Love And Language A Study Of The Classical French Moralists Writers:

- Love and Language** Louise K. Horowitz, **Love and language** Louise Kahan Horowitz, 1973 **A Critical Bibliography of French Literature** H. Gaston Hall, 1983-02-01 Richard A Brooks general editor v **Psychosomatic Disorders in Seventeenth-Century French Literature** Bernadette Höfer, 2016-04-15 Bernadette Höfer's innovative and ambitious monograph argues that the epistemology of the Cartesian mind/body dualism and its insistence on the primacy of analytic thought over bodily function has surprisingly little purchase in texts by prominent classical writers. In this study Höfer explores how Surin, Molière, Lafayette, and Racine represent interconnections of body and mind that influence behaviour both voluntary and involuntary and that thus disprove the classical notion of the mind as distinct from and superior to the body. The author's interdisciplinary perspective utilizes early modern medical and philosophical treatises as well as contemporary medical compilations in the disciplines of psychosomatic medicine, neurobiology, and psychoanalysis to demonstrate that these seventeenth-century French writers established a view of human existence that fully anticipates current thought regarding psychosomatic illness. **Appelle-moi Pierrot** Jo Ann Marie Recker, 1986-01-01 The application of Molière's critical theory to the Correspondance of Mme de Sévigné can contribute to a renewed appreciation of the highly intellectual quality of the comic genius of a spirituelle marquise, a mother who desperately wanted to entice a distanced daughter to regularity in an epistolary exchange, a woman of wit and irony. **La Rochefoucauld and the Seventeenth-century Concept of the Self** Vivien Thweatt, 1980 **Jean-Jacques Rousseau: Politics, art, and autobiography** John T. Scott, 2006 Bringing together critical assessments of the broad range of Rousseau's thought with a particular emphasis on his political theory, this systematic collection is an essential resource for both student and scholar.
- Musical Voices of Early Modern Women* Thomas LaMay, 2017-05-15 Recent scholarship has offered a veritable landslide of studies about early modern women, illuminating them as writers, thinkers, midwives, mothers in convents at home and as rulers. *Musical Voices of Early Modern Women* adds to the mix of early modern studies a volume that correlates women's musical endeavors to their lives, addressing early modern women's musical activities across a broad spectrum of cultural events and settings. The volume takes as its premise the notion that while women may have been squeezed to participate in music through narrower doors than their male peers, they nevertheless did so with enthusiasm, diligence, and success. They were there in many ways, but as women's lives were fundamentally different and more private than men's, their strategies, tools, and appearances were sometimes also different and thus often unstudied in an historical discipline that primarily evaluated men's productivity. Given that many of these stories will not necessarily embrace a standard musical repertoire, even as they seek to expand canonical borders, the contributors to this collection explore the possibility of a larger musical culture which included women as well as men, by examining early modern women in many-headed ways through the lens of musical production. They look at how women composed, assuming that compositional gender strategies may have been

used differently when applied through her vision how women were composed or represented and interpreted through music in a larger cultural context and how her presence in that dialog situated her in social space Contributors also trace how women found music as a means for communicating for establishing intellectual power for generating musical tastes and for enhancing the quality of their lives Some women performed publicly and thus some articles examine how this impacted on their lives and families Other contributors inquire about the economics of music and women and how in different situations some women may have been financially empowered or even in control of their own money making This collection offers a glimpse at women from home stage work and convent from many classes and from culturally diverse countries including France Spain Italy England Austria Russia and Mexico and imagines a musical history centered in the realities of those lives

The Dynamics of Gender in Early Modern France Domna C. Stanton, 2016-03-23 In its six case studies *The Dynamics of Gender in Early Modern France* works out a model for early modern gender which is articulated in the introduction The book comprises essays on the construction of women three in texts by male and three by female writers including Racine F nelon Poulain de la Barre in the first part La Guette La Fayette and S vign in the second These studies thus also take up different genres satire tragedy and treatise memoir novella and letter writing Since gender is a relational construct each chapter considers as well specific textual and contextual representations of men In every instance Stanton looks for signs of conformity to and deviations from normative gender scripts *The Dynamics of Gender* adds a new dimension to early modern French literary and cultural studies it incorporates a dynamic shifting theory of gender and it engages both contemporary critical theory and literary historical readings of primary texts and established concepts in the field This book emphasizes the central importance of historical context and close reading from a feminist perspective which it also interrogates as a practice The Afterword examines some of the meanings of reading as a feminist [Encyclopedia of Life Writing](#) Margaretta Jolly, 2013-12-04 First published in 2001 Routledge is an imprint of Taylor Francis an informa company
