Shaping Of Social Organization Social Rule System Theory With Applications:

The Shaping of Social Organization Tom R Burns, Helena Flam, 1987-07 The Shaping of Social Organization introduces a new social theory social rule system theory and shows how it can provide fresh insights into the major institutions of modern social life The book advances a distinctive approach to the study of actor structure dynamics placing itself in a rich scholarly tradition developed by major thinkers such as Weber Lindblom Giddens and Goffman It presents social rule system theory as a framework with which to investigate social institutions and clarifies the principles behind their formation maintenance and transformation Drawing on a wide range of case studies the authors also demonstrate the relevance of the theory for research programs As a result they are ab

Rule Systems Theory Helena Flam, Marcus Carson, 2008 Explaining the complexity of social life remains the central challenge of the social sciences This book offers a variety of theoretical empirical explorations and applications inspired by an important neo institutional approach to tackling this complexity the rule systems theory Its point of departure is the assumption that institutions and cultural formations possess causal powers and relative autonomy constraining and enabling people s social actions and interactions Structural and cultural properties of society are carried by transmitted and reformed by human agents whose interactions generate reproduce elaborate and transform structures The contributors are highly accomplished economists sociologists and political scientists who come from the US and several European countries The book is meant as a Festschrift for Tom Burns a central figure in the development of the rule systems theory

The Shaping of Socio-Economic Systems (RLE Social Theory) Thomas Baumgartner, Tom Burns, Philippe DeVile, 2014-08-07 Actor systems dynamics is an innovative multidisciplinary methodology for investigating and analyzing social struggles over economic resources and the related interplay between economic and socio political institutions and processes The authors sociologists and economists offer a systemic perspective on contemporary socio economic issues such as economic crisis unemployment inflation economic democracy and development in their analyses they identify several of the key factors that drive people to interact to initiate change and transformation as well as to resist such change Major underlying themes in the book are Conflict over the distribution of economic resources and economic policies and institutions the structural bases of economic inequality and conflict the shaping and reshaping of socio economic institutions and the contradictions conflicts and instabilities evoked by such developments the failure of orthodox economic theories including Keynesianism in the face of recurrent economic crises and instabilities the development and application of an open dynamic actor oriented systems theory grounded in the social sciences addressing complex socio economic phenomena in ways diverging substantially from conventional economics All in all the papers collected here deal on the one hand with social power conflict and struggle concerning economic resources and institutions and on the other hand the structural and other factors which drive powering initiatives conflict and social innovation and transformation The book is addressed to a broad spectrum of social and managerial scientists concerned with socio economic issues institutions and

development , **The Social Organization of Disease** Jochen Kleres,2017-07-06 Empirically this book is a case study analysis of dissolution processes in German AIDS organizations Indeed why is it that civic organizers start out with a commitment to a cause but end up dissolving their organization This question is exactly what Kleres seeks to tackle within The Social Organization of Disease Focusing on the emotional bases of dissolved German AIDS organizations to develop a typology of civic action and organizing Kleres presents a perspective on non profit organizations that analyses organizational development through the emotional sense making of individual organizers within the light of larger political processes and cultural contexts To this end this volume develops and applies a new methodology for researching emotions empirically expanding the scope of narrative analysis However parallel to this The Social Organization of Disease also explores how shifting discursive processes establish emotional climates and thus impact on state policies and the evolution of AIDS organizing The book would appeal to sociologists and political scientists working in the field of social movements and non profit organisations but it would also appeal to those who are interested in the sociology of emotions It would potentially be of interest to non profit scholars who consider community based organizations volunteerism and advocacy and secondarily to medical sociologists interested in AIDS service organizations Sociology International relations Social Work Political Science May be of interest for NGO activists and or employees and leadership **The Struggle Over Work** Shaun

Wilson,2004-07-31 The future of work in advanced industrial democracies is the subject of intense debate and public concern Despite predictions that working hours would fall and leisure time would rise as society progressed the opposite has in fact occurred This new book contains a twofold investigation into the end of work with theoretical and policy angles contributing to the growing research field on the boundaries of economics and sociology **Sustainable Product-Service Systems**

Fabrizio Ceschin,2013-12-05 This book investigates the potential contribution that a strategic design approach can make to stimulating and supporting the societal embedding of sustainable PSSs product service systems A new strategic design role thus emerges a role in which the ideation and development of sustainable PSS concepts is coupled with the designing of appropriate transition paths sequence of socio technical experiments to gradually incubate introduce and diffuse these concepts The book also outlines the new design approach and capabilities needed by strategic designers project managers and consultants to operate at such a strategic level On a more operational point of view the work presents a practical how to do design process and associated guidelines to support practitioners in designing and managing the societal embedding process of sustainable PSS innovations Rough-Neural Computing Sankar Kumar Pal,Lech Polkowski,2012-12-06

Soft computing comprises various paradigms dedicated to approximately solving real world problems e g in decision making classification or learning among these paradigms are fuzzy sets rough sets neural networks genetic algorithms and others It is well understood now in the soft computing community that hybrid approaches combining various paradigms are very promising approaches for solving complex problems Exploiting the potential and strength of both neural networks and rough

sets this book is devoted to rough neuro computing which is also related to the novel aspect of computing based on information granulation in particular to computing with words It provides foundational and methodological issues as well as applications in various fields Dynamics of Interorganisational Collaborative Relationships Sandra Schruijer,2020-11-13 In all spheres of life relationships among public and private organizations are built in order to deal with complex societal problems and to address economic challenges that cannot be dealt with by single organizations Because of the interdependencies interorganizational collaboration is essential yet working across organizational boundaries is far from simple It involves a multitude of different organizations each having its own interests perspectives and identities while also varying in power and size Further the societal problems that are dealt with are often severe This volume focuses on the relational complexities of interorganizational collaboration captured by the term dynamics referring to a the social and psychological processes that occur when organizations and their representatives interact to engage in cross boundary or collaborative work e g trust and distrust intergroup stereotyping and conflict conflict avoidance inclusion and exclusion of stakeholders power dynamics as well as b the development of these processes over time in view of external and internal events and or as a consequence of deliberate interventions to enhance collaborative success The perspective put forward is largely psychological and sociological both in terms of understanding the group and intergroup processes as well as efforts to intervene to develop collaborative relationships based on action research and an organizational development approach

Information Systems in the Political World K. V. Andersen,1995 This text investigates the nature of impacts of information systems on the political world in the First World countries The overall aim is to provide a framework on how to analyze implications of information technology IT on the political world and vice versa This is illustrated by a study of economic modelling at the central and local levels of government
