Queer Lasting Sarah Ensor, 2025-02-04. What queer modes of resilience and care can teach us about enduring environmental collapse. What does it mean to live at the end of life, the end of a family line, the end of a species or the end of the future itself? When faced with unfurling catastrophes, environmentalists often limit the conversation by focusing on the future. Activists work for the welfare of future generations while scientists labor over projections of future outcomes. In *Queer Lasting*, Sarah Ensor asks what this emphasis on the future makes unthinkable. She looks to queer scenes of futurelessness to consider what ecocriticism can learn from queer theory which imagines and inhabits the immanent ethical possibilities of a terminal present. While living at the last is often a terrifying prospect, queer culture reminds us that to last is itself also one way to go on. Defining queerness as a mode of collective life in which these paradigms of lasting, ending and persisting are constitutively intertwined, Ensor turns to two periods of queer extinction for models of care, continuance and collective action predicated on futurelessness: the 1890s in which existing forms of erotic affiliation were extinguished through the binary of homo heterosexuality and the 1980s in which the spread of the AIDS epidemic threatened the total loss of gay lives and of specific erotic ways of life. Through readings that trace unexpected formal resonances across the works of Sarah Orne Jewett, Willa Cather, Melvin Dixon, Essex Hemphill, Allen Barnett and Samuel Delany, *Queer Lasting* maintains that queer writing in its intimacy with death and loss offers a rich archive for imagining new ways of thinking through environmental collapse. Whether confronting the epidemic contours of the AIDS crisis, theorizing the temporary encounters of cruising or reckoning with the lives of non-reproductive subjects, this book about futurelessness is also a book about persistence. It demonstrates how far from giving up in the face of the terminal paradigms that environmentalism fears, queer culture has instead predicated its living and its lasting upon them.

Evidence of Being Darius Bost, 2018-12-21 Evidence of Being opens on a grim scene Washington DC's gay black community in the 1980s ravaged by AIDS the crack epidemic and a series of unsolved murders seemingly abandoned by the government and mainstream culture Yet in this darkest of moments a new vision of community and hope managed to emerge Darius Bost's account of the media poetry and performance of this time and place reveals a stunning confluence of activism and the arts In Washington and New York during the 1980s and 90s gay black men banded together using creative expression as a tool to challenge the widespread views that marked them as unworthy of grief They created art that enriched and reimagined their lives in the face of pain and neglect while at the same time forging a path toward bold new modes of existence At once a corrective to the predominantly white male accounts of the AIDS crisis and an openhearted depiction of the possibilities of black gay life Evidence of Being above all insists on the primacy of community over loneliness and hope over despair

The Desiring Modes of Being Black Jean-Paul Rocchi, 2018-08-24 A critique of theory through literature that celebrates the diversity of black being The Desiring Modes of Being Black explores how literature unearths theoretical blind spots while reasserting the legitimacy of emotional turbulence in the controlled realm of reason that rationality claims to establish This approach operates a critical shift by examining psychoanalytical texts from the literary perspective of black desiring subjectivities and experiences This combination of psychoanalysis and the politics of literary interpretation of black texts helps determine how contemporary African American and black literature and queer texts come to defy and challenge the racial and sexual postulates of psychoanalysis or indeed any theoretical system that intends to define race gender and sexualities The Desiring Modes of Being Black includes essays on James Baldwin Sigmund Freud Melvin Dixon Essex Hemphill Assotto Saint and Rozena Maart The metacritical reading they unfold interweaves African American culture Fanonian and Caribbean thought South African black consciousness French theory psychoanalysis and gender and queer studies
