features and behavior of the shark **The Secret Life of Sharks** A. Peter Klimley, 2008-06-17 Marine biologist Pete Klimley swims with the sharks He was one of the first scientists to free dive among sharks and he has spent nearly thirty years studying shark behavior sometimes swimming in schools of several hundred sharks From his firsthand observations he has learned that sharks are not the vicious man eaters that we imagine but fascinating animals with complex behaviors Most people who think of sharks at all think immediately of great white sharks But there are more than four hundred species of

shark Dr Klimley has studied several species most notably the great white and the hammerhead He describes the great white as the athlete among sharks and the hammerhead as the Ph D of the shark world In *The Secret Life of Sharks* Dr Klimley reveals the significant discoveries he made about hammerhead navigation and great white eating habits By studying hammerheads gathered around underwater seamounts Dr Klimley learned that hammerheads rely on sophisticated tracking of ocean floor magnetism to navigate His long term study of great white sharks off the California coast demonstrated that these huge sharks prefer to eat seals and sea lions because of the energy contained in their fatty bodies They are selective eaters not the man eaters we expect and they sometimes go weeks between meals But Dr Klimley did observe a ritualized behavior that great whites practice in order to avoid deadly disputes over prey that one shark has captured and another wants Although we have learned a great deal about shark behavior says Dr Klimley there is much that we do not know Unfortunately we are destroying these magnificent creatures of the deep through overfishing and degradation of the oceans Already some populations of sharks have declined steeply Vividly written by one of the foremost authorities on sharks *The Secret Life of Sharks* is a fascinating account of some of the world s most magnificent animals **Ocean Watch** Martyn Bramwell, Jayne Parsons, 2001 Explains current concerns about the environment and helps plan the future with practical ideas that can really make a difference *Great White Shark* Richard Spilsbury, 2004 What makes a great white shark warm bodied but not warm blooded How many teeth does a great white shark have What are denticles Are great white sharks more dangerous to people Or are people more dangerous to the great white shark In *Great White Shark* you will learn what is fact and what is fiction where the great white is concerned Find out what it usually eats Learn why it sometimes bites people yet does not always kill the person it bites Will the great white shark survive the dangers in its habitat including fishing vessels and tourists **Sharks for Kids** David McGuire, 2025-06-17 Meet the ocean s apex predators with the Junior Scientists series for kids ages 6 to 9 Sharks come in all shapes and sizes from giant whale sharks the size of school buses to tiny dwarf lanternsharks only eight inches long *Sharks for Kids* introduces you to these magnificent creatures through vivid illustrations and photographs of some of the biggest smallest and strangest sharks swimming the seas In this top choice among sharks books for kids you ll get to know goblin sharks thresher sharks and many more In one of the most engaging sharks books for kids you ll discover tons of in depth facts about some of your favorite sharks including what they eat how they hunt their life cycles and how people around the world are working to protect them You ll also learn about how they see smell and communicate in the deep sea Your underwater shark adventure begins here This standout selection among sharks books for kids includes So many sharks Check out all the wild information on a variety of species Age appropriate The content inside this outstanding pick among sharks books for kids is the perfect reading level for kids ages 6 to 9 Unbelievable images Sharks books for kids should have colorful photos and illustrations and this book delivers If you ve been searching for in depth sharks books for kids *Sharks for Kids* is a cut above the rest
