*Thought Contagion* Aaron Lynch, 2008-08-06 Fans of Douglas Hofstadter Daniel Bennet and Richard Dawkins as well as science buffs and readers of Wired Magazine will revel in Aaron Lynch s groundbreaking examination of memetics the new study of how ideas and beliefs spread What characterizes a meme is its capacity for displacing rival ideas and beliefs in an evolutionary drama that determines and changes the way people think Exactly how do ideas spread and what are the factors that make them genuine thought contagions Why for instance do some beliefs spread throughout society while others dwindle to extinction What drives those intensely held beliefs that spawn ideological and political debates such as views on abortion and opinions about sex and sexuality By drawing on examples from everyday life Lynch develops a conceptual basis for understanding memetics Memes evolve by natural selection in a process similar to that of Genes in evolutionary biology What makes an idea a potent meme is how effectively it out propagates other ideas In memetic evolution the fittest ideas are not always the truest or the most helpful but the ones best at self replication Thus crash diets spread not because of lasting benefit but by alternating

episodes of dramatic weight loss and slow regain Each sudden thinning provokes onlookers to ask How did you do it thereby manipulating them to experiment with the diet and in turn spread it again The faster the pounds return the more often these people enter that disseminating phase all of which favors outbreaks of the most pathogenic diets Like a software virus traveling on the Internet or a flu strain passing through a city thought contagions proliferate by programming for their own propagation Lynch argues that certain beliefs spread like viruses and evolve like microbes as mutant strains vie for more adherents and more hosts In its most revolutionary aspect memetics asks not how people accumulate ideas but how ideas accumulate people Readers of this intriguing theory will be amazed to discover that many popular beliefs about family sex politics religion health and war have succeeded by their fitness as thought contagions The Best of Times Paul Brown, 2011-10 The Best of Times is a collection of stories Please find a cozy cushion a comfortable pillow or a soft rocker and read about the times of The Renau s Harding s of Rory and Colton and many other characters The barrier island city of Galveston was in the path of a devastating storm that few including the Renau family were ready to be stricken with in Storm Walk towards the Music Walk towards the Light finds the return of the Harding s Wallace and Leslie as they contemplate selling off their Garden Oaks home where they have remained decades for a new lifestyle of independent living in their senior years Mrs Maywall had a gigantic yard that was an exciting play land for two brothers Rory and Crackle Tooth along with neighbor kids in The Shared Sandwich Rory travels to the state capital and meets new friends while on the capitol grounds Friendships among kids are often spoken to heart to heart or from a gesture of food offerings in Potato Chips A youngster playing is normal in life a rite of passage For Rory his playmates found out at an early age what can happen when not watching the cars driving on the neighborhood streets in The Kids Play Mate Cumming was the Iowa home of grandma and grandma wanted to go home for a visit So finds Rory on a road trip of a thousand miles and the growing pains he encountered in Cumming Saved Encounter is a story of fate a story where being at the right time and place in 1959 was apparently what was in the life plan for Ben in 1959 The School of the Blessed Chalice was Rory s school and he excelled at altar serving and reading Life was routine in every way until one November day in Gone Gift has Rory discovering Santa s secret present hiding place for the family presents Rory had to keep the secret stash a secret especially when the gift was a much anticipated camera The Sound of the Train day in day out The sounds were heard The click the clack the rat tat tat rattle of the tracks Barky Birdy the Backyard Blue Jay Meets Barky The wind had bits and pieces of particles in it besides rain droplets One of these bits and pieces blowing in the wind was a little seed This little seed is how our story begins The story of Barky Read about Birdy the Backyard Blue Jay s next adventure Colton Teen Secret Agent Find the Parents is the next chapter in the story of high school student turned secret agent in search of his parents in such locations as Segovia Madrid Rome and more Teen Speak A Teacher s Story The bell rings and classes start for four hundred students in the Church of the Cross Parish religious education on Wednesday evening The student s stories are many Life is not all a bed of roses for the
