Scenes from the High Desert Virginia Kerns,2010-10-01 If a religion cannot attract and instruct young people it will struggle to survive which is why recreational programs were second only to theological questions in the development of twentieth century Mormonism In this book Richard Ian Kimball explores how Mormon leaders used recreational programs to ameliorate the problems of urbanization and industrialization and to inculcate morals and values in LDS youth As well as promoting sports as a means of physical and spiritual excellence Progressive Era Mormons established a variety of institutions such as the Deseret Gymnasium and camps for girls and boys

all designed to compete with more worldly attractions and to socialize adolescents into the faith Kimball employs a wealth of source material including periodicals diaries journals personal papers and institutional records to illuminate this hitherto underexplored aspect of the LDS church In addition to uncovering the historical roots of many Mormon institutions still visible today **Sports in Zion** is a detailed look at the broader functions of recreation in society **Dispersing the Ghetto** Jack Glazier,2018-10-18 In the early twentieth century the population of New York City s Lower East Side swelled with the arrival of vast numbers of eastern European Jewish immigrants The teeming settlement whose inhabitants faced poverty and frequent unemployment provoked the attention of immigration restrictionists Established American Jews arrivals from the German states only a generation before feared that their security might be threatened by the newcomers They established the Industrial Removal Office IRO to assist in relocating the immigrants to the towns and cities of the nation s interior **Dispersing the Ghetto** is the first book to describe in detail this important but little known chapter in American immigration history Founded in 1901 the IRO for nearly two decades directed the resettlement of Jewish immigrants in New York and other port cities to hundreds of communities nationwide where the prospects of employment and rapid assimilation were brighter Drawing on a variety of sources including the IRO archive local records first person accounts of resettlement and the lively Jewish press Jack Glazier recounts the operations of the IRO and the experiences of those it aided He closely examines the complex relationship between the two sets of Jewish immigrants emphasizing the mix of motives underlying the assistance the American Jews of German origin rendered the newcomers from eastern Europe *Linguistic Relativities* John Leavitt,2010-12-23 There are more than six thousand human languages each one unique For the last five hundred years people have argued about how important language differences are This book traces that history and shows how language differences have generally been treated either as of no importance or as all important depending on broader approaches taken to human life and knowledge It was only in the twentieth century in the work of Franz Boas and his students that an attempt was made to engage seriously with the reality of language specificities Since the 1950s this work has been largely presented as yet another claim that language differences are all important by cognitive scientists and philosophers who believe that such differences are of no importance This book seeks to correct this misrepresentation and point to the new directions taken by the Boasians directions now being recovered in the most recent work in psychology and linguistics
