Love and napalm, export U.S.A James G. Ballard, 1972 **Voices for the Future** Thomas D. Claerson, 1979 Essays on major science fiction writers Deleuze and the Schizoanalysis of Literature Ian Buchanan, Tim Matts, Aidan Tynan, 2015-02-26 In 1972 the French theorists Deleuze and Guattari unleashed their collaborative project which they termed schizoanalysis upon the world Today few disciplines in the humanities and social sciences have been left untouched by its influence Through a series of groundbreaking applications of Deleuze and Guattari's work to a diverse range of literary contexts from Shakespeare to science fiction this collection demonstrates how schizoanalysis has transformed and is transforming literary scholarship Intended for upper level undergraduates postgraduates and scholars with an interest in continental philosophy literary theory and critical and cultural theory *Deleuze and the Schizoanalysis of Literature* is a cutting edge volume featuring some of the most original voices in the field setting the agenda for future research *J.G. Ballard's Surrealist Imagination* Jeannette Baxter, 2016-12-05 Making the case that J G Ballard's fictional and non fictional writings must be read within the framework of Surrealism Jeannette Baxter argues for a radical revisioning of Ballard that takes account of the political and ethical dimensions of his work Ballard's appropriation of diverse Surrealist aesthetic forms and political writings Baxter suggests are mobilised to contest official narratives of postwar history and culture and offer a series of counter historical and counter cultural critiques Thus Ballard's work must be understood as an exercise in Surrealist historiography that is politically and ethically engaged Placing Ballard's illustrated texts within this critical framework permits Baxter to explore the effects of photographs drawings and other visual symbols on the reading experience and the production of meaning Ballard's textual spectacles raise a variety of questions about the shifting role of the reader and the function of the written text within a predominantly visual culture while acknowledging the visual contexts of Ballard's Surrealist writings allows a very different historical picture of the author and his work to emerge *K-punk* Mark Fisher, 2018-11-13 A comprehensive collection of the writings of Mark Fisher 1968 2017 whose work defined critical writing for a generation This comprehensive collection brings together the work of acclaimed blogger writer political activist and lecturer Mark Fisher aka k punk Covering the period 2004 2016 the collection will include some of the best writings from his seminal blog k punk a selection of his brilliantly insightful film television and music reviews his key writings on politics activism precarity hauntology mental health and popular modernism for numerous websites and magazines his final unfinished introduction to his planned work on Acid Communism and a number of important interviews from the last decade Edited by Darren Ambrose and with a foreword by Simon Reynolds **J. G. Ballard** D. Harlan Wilson, 2017-11-10 Prophetic short stories and apocalyptic novels like *The Crystal World* made J G Ballard a foundational figure in the British New Wave Rejecting the science fiction of rockets and aliens he explored an inner space of humanity informed by psychiatry and biology and shaped by surrealism Later in his career Ballard's combustible plots and violent imagery spurred controversy even legal

action while his autobiographical 1984 war novel *Empire of the Sun* brought him fame D Harlan Wilson offers the first career spanning analysis of an author who helped steer SF in new if startling directions Here was a writer committed to moral ambiguity one who drowned the world and erected a London high rise doomed to descend into savagery and coolly picked apart the characters trapped within each story Wilson also examines Ballard s methods his influence on cyberpunk and the ways his fiction operates within the sphere of our larger culture and within SF itself *Britannica Book of the Year 2010* Encyclopaedia Britannica, Inc.,2010-03-01 The Britannica Book of the Year 2010 provides a valuable veiwpoint of the people and events that shaped the year and serves as a great reference source for the latest news on the ever changing populations governments and economies throughout the world It is an accurate and comprehensive reference that you will reach for again and again

Historical Dictionary of Science Fiction in Literature M. Keith Booker,2014-10-01 The Historical Dictionary of Science Fiction in Literature is a useful reference to the broad and burgeoning field of science fiction literature Science fiction literature has gained immensely in critical respect and attention while maintaining a broad readership However despite the fact that it is a rapidly changing field contemporary science fiction literature also maintains a strong sense of its connections to science fiction of the past which makes a historical reference of this sort particularly valuable as a tool for understanding science fiction literature as it now exists and as it has evolved over the years The Historical Dictionary of Science Fiction in Literature covers the history of science fiction in literature through a chronology an introductory essay and an extensive bibliography The dictionary section has over 300 cross referenced entries including significant people themes critical issues and the most significant genres that have formed science fiction literature This book is an excellent access point for students researchers and anyone wanting to know more about this subject

Phantom Communities Scott Durham,1998 *Phantom Communities* reconsiders the status of the simulacrum sometimes defined as a copy of a copy but more rigorously defined as a copy that subverts the legitimacy and authority of its model in light of recent debates in literature art philosophy and cultural studies The author pursues two interwoven levels of analysis On one level he explores the poetics of the simulacrum considered as a form that internalizes repetition through close readings of a number of exemplary literary texts paintings and films from both the Anglo American and French traditions including works by Jean Genet Pierre Klossowski Ren Magritte Andy Warhol J G Ballard Balthus and Ra l Ruiz Through his readings of these works the author follows the transformations of the simulacrum showing how its vicissitudes provide an optic for remapping the postmodern canon On another level the author offers an account of the role played by the simulacrum as a theoretical concept that assumes varying analytical and ideological valences in the writings of such theorists as Jean Baudrillard Fredric Jameson Michel Foucault and Gilles Deleuze In so doing *Phantom Communities* intervenes in ongoing interdisciplinary debates concerning the historical and ideological limits of postmodernism as well as the utopian possibilities of art literature and philosophy in a postmodern context Moving between these debates and the interpretation of individual works the author

shows how they converge on the fundamental aesthetic and ideological problem raised by the postmodern culture of the simulacrum imagining the virtual communities that at the margins of postmodern culture are at once figured and eclipsed by its proliferating images

The Parameters of Postmodernism Nicholas Zurbrugg, 2003-09-02 This ground breaking work offers a challenging and positive view of postmodern culture It draws on the author's extensive interviews with a number of leading postmodern artists writers and performers including Jean Baudrillard Samuel Beckett John Cage Phillip Glass The Parameters of Postmodernism focuses on both the prevailing negative theories of postmodernism and the more positive aspects of postmodern theory and practice The negative aspect is exemplified by the work of writers like Brecht Beckett Barthes and Baudrillard who emphasise the death of artistic innovation and the lack of a permanent reality Zurbrugg highlights the contradictions in the arguments of these writers and examines the later works in which they qualify their earlier more infamous statements The positive aspect is characterised by artists such as Cage Glass and Monk who interweave the new postmodern media with confidence and invention and Eco Grass and Wolf who revive mythological and folkloric traditions The Parameters of Postmodernism argues that in each case high tech or revivalist postmodern creativity culminates in a highly positive synthesis of past present and futuristic materials

The Minimal Self: Psychic Survival in Troubled Times Christopher Lasch, 1985-10-17 Even more valuable than its widely praised predecessor *The Culture of Narcissism* John W Aldridge Faced with an escalating arms race rising crime and terrorism environmental deterioration and long term economic decline people have retreated from commitments that presuppose a secure and orderly world In his latest book Christopher Lasch the renowned historian and social critic powerfully argues that self concern so characteristic of our time has become a search for psychic survival

Entropy Exhibition (Routledge Revivals) Colin Greenland, 2013-01-11 When first published in 1983 *The Entropy Exhibition* was the first critical assessment of the literary movement known as New Wave science fiction It examines the history of the *New Worlds* magazine and its background in the popular imagination of the 1960s traces the strange history of sex in science fiction and analyses developments in stylistic theory and practice

The Idea of the Avant Garde Marc James Léger, 2019-10-15 The concept of the avant garde is highly contested whether one consigns it to history or claims it for present day or future uses The first volume of *The Idea of the Avant Garde And What It Means Today* provided a lively forum on the kinds of radical art theory and partisan practices that are possible in today's world of global art markets and creative industry entrepreneurialism This second volume presents the work of another 50 artists and writers exploring the diverse ways that avant gardism develops reflexive and experimental combinations of aesthetic and political praxis The manifest strategies temporalities and genealogies of avant garde art and politics are expressed through an international intergenerational and interdisciplinary convocation of ideas that covers the fields of film video architecture visual art art activism literature poetry theatre performance intermedia and music
