Meaning Of History:

The Meaning of History Nikolaj Aleksandrovič Berdjaev, 1936 **The Meaning of History. Two Lectures** Frederic Harrison, 1862 *The Meaning of History* N. Gordon Carper, Joyce Carper, 1991 Containing some 3 000 quotations by 1 000 writers from different cultures times and perspectives this book will fascinate readers who enjoy reflecting on history Choice This unusual work examines the literature of history and its attempts to define the meaning of history Approximately three thousand quotations by about 1 000 prominent philosophers writers and historians offer diverse interpretations of the significance of historical study ranging from history viewed as bunk to history elevated to lyric poetry The entries arranged alphabetically by author represent a variety of cultures and disciplines and are documented as fully as possible by context author author birth and death dates and vocation Topics such as the role of the historian the definition of history the purpose of the study of history and the values that history imparts broaden the scope of the work and enliven the debate over the meaning of history Scholars historians and students will welcome this book and it will also be of great use to academic and public libraries as a unique reference work *The Meanings in History* Alban G. Widgery, 2016-04-14 In this book originally published in 1967 the author gives his views of history from reflection on living history as distinct from books about past history He sees histories as the related histories of individuals and gives an account of the meanings in those individuals lives and defends the beliefs dominantly held in relation to them He challenges professional historians to concern themselves with the fundamentals of history and philosophers to return to the consideration of problems persistent in the previous history of philosophy occidental and oriental History: Meaning and Method Donald V. Gawronski, 1967 The Meaning of History Frederic Harrison, 1894 *History and Evolution* Matthew H. Nitecki, Doris V. Nitecki, 1992-01-01 Explores the differences and similarities of historical and evolutionary approaches to investigating and interpreting the past The 11 papers were presented at the Spring Systematics Symposium in Chicago May 1989 They discuss philosophy and methodology and such topics as the history of evolution and the evolution of history Paper edition unseen 16 95 Annotation c by Book News Inc Portland Or **A Definition of History. What is Historicism?** Dhankhar Singh, 2018-09-11 Essay aus dem Jahr 2008 im Fachbereich Geschichte Allgemeines Sprache Deutsch Abstract It seems that a definition of history should include all things that have ever happened That definition would include all physical events and occurrences It would also seem that the definition of history would be synonymous with a definition of the past the sum total of all things that have ever happened But Williams points out that the past is not history Things may have happened in the past that were not observed or recorded History is therefore only a subset of the past As a discipline history is a study of the past but it will only reveal a portion of the past and should be done so as objectively as possible There have been many different approaches to the study of history Idealism is the belief that history can be described in terms of ideas what people thought and the intent behind their actions The idealists of the mid to late 1800s cared not only about events but on what those events meant Attaching meaning is not

easy and entails problems associated with interpretation if those interpretations are biased or incomplete The problem with this viewpoint is that we can't always know what was intended Idealism can be limiting in accurately portraying events as they really happened Historicism is another approach by which to describe history Its premise is that the autonomy of the past must be respected Each age has its own values and events should be described within the context of those values One of the problems with historicism is that its approach is tantamount to legitimization of events by respecting the values of the time That approach inhibits our ability to fully learn from mistakes of the past Williams stated that some of it has nurtured totalitarianism When meaning takes on a life of its own and affects viewpoints that lead to ideologies that lead to atrocious actions then you have what humanity experienced with Nazi Germany *The Meaning of History* Frederic Harrison, 1916

The Bible and the Future Anthony A. Hoekema, 1994 Anthony Hoekema brings to the study of biblical prophecy and eschatology a maturity that is rare among contemporary works on the subject Free of sensationalism he evinces a reverence for the Scriptures and a measured scholarship One of the best studies on eschatology available Christianity Today *The Meaning of History and Other Historical Pieces* Frederic Harrison, 1894 **The Collected Works of Eric Voegelin, Volume 26, History of Political Ideas, Volume VIII, Crisis and the Apocalypse of Man** Eric Voegelin, 1999-07

Henry Kissinger and the American Approach to Foreign Policy Gregory D. Cleva, 1989 This analysis of Henry Kissinger's historical philosophy, statecraft and views on international politics reveals Kissinger to be a transitional figure who urged a conversion of American foreign policy from an insular to a continental approach **The Meaning of History** Nikolai Berdyaev, 1945 *The Meaning of History* Nikolai Berdiaev, 2003-01-01 **What is History? and Other Late**

Unpublished Writings Eric Voegelin, 1990 This volume contains the most significant pieces of unpublished writing completed by Eric Voegelin during an important time of his career Spanning the period from the early 1960s to the late 1970s these selections supplement the body of work Voegelin published after the appearance of the first three volumes of *Order and History* in 1956 and 1957 The five texts included here are *What Is History* *Anxiety and Reason* *The Eclipse of Reality* *The Moving Soul* and *The Beginning and the Beyond* In their introduction to the volume Thomas A. Hollweck and Paul Caringella place these writings in their proper context and discuss the ways in which they reveal clues to the evolution of Voegelin's thought In *What Is History* Voegelin considers the development of a transcendent structure of history while simultaneously rejecting the notion that history can have a universal meaning *Anxiety and Reason* focuses on Voegelin's critically important theory of historiogenesis which links events in pragmatic history with legendary and mythical events leading back to the beginning of the cosmic order In *The Eclipse of Reality* Voegelin presents a critique of modernity by analyzing the work of Sartre Schiller Comte and others *The Moving Soul* a thought experiment inspired by a remark Henry Margenau makes in *The Nature of Physical Reality* attempts to reformulate the connections between physics and myth The most important of these essays is *Me Beginning and the Beyond* Here Voegelin meditates on the universality of experience

formed by the tension of existence under God Publication of these previously unpublished writings will enable scholars to trace the genesis of many of the concerns that occupied Voegelin during a period in which the conception of his main work was undergoing frequent and perhaps fundamental changes

The Meaning of History Nikolaj Aleksandrovič Berdâev, 1945 **A History of the Oxford English Dictionary** Stefan Szczelkun PhD (RCA), A radical digest of the history of the OED as detailed in John Willinsky's *Empire of Words* the reign of the OED 1994 followed by a more in depth look at the exclusions of the first and second editions of the OED and a look at what's happening now The dictionary contributed to Rule Britannia by equipping the conquering language with a coherent history that ran back through the nation's best writers with considerable support from its more prosaic authors serving like the skilled shipbuilders behind Drake's daring voyages p 202

Jacques Ellul and the Bible Jacob Marques Rollison, 2022-05-26 The hermeneutic contribution of the French theologian and sociologist Jacques Ellul is given new prominence in this striking collection of essays revealing him to be one of the twentieth century's most creative and insightful interpreters of the Bible With a breadth of contributors ranging from established biblical scholars and theologians to pastoral practitioners from top Ellul scholars to emerging voices and including six first time English translations of Ellul's own articles this volume not only provides a detailed overview of Ellul's biblical approach but also constitutes a crucial moment in Ellul's theological reception The essays gathered here represent a clear demonstration that the full potential of Ellul's theological interpretation of Scripture to rejuvenate and reconfigure contemporary biblical hermeneutics has yet to be seen

The Meaning of History Nikolaĭ Berdĭi, aĭ, iev, Berdyaev considered the philosophy of history as a field that laid the foundations of the Russian national consciousness Its disputes were centered on distinctions between slavophiles and Westerners East and West The Meaning of History was an early effort following World War I that attempted to revive this perspective With the removal of Communism as a ruling system in Russia that nation returned to an elaboration of a religious philosophy of history as the specific mission of Russian thought This volume thus has contemporary significance Its sense of the apocalypse which distinguishes Russian from Western thought gives the book its specifically religious character
