Wilfred Cantwell Smith

Meaning And End Of Religion:

The Meaning and End of Religion Wilfred Cantwell Smith, 1991 Wilfred Cantwell Smith maintained in this vastly important work that Westerners have misperceived religious life by making religion into one thing. He shows the inadequacy of religion to capture the living endlessly variable ways and traditions in which religious faith presents itself in the world.

The Meaning and End of Religion Wilfred Cantwell Smith, 1964 The Meaning and End of Religion Wilfred Cantwell Smith, 1978 **The Meaning and End of Religion**, 1978 Meaning and End of Religion John Wiley & Sons, Incorporated, The Meaning and End of Religion, Etc Wilfred Cantwell Smith, 1964 **A Guide to the Phenomenology**

of Religion James L. Cox, 2006-06-15 The phenomenological method in the study of religions has provided the linchpin supporting the argument that Religious Studies constitutes an academic discipline in its own right and thus that it is irreducible either to theology or to the social sciences. This book examines the figures whom the author regards as having been most influential in creating a phenomenology of religion. Background factors drawn from philosophy, theology, and the social sciences are traced before examining the thinking of scholars within the Dutch, British, and North American schools of religious phenomenology. **The Will to Arise** Caleb Oluremi Oladipo, 2006 One of the most important developments of Christianity in the twentieth century was its transformation in South Africa where it became a vibrant religion rooted in African idioms and cultures. The church also became engaged in the struggle against social and political injustice and church leaders employed the vocabularies of faith to secure civil liberty. This hard hitting book focuses on post-apartheid Christian character and establishes the theological and spiritual authority of African Christians, calling contemporary Christians to renew their faith and Christian identity. It shows too that one cannot seriously consider contemporary Christianity apart from the African experience. Encountering Religious Pluralism Harold Netland, 2001-08-14 Harold Netland traces the emergence of the pluralistic ethos that challenges Christian faith and mission, interacting heavily with philosopher John Hick and providing a framework for developing a comprehensive evangelical theology of religions. Printing Religion after the Enlightenment Timothy Stanley, 2022-07-26 Over the course of the seventeenth to eighteenth centuries an interior, private notion of religion gained wide public recognition. It then spread through settler colonial contexts around the world. It has since been criticized for its abstract, immaterial nature as well as its irrelevance to traditions beyond the European context. However, such critiques obscure the contradiction between religion's definition as a matter of interior privacy and its public visibility in various printed publications. Timothy Stanley responds by re-evaluating the cultural impact of the exterior forms in which religious texts were printed, such as pamphlets, broadsheets, books, and journals. He also applies that evidence to critical studies of religion shaped by the crisis of representation in the human sciences. While Jacques Derrida is oft cited as a progenitor of that crisis, the opposite case is made. Additionally, Stanley draws on Derrida's thought to reframe the relation between a religious text's internal hermeneutic interests and its external forms. In sum, this book provides a new model of

how people printed religion in ways that can be compared to other material cultures around the world **A Trinitarian Theology of Religions** Gerald R. McDermott, Harold A. Netland, 2014-04-17 Named by the International Bulletin of Missionary Studies as an Outstanding Book of 2014 for Mission Studies Over the last four decades evangelical scholars have shown growing interest in Christian debates over other religions seeking answers to essential questions How are we to think about and relate to other religions be open to the Spirit and at the same time remain evangelical and orthodox Gerald R McDermott and Harold A Netland offer critiques of a variety of theologians and religious studies scholars including evangelicals but also challenge evangelicals to move beyond parochial positions This volume is both a manifesto and a research program critically evaluating the last forty years of Christian treatments of religious others and proposing a comprehensive direction for the future It addresses issues relating to the religions in both systematic theology and missiology taking up long debated questions such as contextualization salvation revelation the relationship between culture and religion conversion social action and ecumenism It concludes with responses from four leading thinkers of African Asian and European backgrounds Veli Matti K rkk inen Vinoth Ramachandra Lamin Sanneh and Christine Schirrmacher **Religion Dans L'histoire** Michel Despland, Gérard Vallée, Canadian Corporation for Studies in Religion, 1992-03-03 The history of the concept of religion in Western tradition has intrigued scholars for years This important collection of eighteen essays brings further light to the ongoing debate Three of the invited participants W C Smith M Despland and E Feil has each previously written impressive books treating this subject the last two acknowledged the impact and continuing influence of Smith s work The Meaning and End of Religion An introduction and a recapitulation of Smith s contribution as a scholar set the stage for a retrospective look at the published literature Contributors then examine the transformation of words the classical religio to the modern religion particularities of religion in nineteenth century France Troeltsch s concept of religion the study of religion from an Asian point of view and the categorization of World Religions The concluding essays elaborate contemporary anthropological cross disciplinary semiological deconstructive and psychoanalytical methodological approaches to the concept and study of religion Exploring critically different aspects of the concept and study of religion these provocative essays typically reflect the methodological pluralism currently existing in the field of Religious Studies Of interest to scholars and students alike this collection also contains a complete bibliography of W C Smith s publications

Triangulating Religion, Belief, and Faith in the Twenty-First Century Bradford McCall, 2025-01-16 This book gives the reader the ability to make new inroads to understanding how faith belief and religion not only differ but also how they can contribute to comparative theology These three topics broadly covered herein can heighten the understanding of the Sacred by those who study them As to a few preliminaries what is faith Further what is belief Which one comes first in a person s journey toward the Sacred Moreover does religion factor into these two terms and if so where and how Does Augustine s well worn line faith seeking understanding mean anything today If it does would it mean belief comes prior to faith and or religion

One can argue both sides of this debate and still be considered orthodox seemingly Perhaps it is the case that belief precedes faith most of the time but not all of the time Perhaps it is the other way around What exactly is the demarcation between belief and faith Many a person believes a thing to be true in their very bones such a stance borders on what is commonly referred to as faith Is religion the combination of belief and faith together into a coherent system of thought or is it emergent from the two existing as a separate mental or spiritual entity Explore these questions and more Metamodernism Jason Ananda Josephson Storm, 2021-07-20 For decades scholars have been calling into question the universality of disciplinary objects and categories The coherence of defined autonomous categories such as religion science and art has collapsed under the weight of postmodern critiques calling into question the possibility of progress and even the value of knowledge Jason Ananda Josephson Storm aims to radicalize and move beyond these deconstructive projects to offer a path forward for the humanities and social sciences using a new model for theory he calls metamodernism Metamodernism works through the postmodern critiques and uncovers the mechanisms that produce and maintain concepts and social categories In so doing Storm provides a new radical account of society's ever changing nature what he calls a Process Social Ontology and its materialization in temporary zones of stability or social kinds Storm then formulates a fresh approach to philosophy of language by looking beyond the typical theorizing that focuses solely on human language production showing us instead how our own sign making is actually on a continuum with animal and plant communication Storm also considers fundamental issues of the relationship between knowledge and value promoting a turn toward humble emancipatory knowledge that recognizes the existence of multiple modes of the real Metamodernism is a revolutionary manifesto for research in the human sciences that offers a new way through postmodern skepticism to envision a more inclusive future of theory in which new forms of both progress and knowledge can be realized **The Insider/Outsider Problem in the Study of Religion**

Russell T. McCutcheon, 1999-03-07 Thirty classic and contemporary readings from such writers as Kant Hume Schleiermacher and Otto to Ninian Smart Mircea Eliade Karen McCarthy Brown and Wendy Doniger *Secularism and Religion-Making* Markus Dressler, Arvind Mandair, 2011-10-03 This book conceives of religion making broadly as the multiple ways in which social and cultural phenomena are configured and reconfigured within the matrix of a world religion discourse that is historically and semantically rooted in particular Western and predominantly Christian experiences knowledges and institutions It investigates how religion is universalized and certain ideas social formations and practices rendered religious are thus integrated in and subordinated to very particular mostly liberal secular assumptions about the relationship between history politics and religion The individual contributions written by a new generation of scholars with decisively interdisciplinary approaches examine the processes of translation and globalization of historically specific concepts and practices of religion and its dialectical counterpart the secular into new contexts This volume contributes to the relatively new field of thought that aspires to unravel the thoroughly intertwined relationships between religion and secularism as

modern concepts **Controversies in Interreligious Dialogue and the Theology of Religions** Paul Hedges, 2013-01-03
A challenging controversial discussion of the current state of the debate about Christianity and other world faiths **The Notion of "religion" in Comparative Research** Ugo Bianchi, 1994 Nel 1990 si tenne a Roma il XVI Congresso del I A H R che ebbe come tema la nozione di religione Venne particolarmente analizzato l'uso di tale termine da parte degli studiosi di lingua europea nei rapporti con le culture non europee e viceversa **The Meaning of Religious Freedom in the Public Square** Pablo Munoz Iturrieta, 2020-02-27 This book offers a new perspective on religious freedom Its central theme is to elucidate the meaning of religion and freedom in discussions related to religious freedom and the place of religion in the public square One often hears that either religion must be tamed by restricting its access to public power or that in the name of neutrality and equality no religious reasoning may be used in the political sphere as it may be coercive to other worldviews There is also the idea that religion is a feature of human life essentially distinct from secular features such as politics and economics and which has a peculiarly dangerous inclination to promote violence Thus the meaning of religious freedom in the twenty first century seems uncertain For that reason it is necessary to clarify the meaning of religious freedom especially in relation to the public sphere in order to offer an answer that will guide us in discerning issues of religious freedom
