Sharing Power? Patrick Porter, 2013 The subject of U S grand strategy has been getting increasing attention from the policy and academic communities However too often the debate suffers from being too reductionist limiting America s choices to worldwide hegemony or narrow isolation There is a wide spectrum of choices before Washington that lie somewhere in the middle Frequently not enough thought is given to how such alternative strategies should be designed and implemented The future cannot be known and earlier predictions of American decline have proven to be premature However there is a shift in wealth and power to the extent that America may not be able to hold on to its position as an unrivaled unipolar superpower Therefore it is worth thinking about how the United States could shape and adjust to the changing landscape around it What is more there are a number of interlocking factors that mean such a shift would make sense transnational problems needing collaborative efforts the military advantages of defenders the reluctance of states to engage in unbridled competition and hegemony fatigue among the American people Alternative strategies that are smaller than global hegemony but bigger than narrow isolationism would be defined by the logic of concerts and balancing in other words some mixture of collaboration and competition Can the United States adjust to a concert balance grand strategy that made space for other rising powers without sacrificing too much of its forward military presence without unleashing too much regional instability and without losing the domestic political will It is not certain that a cumulative shift to a new grand strategy would necessarily succeed since other powers might turn down the chance to cooperate But with soaring budget deficits and national debt increasing

burdens on social security and possible agonizing choices in the future between guns and butter it is surely worth a try

Sharing Power Barbara Frechette, 2011-09-09 After Barbara Frechette arrived in Colombia in 1994 as the wife of the United States ambassador she witnessed the fascinating rise of powerful women leaders during the uncertainty of a dangerous drug war that raged for years Fascinated as to how and why women progressed with such extraordinary speed in Colombia despite facing seemingly insurmountable obstacles Frechette asked seven influential women leaders to analyze this paradoxical development In this re released version of her original comprehensive study of a womens movement in Colombia that sprang to life after women won the vote in 1957 and blossomed in 1998 when two of the women in this book ran for president Frechette offers captivating chronological leadership profiles of outstanding women and the family influences leadership styles and religious roots that inspired them to seek to better their nation despite death threats and risks of political exile

Sharing Power: Prospects for a U.S. Concert-Balance Strategy (Enlarged Edition) Patrick Porter, Strategic Studies Institute, U.S. Army War College, 2013-05-18 The subject of U S grand strategy has been getting increasing attention from the policy and academic communities But too often the debate suffers from being too reductionist limiting America s choices to worldwide hegemony or narrow isolation There is a wide spectrum of choices before Washington that lie somewhere in the middle Too often not enough thought is given to how such alternative strategies should be designed and implemented The future cannot be known and earlier predictions of American decline have proven to be premature However there is a shift in wealth and power to the extent that America may not be able to hold on to its position as an unrivalled unipolar superpower Therefore it is worth thinking about how the United States could shape and adjust to the changing landscape around it What is more there are a number of interlocking factors that mean such a shift would make sense transnational problems needing collaborative efforts

Sharing Power, Securing Peace? Lars-Erik Cederman, Simon Hug, Julian Wucherpfennig, 2022-07-07 Does power sharing bring peace Policymakers around the world seem to think so Yet while there are many successful examples of power sharing in multi ethnic states such as Switzerland South Africa and Indonesia other instances show that such arrangements offer no guarantee against violent conflict including Rwanda Yugoslavia Zimbabwe and South Sudan Given this mixed record it is not surprising that scholars disagree as to whether power sharing actually reduces conflict Based on systematic data and innovative methods this book comes to a mostly positive conclusion by focusing on practices rather than merely formal institutions studying power sharing s preventive effect analyzing how power sharing is invoked in anticipation of conflict and by showing that territorial power sharing can be effective if combined with inclusion at the center The authors findings demonstrate that power sharing is usually the best option to reduce and prevent civil conflict in divided states

Sharing Power Manon Tremblay, 2017-03-02 The

representation of women in parliament is a subject of extensive research and a focus for political action in the last decade. The wide variation in women's parliamentary presence contradicts the expectation that established or consolidated democracies are more supportive of the presence of women in political life than emerging democracies. This volume explains this variation through a series of closely investigated case studies from the post-Communist transition democracies of Eastern Europe and emerging democracies in Asia and the Middle East to the long-established liberal democratic states. The volume examines the history of women's legislative involvement clearly addressing the issue of equal opportunities for women in political life on a cross-national basis. It also identifies innovative solutions to redress the power-sharing balance between women and men. Offering a unique comparative perspective, *Sharing Power* will appeal to students and scholars of politics, women's studies, history and legislative studies.

Power-Sharing Allison McCulloch, John McGarry, 2017-04-21

Power sharing is an important political strategy for managing protracted conflicts and it can also facilitate the democratic accommodation of difference. Despite these benefits it has been much criticised with claims that it is unable to produce peace and stability is ineffective and inefficient and obstructs other peacebuilding values including gender equality. This edited collection aims to enhance our understanding of the utility of power sharing in deeply divided places by subjecting power sharing theory and practice to empirical and normative analysis and critique. Its overarching questions are: Do power sharing arrangements enhance stability, peace and cooperation in divided societies? Do they do so in ways that promote effective governance? Do they do so in ways that promote justice, fairness and democracy? Utilising a broad range of global empirical case studies, it provides a space for dialogue between leading and emerging scholars on the normative questions surrounding power sharing. Distinctively, it asks proponents of power sharing to think critically about its weaknesses. This text will be of interest to students, scholars and practitioners of power sharing, ethnic politics, democracy and democratization, peacebuilding, comparative constitutional design and more broadly, Comparative Politics, International Relations and Constitutional and Comparative Law.

Power Sharing Ian O'Flynn, David Russell, 2005-10-20

It is widely assumed that internal power sharing is a viable democratic means of managing inter-communal conflict in divided societies. In principle, this form of government enables communities that have conflicting identities to remedy longstanding patterns of discrimination and to co-exist peacefully. Key arguments in support of this view can be found in the highly influential works of Arend Lijphart and Donald Horowitz. *Power Sharing* seeks to explore the unintended consequences of power sharing for the communities themselves, their individual members and for others in society. More specifically, it is distinctive in questioning explicitly whether power sharing perpetuates inter-communal conflict by institutionalising difference at the political level, inhibits conflict resolution by encouraging extremism, stifles internal diversity and fails to leave sufficient space for individual autonomy. This book not only provides a theoretical exploration and critique of these questions but comprehensively examines specific test cases where power sharing institutions have been established, including in Northern Ireland, Belgium, Bosnia Herzegovina, Macedonia and

Lebanon It also explores such issues as the role of political leaders human rights instruments the position of women and the prospects for reconciliation within such societies Furthermore it provides a detailed set of policy recommendations to meet the challenges of transition in deeply divided societies
