Cornelius Van Til's Doctrine of God and Its Relevance for Contemporary Hermeneutics Jason B. Hunt,2019-09-27 Cornelius Van Til s Doctrine of God and Its Relevance for Contemporary Hermeneutics seeks to answer the question What does Van Til have to do with hermeneutics It is argued that some of the most relevant concerns in the field of contemporary hermeneutics are similar to those addressed by Van Til in the area of apologetics Van Til s approach involved a self conscious consistency between method and theology proper in order to reason according to the Christian worldview found in Scripture Just as one s apologetic method should be consistent with the theology revealed in the Bible so also should one s hermeneutic This work not only argues that Van Til has an important place in the hermeneutical discussion but also demonstrates his place in terms of the main contours in his doctrine of God In doing so certain influences on evangelical hermeneutics are considered according to consistency with theology proper Lastly a Van Tillian hermeneutic is applied to the often debated issue concerning the New Testament use of the Old Testament **What Christians Believe about the Bible** Don Thorsen,Keith H. Reeves,2012-08-15 Christians talk frequently about the Bible yet they do not always have an informed and wide ranging understanding of varied Christian views about its nature Don Thorsen and Keith Reeves combine their biblical and theological knowledge to create such a unique introduction to the Bible This book not only provides an introduction to the interpretation of the Bible but also to the history and theological understanding behind it equipping students to think critically about their own tradition s approach to Scripture It is perfect as a supplemental textbook in both introductory

biblical studies and theology courses but it will also be of interest to adult education classes *Hermeneutics, Linguistics, and the Bible* Stanley E. Porter, 2024-01-25 The volume presents Stanley E Porter s considered thoughts and reflections on key questions of meaning and context addressing the problems of biblical interpretation and how a close collaboration between hermeneutics and linguistics can help to solve them The chapters display Porter s work in both fields examining how hermeneutics functions as a field in modern biblical studies and how the quest for meaning in biblical texts is underpinned by the study of linguistics The volume focuses on context for understanding the meanings of biblical texts Porter suggests that linguists can learn more from the philosophical questions around meaning that hermeneutics apply in their study of biblical texts and that there is more fruitful work to be done in the field of hermeneutics using insights from linguistics **The Land Cries Out** Salim J. Munayer, Lisa Loden, 2011-10-21 Our theology does not exist in a vacuum but must relate to the world we inhabit and must influence our moral and ethical actions This is especially true when discussing theology of the land in the context of a violent territorial conflict The Holy Land has seen so much bloodshed that the earth itself is crying out to God The chapters presented in this book form a unique collection of voices speaking from different perspectives on the issue of the theology of the land These voices include Messianic Jewish and Palestinian Christian theologians and scholars who live in the Holy Land as well as others from around the world The various chapters reflect a wide spectrum of opinion and reveal how much disagreement still exists among followers of Christ However the dialogue generated by having these opposing voices side by side speaking to each other rather than past each other is encouraging This book is both challenging and inspirational and contributes in an innovative way to this important discussion **Creation, Catastrophe & Calvary** John Templeton Baldwin, 2000 In this scientific age what difference does it make whether I believe the world was created in six literal days and that the world was destroyed by a global flood In answering these questions Creation Catastrophe and Calvary shows how these beliefs are related to key issues such as the forgiveness of our sins and Sabbath observance Foreword Introduction Meet the Authors An Angel s Worldview The Days of Creation in Genesis 1 A Second Creation Account Biblical Evidence for the Universality of the Genesis Flood The Grand Canyon and the Genesis Flood The Geologic Column and Calvary The Rainbow Connection Implications for an Evangelical Understanding of the Atonement Evolution A Theory in Crisis The Role of Creation in Seventh day Adventist Theology Science and Theology Focusing the Complementary Lights of Jesus Scripture and Nature **The Hermeneutical Spiral** Grant R. The God Who Acts in History Craig G. Bartholomew, 2020-01-21 Did the decisive event in the history of Israel even happen The Bible presents a living God who speaks and acts and whose speaking and acting is fundamental to his revelation of himself God s action in history may seem obvious to many Christians but modern philosophy has problematized the idea Today many theologians often use the Bible to speak of God while at best remaining agnostic about whether he has in fact acted in history Historical revelation is central to both Jewish and Christian theology Two major events in the Bible showcase divine agency the revelation at Sinai in Exodus and the incarnation of Jesus in the gospels Surprisingly there is a lack of serious theological reflection on Sinai by both Jewish and Christian scholars and those who do engage the subject often oscillate about the historicity of what occurred there Craig Bartholomew explores how the early church understood divine action looks at the philosophers who derided the idea and finally shows that the reasons for doubting the historicity of Sinai are not persuasive The God Who Acts in History provides compelling reasons for affirming that God has acted and continues to act in history

Scripture in the Theologies of W. Pannenberg and D.G. Bloesch Frank M. Hasel, 2004-03-01 Scripture has always played an important role in Christian theology This study provides an issue oriented overview of the concepts of Scripture in Protestant theology from the 16th century Reformation onward It then sets forth the concepts of Scripture in the theologies of two contemporary systematic theologians W Pannenberg and D G Bloesch It analyzes compares and evaluates the theological and anthropological presuppositions that have influenced their concept of Scripture Despite fundamentally different starting points and other significant distinctions Pannenberg and Bloesch reveal surprising similarities This seems to suggest that for both the concept of Scripture is determined ultimately by presuppositions that are derived and shaped extra scriptum

The Art of Biblical History V. Philips Long, 1994 The final volume in the acclaimed Foundations of Contemporary Interpretation series this book deals with these crucial questions Is the Bible a history book What do we mean by history anyway In what sense is biblical historicity important for faith Why is there so much scholarly disagreement over historical issues relating to the Bible

What Is Truth? James Emery White, 2006-09-01 SEARCHING FOR ABSOLUTES IN A POSTMODERN WORLD In this postmodern age truth especially religious or moral truth is widely

criticized and constantly challenged yet perhaps more important than ever It was this realization that led James Emery White to examine the concepts of truth as held by five twentieth century theologians Cornelius Van Til Millard J Erickson Francis A Schaeffer Donald G Bloesch Carl F H Henry

Interpretation and Meaning in Philosophy and Religion Dirk-Martin Grube, 2016-06-10 Interpretation and Meaning in Philosophy and Religion synthesizes cutting edge philosophical reflections on interpretation with their application to religion For this new theoretical insights on interpretation by Krausz Lamarque Leddy Hagberg and Gibson are examined Topics cover multiplism i e interpretative pluralism the goal of interpretation and its starting point These concepts are then studied in relation to the practice of interpreting religious texts For example Grube proposes that the action relevance of religious interpretations limits the possibility of tolerating divergent interpretations Karrer Grube challenges Lamarque s insistence on a firm starting point and Gokhale challenges Krausz by arguing that Vedantic practices of interpretation are non multiplist

On Being a Christian in the Academy Andrew Sloane, 2007-01-01 Having identified crucial flaws in both classical foundationalism and cognitive relativism Andrew Sloane expounds Wolterstorff s theory of rationality and his understanding of the devising and weighing of theories The role of control beliefs in scholarship and the place of Christian beliefs in the practice of Christian scholarship are explored The author then critically appraises Wolterstorff s view in dialogue with its rivals He presents a defensible person specific but nonrelativist criterion of theory choice and outlines an organic epistemological metaphor The book concludes by exploring the implications of these findings for theological scholarship in particular Old Testament exegesis The author suggests that Wolterstorff s notion of scholarly practice explains the practice of scholarship and is to be commended to Christian scholars as a cogent and challenging method of devising and appraising theories

Foundations of Contemporary Interpretation V. Philips Long, Richard A. Muller, Vern S. Poythress, 1996 This one volume edition of the Foundations of Contemporary Interpretation series explores current issues in the interpretation of the Bible from the perspective of specific academic disciplines history literary criticism science and theology

Theodicy and Predestination in Pauline Soteriology Timo Eskola, 2018-01-30 Timo Eskola presents a new way of understanding Paul s soteriology as a theology of predestination God has cosigned all people to sin and condemnation There is no basic dualism between the good and the bad Since everybody needs salvation the atonement of Christ is proof of God s ultimate faithfulness

Practice-Led Theology Neil K. Ferguson, 2024-03-11 Following a series of economic and political changes in the late 1980s art design schools and performing arts academies were incorporated into the university system To justify their teachings as academic research they developed the idea of practice led research Practice led research recognizes two or more languages that is the validity of both explicit propositional knowledge and embodied tacit knowledge allowing for the researcher s corresponding output expressed through both the written word and relevant practice Christians often find themselves living a life of two languages a set of intellectual beliefs and the practice of being a Christian This book develops this methodology and translates it for use

in theological research Most importantly it clearly develops key elements of this methodology using a comprehensive model and detailed definitions This is a book which not only presents a fully articulated and flexible model of practice led research but also presents Christian researchers with an approach they could incorporate into their theological work
