*McTeague* Frank Norris,1997      *McTeague* Frank Norris,1977      *We Who Work the West* Kiara Kharpertian,2020-06-01 *We Who Work the West* examines literary representations of class labor and space in the American West from 1885 to 2012 Moving from Mar a Amparo Ruiz de Burton s representations of dispossessed Californio ranchers in the mid nineteenth century to the urban grid of early twentieth century San Francisco in Frank Norris s *McTeague* to working and unemployed cowboys in the contemporary novels of Cormac McCarthy and Larry McMurtry Kiara Kharpertian provides a panoramic look at literary renderings of both individual labor physical tangible and often threatened handwork and the epochal transformations of central institutions of a modernizing West the farm the ranchero the mine the rodeo and the Native American reservation The West that emerges here is both dynamic and diverse its on the ground organization of work social class individual mobility and collective belonging constantly mutating in direct response to historical change and the demands of the natural environment The literary West thus becomes more than a locus of mythic nostalgia or consumer fantasy about the American past It becomes a place where the real work of making that West as well as the suffering and loss it often entailed is reimagined      **Encyclopedia of American Literature** Manly, Inc.,2013-06 Susan Clair Imbarrato Carol Berkin Brett Barney Lisa Paddock Matthew J Bruccoli George Parker Anderson Judith S      *Cinematic Fictions* David Seed,2012-01-01 The phrase cinematic fiction has now been generally accepted into critical discourse but is usually applied to post war novels This book asks a simple question given their fascination with the new medium of film did American novelists attempt to apply cinematic methods in their own writings From its very beginnings the cinema has played a special role in defining American culture Covering the period from the 1910s up to the Second World War *Cinematic Fictions* offers new insights into classics like *The Great Gatsby* and *The Grapes of Wrath* discussing major writers critical writings on film and active participation in film making *Cinematic Fictions* is also careful not to portray cinema as a single or stable entity Some novelists drew on silent film others looked to the Russian theorists for inspiration and yet others turned to continental film makers rather than to Hollywood Film itself was constantly evolving during the first decades of the twentieth century and the writers discussed here engaged in a kind of dialogue with the new medium selectively pursuing strategies of montage limited point of view and scenic composition towards their different ends Contrasting a diverse range of cinematic and literary movements this will be compulsory reading for scholars of American literature and film      **English Learners Left Behind** Kate Menken,2008-01-01 This book explores how high stakes tests mandated by No Child Left Behind have become de facto language policy in U S schools detailing how testing has shaped curriculum and instruction and the myriad ways that tests are now a defining force in the daily lives of English Language Learners and the educators who serve them      *Hollywood on Location* Joshua Gleich, Lawrence Webb,2019-01-14 Location shooting has always been a vital counterpart to soundstage production and at times the primary form of Hollywood filmmaking But until now the industrial and artistic

development of this production practice has been scattered across the margins of larger American film histories *Hollywood on Location* is the first comprehensive history of location shooting in the American film industry showing how this mode of filmmaking changed Hollywood business practices production strategies and visual style from the silent era to the present The contributors explore how location filmmaking supplemented and later supplanted production on the studio lots Drawing on archival research and in depth case studies the seven contributors show how location shooting expanded the geography of American film production from city streets and rural landscapes to far flung territories overseas invoking a new set of creative financial technical and logistical challenges Whereas studio filmmaking sought to recreate nature location shooting sought to master it finding new production values and production economies that reshaped Hollywood's modus operandi

**The Sentimental Mode** Jennifer A. Williamson, Jennifer Larson, Ashley Reed, 2014-03-07 This collection of new essays examines how authors of the 20th and 21st centuries continue the use of sentimental forms and tropes of 19th century literature Current literary and cultural critical consensus seems to maintain that Americans engaged in a turn of the century refutation of the sentimental mode an analysis of 20th and 21st century narratives however reveals an ongoing use of sentimental expression that draws upon its ability to instruct and influence readers through their emotions While these later narratives employ aspects of the sentimental mode many of them also engage in a critique of the failures of the sentimental deconstructing 19th century perspectives on race class and gender and the ways they are promoted by sentimental ideals

**The Construction of Irish Identity in American Literature** Christopher Dowd, 2010-09-13 This book examines the development of literary constructions of Irish American identity from the mid nineteenth century arrival of the Famine generation through the Great Depression It goes beyond an analysis of negative Irish stereotypes and shows how Irish characters became the site of intense cultural debate regarding American identity with some writers imagining Irishness to be the antithesis of Americanness but others suggesting Irishness to be a path to Americanization This study emphasizes the importance of considering how a sense of Irishness was imagined by both Irish American writers conscious of the process of self definition as well as non Irish writers responsive to shifting cultural concerns regarding ethnic others It analyzes specific iconic Irish American characters including Mark Twain's Huck Finn and Margaret Mitchell's Scarlet O'Hara as well as lesser known Irish monsters who lurked in the American imagination such as T.S. Eliot's Sweeney and Frank Norris McTeague As Dowd argues in contemporary American society Irishness has been largely absorbed into a homogenous white culture and as a result it has become a largely invisible ethnicity to many modern literary critics Too often they simply do not see Irishness or do not think it relevant and as a result many Irish American characters have been de-ethnicized in the critical literature of the past century This

volume reestablishes the importance of Irish ethnicity to many characters that have come to be misread as generically white and shows how Irishness is integral to their stories      **The Cumulative Book Index** ,1997 A world list of books in the English language      **Hazardous Reconstitutions** Jeffrey Ross Smith,2007      *The British National Bibliography* Arthur James Wells,1998      *American Book Publishing Record* ,1997      *Forthcoming Books* Rose Arny,2000      **Books In Print 2004-2005** Ed Bowker Staff,Staff Bowker, Ed,2004      *Guía bibliográfica para el estudio de la literatura de los Estados Unidos* Carme Manuel Cuenca,2011-11-28 Carme Manuel presenta en aquest volum una selecció de les principals publicacions editades per a l'estudi de la literatura dels Estats Units      **Choice** ,1979      **Book Review Digest** ,1979 Excerpts from and citations to reviews of more than 8 000 books each year drawn from coverage of 109 publications Book Review Digest provides citations to and excerpts of reviews of current juvenile and adult fiction and nonfiction in the English language Reviews of the following types of books are excluded government publications textbooks and technical books in the sciences and law Reviews of books on science for the general reader however are included The reviews originate in a group of selected periodicals in the humanities social sciences and general science published in the United States Canada and Great Britain Publisher
