The Necropolitical Theater Jeffrey K. Coleman, 2020-05-15 The Necropolitical Theater Race and Immigration on the Contemporary Spanish Stage demonstrates how theatrical production in Spain since the early 1990s has reflected national anxieties about immigration and race Jeffrey K Coleman argues that Spain has developed a necropolitical theater that casts the non European immigrant as fictionalized enemy one whose nonwhiteness is incompatible with Spanish national identity and therefore poses a threat to the very Europeaness of Spain The fate of the immigrant in the necropolitical theater is death either physical or metaphysical which preserves the status quo and provides catharsis for the spectator faced with the notion of racial diversity Marginalization forced assimilation and physical death are outcomes suffered by Latin American North African and sub Saharan African characters respectively and in these differential outcomes determined by skin color Coleman identifies an inherent racial hierarchy informed by the legacies of colonization and religious intolerance Drawing on theatrical texts performances legal documents interviews and critical reviews this book challenges Spanish theater to develop a new theatrical space Jeffrey K Coleman proposes a convivial theater that portrays immigrants as contributors to the Spanish state and better represents the multicultural reality of the nation today *The Whole Island* Mark Weiss, 2009-11-25 Cuba's cultural influence throughout the Western Hemisphere and especially in the United States has been disproportionately large for so small a country This landmark volume is the first comprehensive overview of poetry written over the past sixty years Presented in a beautiful Spanish English en face edition *The Whole Island* makes available the astonishing achievement of a wide range of Cuban poets including such well known figures as Nicol's Guill'n Jos Lezama Lima and Nancy Morej'n but also poets widely read in Spanish who remain almost unknown to the English speaking world among them Fina Garc'a Marruz Jos Kozar Ra'l Hern'ndez Nov's and ngel Escobar and poets born since the Revolution like Rogelio Saunders Omar P rez Alessandra Molina and Javier Marim'n The translations almost all of them new convey the intensity and beauty of the accompanying Spanish originals With their work deeply rooted in Cuban culture many of these poets both on and off the island have been at the center of the political and social changes of this tempestuous period The poems offered here constitute an essential source for understanding the literature and culture of Cuba its diaspora and the Caribbean at large and provide an unparalleled perspective on what it means to be Cuban **The Cambridge Companion to Latin American Poetry** Stephen M. Guarding Cultural Memory Flora María González Mandri, 2006 In *Guarding Cultural Memory* Flora González Mandri examines the vibrant and uniquely illuminating post Revolutionary creative endeavors of Afro Cuban women Taking on the question of how African diaspora cultures practice remembrance she reveals the ways in which these artists restage the confrontations between modernity and tradition González Mandri considers the work of the poet and cultural critic Nancy Morejón the poet Excilia Saldaña the filmmaker Gloria Rolando and the artists María Magdalena Campos Pons and Belkis Ayón In their cultural representations these women conflate the artistic the historical and the personal to produce a transformative image of the black woman as a forger of Cuban culture They achieve this in several ways by redefining autobiography as a creative expression for the convergence of the domestic and the national by countering the eroticized image of the mulatta in favor of a mythical conception of the female body as a site for the engraving of cultural and national conflicts and resolutions and by valorizing certain aesthetic and religious traditions in relation to a postmodern artistic sensibility Placing these artists in their historical context González Mandri shows how their accomplishments were consistently silenced in official Cuban history and culture and explores the strategies through which culturally censored memories survived and continue to survive in a Caribbean country purported to have integrated its Hispanic and African peoples and heritages into a Cuban identity The picture that finally emerges is one not only of exceptional artistic achievement but also of successful redefinitions of concepts of race gender and nation in the face of almost insurmountable cultural odds

Walters, 2003 A study of the most racially conscious aspect of the Conservative movement and its impact on politics and current public policy The rise of the Conservative movement in the United States over the last two decades is evident in current public policy including the passage of the Welfare Reform Act the weakening of affirmative action and the approval of educational vouchers for private schooling At the same time new rules on congressional redistricting prohibit legislators from constructing majority black congressional districts and blacks continue to suffer disproportionate rates of incarceration and death penalty sentencing In this significant new study the

distinguished political scientist Ronald W Walters argues that the Conservative movement during this period has had an inordinate impact on American governing institutions and that a strong though very often unstated racial hostility drives the public policies put forth by Conservative politicians Walters traces the emergence of what he calls a new White Nationalism showing how it fuels the Conservative movement invades the public discourse and generates policies that protect the interests of white voters at the expense of blacks and other nonwhites Using historical and contemporary examples of White Nationalist policy as well as empirical public opinion data Walters demonstrates the degree to which this ideology exists among white voters and the negative impact of its policies on the black community White Nationalism Black Interests terms the current period a second Reconstruction comparing the racial dynamics in the post Civil Rights era to those of the first Reconstruction following the end of the Civil War Walters s analysis of contemporary racial politics is uniquely valuable to scholars and lay readers alike and is sure to spark further public debate

Black Writing, Culture, and the State in Latin America Jerome C. Branche, 2021-04-30 Imagine the tension that existed between the emerging nations and governments throughout the Latin American world and the cultural life of former enslaved Africans and their descendants A world of cultural production in the form of literature poetry art music and eventually film would often

simultaneously contravene or cooperate with the newly established order of Latin American nations negotiating independence and a new political and cultural balance In *Black Writing Culture and the State in Latin America* Jerome Branche presents the reader with the complex landscape of art and literature among Afro Hispanic and Latin artists Branche and his contributors describe individuals such as Juan Francisco Manzano who wrote an autobiography on the slave experience in Cuba during the nineteenth century The reader finds a thriving Afro Hispanic theatrical presence throughout Latin America and even across the Atlantic The role of black women in poetry and literature comes to the forefront in the Caribbean presenting a powerful reminder of the diversity that defines the region All too often the disciplines of film studies literary criticism and art history ignore the opportunity to collaborate in a dialogue Branche and his contributors present a unified approach however suggesting that cultural production should not be viewed narrowly especially when studying the achievements of the Afro Latin world
