Chao Yongtao Chen, 2016-09-19 This volume offers a careful analysis of the contextual Christology of T C Chao one of the most important Chinese theologians and Chinese church leaders in the first half of twentieth century At the core of Chao s Christology is the encounter between Christianity and the Chinese people in particular the Chinese Christians In response to the rapid social changes in China between 1910 1950 he attempted to develop a relevant theology by focusing on the characteristics of Christianity and at the same time aiming to understand Christianity within its Chinese context

The Catholic Church, The Bible, and Evangelization in China Cindy Yik-yi Chu, 2022-01-01 This edited volume starts from the perspectives of Beijing in how it sees that religion should serve the interests of the state From China s viewpoint religion should act as a stabilizing force of society or else the Christian Churches will lose their reason for existence This might be incomprehensible to Western Christians who believe in the freedom of religion and their right to embrace their faith This collection of articles represents the concerted efforts of Chinese Italians and an American who live in China Europe and the United States and belong to different disciplines such as History Religious Studies and Language Studies to promote a better understanding of the Catholic Church in the world and in China

The "inscrutably Chinese" Church Nathan Faries, 2010-01-01 The first half of the twenty first century promises

to be a time of great change for the Christian church in the People's Republic of China. The situation is complex and fluid and the information gap between those on the inside and those outside of China is still significant though shrinking. The *Inscrutably Chinese Church* moves readers nearer to the Chinese Christian experience as Nathan Faries helps foreign readers to see with greater clarity just how Chinese Christians view their government and themselves in relation to those ruling powers. There still exists a measure of inscrutability about China and its complex relationship with religion that must be explained to the outsider. It is this gap in understanding between insider points of view within China and those outsiders seeking knowledge about the Christian faith in China that Faries seeks to close.
