Louise Von Gall Her World And Work:

Louise Von Gall Hugh Powell,1993 Louise von Gall 1815 1855 wrote two novels over 20 short stories two comedies and numerous feuilletons She was a writer of fiction whose works betrayed her interests in politics economics technology and the injustices suffered by a majority of the German population In her time she was considered a minor writer though it is now evident that her works revealed more about contemporary problems than those of much more prominent writers Powell's book aims to reappraise the works and achievements of a long forgotten social critic and to place her in the environment of other would be social reformers such as Karl Gutzkow and the economist Friedrich List Ambivalence Transcended Gertrud Bauer Pickar,1997 First comprehensive study in English of Germany's most prominent female author Annette von Droste H Lshoff 1798 1848 remains Germany's foremost female author Perhaps best known for her novella *Die Judenbuche* and her ballads Droste's narrative ability in prose or verse and her gift for forging highly crafted often poignant lyrical works have brought her continuing and growing critical acclaim Recent critical interest has brought her new recognition as a forerunner in the struggle of women to find their own literary voices This volume is the first comprehensive study in English of Droste's works and authorial career It combines a broad view of her literary and epistolary writings with close readings of individual works *Heinrich Burkart* Therese von Bacheracht,1997 Novel of political and social emancipation set in mid 19c Switzerland in its first English translation This highly topical work is the most interesting of Bacheracht's novels since it was inspired by the problems causing social and political unrest in the 1840s When banished from his domicile in Germany Heinrich Burkart chooses to go to Switzerland the asylum of many German political refugees and here he establishes a flourishing commune where workers and their families are cared for from cradle to maturity This novel is one of the first to point to the emergence of the technician toward the middle of the nineteenth century The romance chronicled in the novel does not overshadow the political and social aspects of the work but rather contributes to them by juxtaposing the submissive middle class daughter and the cultured self emancipated woman Nineteenth-century German Writers to 1840 James N. Hardin,Siegfried Mews,1993 Profiles more than thirty German writers of the nineteenth century up to 1840 presenting primary and secondary bibliographies and illustrated biographical essays that chronicle each writer's career in detail South Atlantic Review ,1995 **Choice** ,1994 **GNR** ,1997 *AUMLA* ,1996-11 *Michigan Germanic studies* ,1992 Choice Reviews in Women's Studies, 1990-96 Association of College and Research Libraries,1997 This is a collection of reviews that appeared in CHOICE magazine of over 2 000 women's studies titles Arranged alphabetically by subject matter using the editor's classifications each entry reprints the text of the original review gives bibliographic data and indicates readership level
