Children And Their Primary Schools Andrew Pollard,2021-12-24 First published in 1987 Several of the chapters in this book were presented at a symposium held at the British Educational Research Association Conference in Bristol in September 1986 This volume s title is a deliberate echo of the title of the Plowden Report CACE 1967 It is now twenty years since Plowden was published and the chapters in this collection constitute an attempt to present a new perspective on one of the central assumptions which underpinned the Report on the nature of children Within the book there are two themes of particular importance The first is focussed on how children themselves are perceived bearing in mind new developments in child psychology and in sociological studies of children s perspectives and behaviour in schools The second concerns the implications which such developments may have for teaching and learning processes in classrooms
