On Kubrick James Naremore, 2019-07-25 On Kubrick provides an illuminating critical account of the films of Stanley Kubrick from his earliest feature *Fear and Desire* 1953 to the posthumously produced *A.I. Artificial Intelligence* Steven Spielberg 2001 The book offers provocative analysis of each of Kubrick's films together with new information about their production histories and cultural contexts Its ultimate aim is to provide a concise yet thorough discussion that will be useful as both an academic text and a trade publication James Naremore argues that in several respects Kubrick was one of the cinema's last modernists his taste and sensibility were shaped by the artistic culture of New York in the 1950s he became a celebrated auteur who forged a distinctive style he used art cinema conventions in commercial productions he challenged censorship regulations and throughout his career he was preoccupied with one of the central themes of modernist art the conflict between rationality and its ever present shadow the unconscious War and science are key concerns in Kubrick's oeuvre and his work has a hyper masculine quality Yet no director has more relentlessly emphasized the absurdity of combat as in *Paths of Glory* 1957 and *Full Metal Jacket* 1987 the failure of scientific reasoning as in *2001* 1968 and the fascistic impulses in masculine sexuality as in *Dr. Strangelove* 1964 and *Eyes Wide Shut* 1999 The book also argues that while Kubrick was a voracious intellectual and a life long autodidact the fascination of his work has less to do with the ideas it espouses than with the emotions it evokes Often described as cool or cold Kubrick is best understood as a skillful practitioner of what might be called the aesthetics of the grotesque he employs extreme forms of caricature and black comedy to create disgusting frightening yet also laughable images of the human body creating a sense of unease that leaves viewers unsure of how to react

The Girl's Own Annual, 1891 [Waltzing with the Ghost of Tom Joad](#)

Robert Lee Maril, 2002-09-01 In Oklahoma eighth poorest state in the nation poverty is a pressing social problem Even so Robert Lee Maril's *Waltzing with the Ghost of Tom Joad* is the first comprehensive analysis of poverty in the state Skillfully combining ethnography with statistical analysis Maril portrays the lives of poverty stricken Oklahomans many of them children minorities and the elderly Exploring myths about the poor and discussing the facts behind these myths Maril discusses the real causes of poverty in the state especially low wage labor He concludes by presenting a public policy agenda that would benefit the poor directly and in so doing improve the lives of all Oklahomans From the Foreword by Robert McCormick Why did my grandparents and many Oklahomans of their generation escape from poverty while many others did not The reasons are not clear Nor do we have easy explanations for those present day Oklahomans fighting the same struggle Robert Lee Maril's compelling account shows the plight of hundreds of thousands who remain poor even though conditions in the state have vastly improved Blaming the victim is not an option for intelligent and caring Oklahomans The question before us today is what will we do as citizens to reduce the level of poverty in our state From my vantage point as someone who has fought for increased opportunities for Oklahomans I have seen a common thread that runs through story after story of

individuals who make the move from poverty to prosperity that thread is access to and support for education Inherent inequalities in economic and family backgrounds often dissipate before doors that education routinely opens One wonders in reading Dr Maril s accounts of Oklahomans in poverty how different their stories might have been had someone cared enough to see to it that their underlying condition of poverty did not interfere with their opportunity to get an education
