*A Measure Filled: The life of Lena Madesin Phillips Drawn from her Autobiography* Lisa Sergio, 2015-03-18 Lena Madesin Phillips feminist of the early twentieth century realized before women even had the right to vote that they would never achieve equality with men unless such equality were established on economic grounds In 1919 bucking tradition apathy and ignorance she founded the Federation of Business and Professional Women bringing American working women together for the first time By nature a pioneer as the first woman to receive her degree with honors from the Law School of the University of Kentucky and as a campaign manager and organizer of women she was prophetic in her demands for the sort of rights which women should aim to achieve Her writings as editor of Pictorial Review and countless articles pamphlets and speeches delivered as frequently to men s organizations as to women s reveal the extent to which she was in advance of her time A Measure Filled drawn from her unfinished autobiography weaves in and out of one of the most troubled yet challenging periods of America s history ranging from 1881 the year of her birth to her sudden death at Marseilles in 1955 on her way to a conference with Arab women in the Middle East **A Measure Filled** Lisa Sergio, 1972 *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office, 1974 **The Broadcast 41** Carol A Stabile, 2018-10-16 How forty one women including Dorothy Parker Gypsy Rose Lee and Lena Horne were forced out of American television and radio in the 1950s Red Scare At the dawn of the Cold War era forty one women working in American radio and television were placed on a media blacklist and forced from their industry The ostensible reason so called Communist influence But in truth these women among them Dorothy Parker Lena Horne and Gypsy Rose Lee were by nature of their diversity and ambition a threat to the traditional portrayal of the American family on the airwaves This book from Goldsmiths Press describes what American radio and television lost when these women were blacklisted documenting their aspirations and achievements Through original archival research and access to FBI blacklist documents The Broadcast 41 details the blacklisted women s attempts in the 1930s and 1940s to depict America as diverse complicated and inclusive The book tells a story about what happens when non male non white perspectives are excluded from media industries and it imagines what the new medium of television might have looked like had dissenting viewpoints not been eliminated at such a formative moment The all white male dominated Leave it to Beaver America about which conservative politicians wax nostalgic existed largely because of the forcible silencing of these forty one women and others like them For anyone concerned with the ways in which our cultural narrative is constructed this book offers an urgent reminder of the myths we perpetuate when a select few dominate the airwaves [Our Rightful Place](#) Terry L. Birdwhistell, Deirdre A. Scaggs, 2020-07-21 In 1880 forty three women walked into the president s office at the University of Kentucky UK and signed the student register becoming the first female students at a public college in the commonwealth But gaining admittance was only the beginning For the next sixty five years encompassing two world wars an economic depression and the ratification of the Nineteenth Amendment generations of

women at UK claimed and reclaimed their right to an equitable university experience Their work remains unfinished Drawing on yearbooks photographs and other private collections *Our Rightful Place A History of Women at the University of Kentucky 1880 1945* examines the struggle for gender equity in higher education through the lens of one major institution In the face of shifting resistance pioneering women constructed opportunities for themselves Terry L Birdwhistell and Deirdre A Scaggs highlight three women Sarah Blanding Frances Jewell McVey and Sarah Bennett Holmes who fought for access to basic facilities that were denied to UK women for decades including housing and study spaces By examining the trials and triumphs of UK s first female undergraduates faculty and administrators this book uncovers the lasting impact women had on higher learning in the early days of coeducation *Cold War Progressives* Jacqueline Castledine,2012-11-01 In recognizing the relation between gender race and class oppression American women of the postwar Progressive Party made the claim that peace required not merely the absence of violence but also the presence of social and political equality For progressive women peace was the essential thread that connected the various aspects of their activist agendas This study maps the routes taken by postwar popular front women activists into peace and freedom movements of the 1960s and 1970s Historian Jacqueline Castledine tells the story of their decades long effort to keep their intertwined social and political causes from unraveling and to maintain the connections among peace feminism and racial equality Postwar progressive women and their allies often saw themselves as members of a popular front promoting the rights of workers women and African Americans under the banner of peace However the Cold War indelibly shaped the contours of their activism Following the Progressive Party s demise in the 1950s these activists reentered social and political movements in the early 1960s and met the inescapable reality that their agenda was a casualty of the left liberal political division of the early Cold War era Many Americans now viewed peace as a leftist concern associated with Soviet sympathizers and civil rights as the favored cause of liberals Faced with the dilemma of working to reunite these movements or choosing between them some progressive women chose to lead such New Left organizations as the Jeannette Rankin Brigade while others became leaders of liberal second wave feminist movements Whether they committed to affiliating with groups that emphasized one issue over others or attempted to found groups with broad popular front type agendas Progressive women brought to their later work an understanding of how race class and gender intersect in women s organizing These women s stories demonstrate that the ultimate result of Cold War era McCarthyism was not the defeat of women s activism but rather its reconfiguration **The Publishers Weekly** ,1972 **Queen of the Hurricanes** Crystal Sissons,2014-10-01 Elsie MacGill achieved many firsts in science and engineering at a time when women were considered to be inferior in the sciences In 1923 at the age of nineteen she became the first woman to attend engineering classes at the University of Toronto She was the first woman in North America to hold a degree in aeronautical engineering and the first woman aircraft designer in the world As chief engineer for the Canadian Car and Foundry Company she oversaw the production of the Hawker Hurricane and designed a series of

modifications to equip the plain for cold weather flying Her Maple Leaf trainer may still be the only plane ever to be completely designed by a woman And she did all this while suffering from polio In this biography we learn that she supervised 4500 workers and produced about 1450 Hawker Hurricanes by the end of WWII Elsie was a popular heroine of her time inspiring the comic book Queen of the Hurricanes in the 1940s In later life she became a powerful feminist activist advocating for the rights of women and children

**The Ghost Reader** Elena D. Hristova, Aimee-Marie Dorsten, Carol A. Stabile, 2024-03-19 The scholarship research and criticism of women who developed key theories of communication and methods for the study of media The Ghost Reader Recovering Women's Contributions to Media Studies offers a fresh perspective on the intellectual history of the field of media studies a broad scholarly field that encompasses the interdisciplinary and overlapping fields of media studies cultural studies and communication studies By recovering the work of the diverse group of women who labored at the margins of media studies as it took shape during the formative years of communication research between the 1930s and the 1950s and providing scholarly contexts for this work The Ghost Reader shows that intersectional considerations were key modes of engagement for intellectuals academics and activists who happened to be women They did so decades before feminist perspectives were reintegrated into histories of the field
