a statist approach the book argues that in China political action of the state has been the single most important factor in determining socio economic change **Shan Yang's reforms and state control in China (Shang Yang pienfa, engl.) Ed. with an introd. by Li Yu-ning** K'uan Yang, Yu-ning Li, 1977 **The King's Harvest** Brian Lander, 2021-11-30 A multidisciplinary environmental history of early China's political systems featuring newly available Chinese archaeological data This book is a multidisciplinary study of the ecology of China's early political systems up to the fall of the first empire in 207 BCE Brian Lander traces the formation of lowland North China's agricultural systems and the transformation of its plains from diverse forestland and steppes to farmland He argues that the growth of states in ancient China and elsewhere was based on their ability to exploit the labor and resources of those who harnessed photosynthetic energy from domesticated plants and animals Focusing on the state of Qin Lander amalgamates abundant new scientific archaeological and excavated documentary sources to argue that the human domination of the central Yellow River region and the rest of the planet was made possible by the development of complex political structures that managed and expanded agroecosystems **The Origins of Political Order** Francis Fukuyama, 2011-04-12 A landmark history of the origins of modern democratic societies by one of our most important political thinkers A New York Times Notable Book for 2011 A Globe and Mail Best Books of the Year 2011 Title A Kirkus Reviews Best Nonfiction of 2011 title Virtually all human societies were once organized tribally yet over time most developed new political institutions which included a central state that could keep the peace and uniform laws that applied to all

citizens. Some went on to create governments that were accountable to their constituents. We take these institutions for granted, but they are absent or are unable to perform in many of today's developing countries, with often disastrous consequences for the rest of the world. Francis Fukuyama, author of the bestselling *The End of History and the Last Man* and one of our most important political thinkers, provides a sweeping account of how today's basic political institutions developed. The first of a major two-volume work, *The Origins of Political Order*, begins with politics among our primate ancestors and follows the story through the emergence of tribal societies, the growth of the first modern state in China, the beginning of the rule of law in India and the Middle East, and the development of political accountability in Europe up until the eve of the French Revolution. Drawing on a vast body of knowledge in history, evolutionary biology, archaeology, and economics, Fukuyama has produced a brilliant, provocative work that offers fresh insights on the origins of democratic societies and raises essential questions about the nature of politics and its discontents.

This Captivating Realm of Kindle Books: A Comprehensive Guide Unveiling the Advantages of E-book Books: A Realm of Convenience and Flexibility E-book books, with their inherent mobility and simplicity of availability, have liberated readers from the limitations of hardcopy books. Gone are the days of carrying cumbersome novels or carefully searching for particular titles in shops.
