Shares In A Nutshell:

Shares in a Nutshell Desmond Connelly, 2000 What actually are shares Would they be a sound investment for my nest egg or for building a nest egg Is buying shares very risky Do I need to have a large sum of money to invest How do I select the right shares And what about bulls bears and stags what do they have to do with the market More and more people are grappling with these kinds of questions as media reports lead them to wonder if they should join the growing ranks of Australian shareholders Back cover

Rethinking Corporate Governance Alessio Paces, 2013-01-17 The standard approach to the legal foundations of corporate governance is based on the view that corporate law promotes separation of ownership and control by protecting non controlling shareholders from expropriation This book takes a broader perspective by showing that investor protection is a necessary but not sufficient legal condition for the efficient separation of ownership and control Supporting the control powers of managers or controlling shareholders is as important as protecting investors from the abuse of these powers Rethinking Corporate Governance reappraises the existing framework for the economic analysis of corporate law based on three categories of private benefits of control Some of these benefits are not necessarily bad for corporate governance The areas of law mainly affecting private benefits of control including the distribution of corporate powers self dealing and takeover regulation are analyzed in five jurisdictions namely the US the UK Italy Sweden and the Netherlands Not only does this approach to corporate law explain separation of ownership and control better than just investor protection it also suggests that the law can improve the efficiency of corporate governance by allowing non controlling shareholders to be less powerful

Stop Investing Like They Tell You Stephen Spicer, 2018-07-03 Stop Investing Like They Tell You is a practical guide to overcoming the potentially ruinous flaws in an investment portfolio Advisors pundits and academics all parrot the same traditional paradigm of a stock and bond only investment strategy But what if they re wrong After operating under the umbrella of a large brokerage firm for over five years Stephen Spicer came to realize that his personal investment strategy was incongruent with what he was supposed to or even allowed to recommend and grew increasingly uncomfortable with the prescribed advice Unafraid to challenge the traditional paradigms of a broken system Stephen built Spicer Capital to address his clients and his own investment and financial planning concerns In Stop Investing Like They Tell You Stephen Spicer CFP challenges traditional advice and helps investors understand the four most pressing concerns for their portfolio gain confidence in their investment portfolio and better protect and grow their life savings no matter what happens
