Death and History Király V. István,2015-12-10 The analyses in the book investigate the possibilities and foundations of a completely new philosophy of history although outlined in dialogue with M Heidegger The fundamental questions the author asks are Why wherefrom is there history Why are we humans historical Why is there historiography Primarily and ultimately the response to each of these questions is because we are MORTAL Accordingly the first chapter tackles the possibilities and lays the foundations of an ontology of history Built upon these the second chapter analyses the being of the PAST and its existential characteristics as NOT BEING ANY MORE as HAD BEEN NESS Chapter three turns towards the FUTURE and analyses its existential characteristics as NOT YET BEING Chapter four is an explicit return to the dialogue with Heidegger which surfaces the main aspects of the essential belonging together of the fundamentals and origins of philosophy and history The Appendix is an applied philosophical research related to the previous subjects which examines the interlacements of DEATH and SECRET in the phenomenon of TERRORISM

Droysen and the Prussian School of History

Robert Southard,2014-07-11

The Prussian School of History first predicted and advocated then celebrated and defended the unification of Germany by Prussia Experts in German historiography and the history of German liberalism have often complained about the lack of a book in any language that traces the origins and explains the ideas of this school of history Here is that book Robert Southard finds that for the Prussian School history had an agenda These historians generally expected history to complete its main tasks in their own time and country The outcome of their politics was really an end of history not a cessation to historical occurrences but a cessation of onward historical movement because the historical process had already achieved its long term beneficent purposes Leading us through the intricacies of important but untranslated works of J G Droysen Max Duncker Rudolph Hayn and Heinrich von Sybel Southard demonstrates their belief that the historical sequence was a continual unfolding of God s plan Indispensable for those interested in the history of German historical writing this book also has major implications for understanding the history of political liberalism
