Bridge for Beginners Zia Mahmood, Audrey Grant, Omar Sharif, 2014-10-30 Bridge is an easy game to learn but it takes a lifetime to master This monumental work is designed to take the student to a level at which he or she can play in a bridge club or tournament with confidence This book was originally published as three volumes on Bidding Declarer Play and Defence It combines the talents of top Canadian bridge teacher Audrey Grant regarded as the leading tutor in North America

and the charismatic and world renowned bridge player Zia Mahmud voted bridge personality of the decade by both International Popular Bridge Monthly and Bridge Today Zia presented the BBC television series Play Bridge with Zia and his lively and lucid style is ideal to popularise the game for a wide audience *Opening the Gates of Hell* Richard Hargreaves,2025-06-05 A unique account of the opening weeks of history s largest most brutal conflict told through the eyes of those who were there and based on original source material from across Europe *Opening the Gates of Hell* is based on over a decade s research in archives and sites across Europe It is a ground breaking examination of the start of the Nazi Soviet conflict a narrative history not just of the fighting but also the impact on civilians the atrocities committed by both sides and ethnic cleansing carried out by the inhabitants of the regions invaded This fascinating history tells the stories of bravery cowardice misery and horror through the eyes of those who were there including ordinary soldiers generals leaders politicians and civilians on both sides The book draws on published and unpublished sources from across Germany and Eastern Europe with the majority of the material never having appeared in English language accounts of the conflict before The combination of combat accounts analysis of high level diplomacy and leadership and the visceral accounts of the atrocities committed by both sides gives this book a unique approach to the war on the Eastern Front and will ensure that it is regarded as the definitive work on the subject for many years to come *The Saturday Review of Politics, Literature, Science and Art* ,1906 ***The Saturday Review of Politics, Literature, Science, Art, and Finance*** ,1908 *A New English Dictionary on Historical Principles* James Augustus Henry Murray,Sir William Alexander Craigie,Charles Talbot Onions,1919 *Stalin and Mao* Lucien Bianco,2018-03-15 China s ascent to the ranks of the world s second largest economic power has given its revolution a better image than that of its Russian counterpart Yet the two have a great deal in common Indeed the Chinese revolution was a carbon copy of its predecessor until Mao became aware not so much of the failures of the Russian model but of its inability to adapt to an overcrowded third world country Yet instead of correcting that model Mao decided to go further and faster in the same direction The aftershock of an earthquake may be weaker but the Great Leap Forward of 1958 in China was far more destructive than the Great Turn of 1929 in the Soviet Union It was conceived with an idealistic end but failed to take all the possibilities into account China s development only took off after and thanks to Mao s death once the country turned its back on the revolution Lucien Bianco s original comparative study highlights the similarities the all powerful bureaucracy the over exploitation of the peasantry which triggered two of the worst famines of the 20th century control over writers and artists repression and labor camps The comparison of Stalin and Mao that completes the picture leads the author straight back to Lenin and he quotes the observation by a Chinese historian that If at all possible it is best to avoid revolutions altogether *The Century Dictionary and Cyclopedia* ,1906

Development and Gender Capital in India Shoba Arun,2017-09-06 The Indian state of Kerala has invoked much attention within development and gender debates specifically in relation to its female capital an outcome of interrelated historical

cultural and social practices On the one hand Kerala has been romanticised with its citizenry particularly women being free of social divisions and uplifted through educational well being On the other hand its realism is stark particularly in the light of recent social changes Using a Bourdieusian frame of analysis *Development and Gender Capital in India* explores the forces of globalisation and how they are embedded within power structures Through narratives of women s lived experiences in the private and public domains it highlights the anomie of gender through complexities and contradictions vis vis processes of modernity development and globalisation By demonstrating the limits placed upon gender capital by structures of patriarchy and domination it argues that discussions about the empowered Malayalee women should move from a mere politics of rhetoric and representation to a more embedded politics of transformation meaningfully taking into account women s changing roles and identities This book will be of interest to scholars and students of Development Studies Gender Studies Anthropology and Sociology
