MOTHERHOOD IN TONI MORRISON'S BELOVED Zita Rarastesia, 2011-10-19 This book discusses Toni Morrison s *Beloved* and attempts to explain the healing process of black people in the United States from the pain of slavery Using black feminist approach the author discusses how the female characters deal with the past and live with it in the present what love and motherhood mean to the female characters and how much the past influences their lives This approach is considered the most effective one to analyze *Beloved* related to three kinds of inseparable oppression sexism racism and classism *Beloved* delivers a universal message to all black people that even though they must live with the past of slavery they should learn from it to face the future Although the pain of slavery still remains in black people s memories they have to move on *Beloved* also makes the readers see that not all black people are victims and not all white people are oppressors *The Bond of Love: Catholic Teaching on Marriage & Sexual Ethics* Willem Jacobus Cardinal Eijk, 2025-09-10 Contemporary attitudes toward marriage family life and human sexuality have undergone profound changes since the mid twentieth century spurred by a host of social and cultural factors Large segments of the population in the West now hold views on marriage and sexual ethics that are very different from the values and norms taught by the Church Indeed Catholic teaching on the truth of marriage and human sexuality is open to strong criticism including among groups of Catholics and seems at best poorly

understood In *The Bond of Love* Willem Jacobus Cardinal Eijk provides a comprehensive and unflinching account of the Church's teaching on marriage and sexual ethics dispelling misconceptions and elucidating its truth with grace and clarity As he demonstrates far from being a set of arbitrary rules that constrain human freedom this teaching is instead a deep wisdom for human flourishing anchored in the truth of God and man divinely revealed within Scripture Tradition and the Gospel Eijk first locates Catholic teaching on marriage and sexuality in relation to the currently dominant views in Western society He follows this with an exposition of the fundamental starting point of the Church's teaching on the nature of marriage and sexuality rooted in theological anthropology Next discussed is the virtue of chastity the integration of the sexual faculties into the personality and what it requires of both married and unmarried persons The volume concludes by addressing practices and circumstances that violate the essence of marriage This powerful witness to the truth and beauty of Catholic teaching on marriage and sexual ethics is a vital resource for pastors teachers and all of the Church's faithful striving to live in the love and communion that is grounded in Christ

Helping the Addict You Love Laurence M. Westreich, MD, 2007-04-17 It s okay to love them It s your right to help them Addiction destroys people and can even end lives When you know or suspect that someone you love is suffering from addiction you have two goals getting your loved one into treatment and turning that treatment into full fledged sobriety Many addiction experts tell you that you have to disengage or risk being an enabler a codependent bystander in the wreckage of an addict s life that you have to cut all ties or be taken advantage of financially and emotionally that you have to protect yourself from your loved one who isn t the person you used to know But many friends and family members find it unnatural even impossible to turn away from a person they love who is at his lowest point and refuse to believe that their addict is lost to addiction Backed by his years of experience Dr Westreich guides you through the process of getting the addict you love on the road to treatment and recovery He provides detailed scripts to lead you through pivotal conversations with the addict in your life highlighting the words that he s found to be most effective and the words to avoid With this book in hand family and friends will know for example how to motivate their addict to recognize his problem based on the addict s own definition of what addiction looks like how to raise the bottom that addicts so often must hit to a more acceptable level such as embarrassment job loss or ill health and when to use gentle disagreement quiet listening or forceful confrontation to move the addict toward treatment while managing and protecting their own emotions Dr Westreich also shows you how to

engage a therapist in the process and provides methods for combating an addict's defense mechanisms. By outlining several treatment options he helps you to weigh what each can and cannot accomplish, which is the most effective treatment for the kind of addiction you are dealing with, what each treatment requires of the recovering addict and the friend or family member, and how successful each is. Dr. Westreich also takes care to discuss the kinds of special situations you may face when the addict in your life, in addition to having a substance abuse problem, is a minor, is pregnant, has mental or medical diseases, or has other issues that are likely to affect recovery. *Helping the Addict You Love* is the guide that so many loved ones of addicts have desperately needed. Dr. Westreich supports you through the emotional process of helping the addict you love; tells you it's okay to want to help and teaches you how to do so. *Half in Love With Death* Joel Paris, 2017-09-25 *Half in Love With Death* presents a new way for therapists to manage chronically suicidal patients, an incredibly challenging task for clinicians and one where an insufficient amount of literature exists to guide professionals. Author Joel Paris suggests an approach that defies conventional wisdoms about whether suicide can be predicted or prevented. He asserts that managing chronically suicidal patients begins with tolerating suicidality, understanding the inner world of patients, avoiding repeated hospitalizations, and focusing on life situations that maintain suicidal ideas and behaviors. Each chapter in the book develops a theoretical perspective based on empirical data, and many are illustrated by clinical examples. Topics addressed throughout the text include distinctions among various types of suicidality, the inner world of the chronically suicidal patient, with a particular focus on pain, emptiness, and hopelessness; the relationship between chronic suicidality and personality disorders, especially the category of borderline personality; the effectiveness of psychotherapy and pharmacotherapy for chronically suicidal patients; and the risks of litigation in managing this patient population. This volume is a crucially important resource for clinicians who treat chronically suicidal patients, as it fills a gap in existing literature and provides enlightened guidelines that stem from a large body of research in the field. *The Origins of the Love Song* Nino Tsitsishvili, 2022-11-18 The book offers a radically new perspective on the origins of the love song and human sexuality in an evolutionary context. By comparing different human societies and animal species past and present, it reveals that love songs, romantic love, and exclusive pair bonds are not the original evolutionary features of *Homo sapiens*. One of the key findings of the book is that early humans practiced multiple partner sexual relations, similar to our closest relatives, bonobos and chimpanzees, but with the emergence of culture and sexual taboo, their behaviour had to adjust. It contends that since the exodus from Africa and the rise of culture, humans started to distance themselves from the rest of the animal kingdom, drastically restraining their innate sexual nature. The book will appeal to both scholars and laypeople with an interest in evolutionary theory, socio-biology, anthropology, and the origins of culture. **Life, Love and Children** Irina Pollard, 2012-12-06 Discussion of bioscience ethics requires understanding of the science that underpins biological systems impinging on our lives. Unencumbered by the formal structure of ethics, bioethics presents a forum for discussion of practical matters of individual and collective concern.

This comprehensive text is a guide to the essentials of bioscience ethics and an interface between applied science and applied bioethics. Early chapters embrace topics affecting human reproduction, substance abuse and parenthood, aging, gametes and congenital malformations, child abuse and its biological consequences. Intermediate chapters deal with end of life care and euthanasia, human fertility, assisted reproductive technologies, genetic engineering and cloning. Remaining chapters challenge human dominated ecosystems. Population growth, economic activity and warfare with its environmental consequences are reviewed. A background section describes the evolution of ethical consciousness, explores the future and proposes that the reworking of ethical boundaries can enhance mature decision making in harmony with changing technology.

Love and Survival Dean Ornish, 2016-05-10. The Medical Basis for the Healing Power of Intimacy. We all know that intimacy improves the quality of our lives. Yet most people don't realize how much it can increase the quality of our lives, our survival. In this New York Times world renowned physician Dean Ornish M.D. writes, "I am not aware of any other factor in medicine that has a greater impact on our survival than the healing power of love and intimacy. Not diet, not smoking, not exercise, not stress, not genetics, not drugs, not surgery." He reveals that the real epidemic in modern culture is not only physical heart disease but also what he calls spiritual heart disease: loneliness, isolation, alienation and depression. He shows how the very defenses that we think protect us from emotional pain are often the same ones that actually heighten our pain and threaten our survival. Dr. Ornish outlines eight pathways to intimacy and healing that have made a profound difference in his life and in the life of millions of others in turning sadness into happiness, suffering into joy.

The Semiotics of Love Marcel Danesi, 2019-07-30. The Semiotics of Love brings together work on early symbolism, literary practices and contemporary communication on the theme of romance and the idea of love to forge an understanding of the semiotic cultural side of romance. Moving beyond psychological and neuroscientific scholarly analyses of love, Marcel Danesi works to interrogate the cultural constructions of love across societies. This book analyzes romantic love from the general perspective of semiotics that is from its more generic interpretive angle rather than its more technical one. The specific analytical lens used is based on the notion that we convert our feeling structures into sign structures: words, symbols and sign-based constructions, texts, rituals, etc. which then allow us to reflect upon something cognitively rather than just experience it physically and emotionally.
