Measurement Of Inequality And Poverty:

Handbook of Income Inequality Measurement Jacques Silber, 1999-08-31 Amartya Sen Equality I spoke the word As if a wedding vow Ah but I was so much older then I am younger than that now Thus sang Bob Dylan in 1964 Approbation of equality varies not only with our age though it is not absolutely clear in which direction the values may shift over one's life time but also with the spirit of the times The 1960s were good years for singing in praise of equality The spirit of the present times would probably be better reflected by melodies in admiration of the Federal Reserve System And yet the technical literature on the evaluation and measurement of economic inequality has grown remarkably over the last three decades Even as actual economic policies especially in North America and Europe have tended to move towards focusing on virtues other than the avoidance of economic inequality the professional literature on assessing and gauging economic inequality has taken quite a jump forward A great many different problems have been addressed and effectively sorted out and new problems continue to be posed and analyzed The Contents A Review Jacques Silber has done a great service to the subject by producing this collection of admirably helpful and illuminating papers on different aspects of the measurement of income inequality The reach of this collection is quite remarkable Along with a thorough overview from the editor himself the major areas in this complex field have been carefully examined and accessibly discussed

Measurement of Inequality and Poverty Sreenivasan Subramanian, 2001 Contributed articles with reference to developing countries

The Dynamics of Inequality and Poverty John Creedy, 1998 This important book is concerned with the evaluation of changes in income distribution and the analysis of tax and transfer systems The book begins with an introduction to the measurement of inequality and poverty stressing the role of value judgements The following six chapters deal with cross sectional comparisons including the analysis of a labour market model of income distribution the choice of transfer system marginal indirect tax reform and the distributional effects of inflation The next seven chapters are concerned with dynamic aspects of income distribution These examine the complex relationship between cross sectional and lifetime distributions relative income mobility and the effects of income mobility on temporary and permanent poverty The Dynamics of Inequality and Poverty will be essential reading for students and scholars of public sector economics welfare economics and social economics along with those directly concerned with policy formulation

Lectures on Inequality, Poverty and Welfare

Antonio Villar,2016-12-24 These lectures aim to help readers understand the logics and nature of the main indicators of inequality and poverty with special attention to their social welfare underpinnings The key approach consists in linking inequality and poverty measurement with welfare evaluation As concern for inequality and poverty stems from ethical considerations the measurement of those aspects necessarily involves some value judgments Those value judgments can be linked directly or indirectly to welfare assessments on the distribution of personal and social opportunities Inequality and poverty are thus considered to be partial aspects of the welfare evaluation of the opportunities in a given society The volume includes two applications that illustrate how the models can be implemented They refer to inequality of opportunity and poverty in education using PISA data **Models and Measurement of Welfare and Inequality** Wolfgang

Eichhorn,2012-12-06 The literature on economic problems connected with measuring and modelling of welfare and inequality has grown rapidly within the last decade Since this literature is scattered throughout a great number of journals on economics economic theory econometrics and statistics it is difficult to get an adequate picture of the present state of the art Therefore books should appear from time to time which offer a representative cross section of the latest results of research on the subject This book offers such material It contains 54 articles by 84 authors from four of the five continents Each paper has been reviewed by two referees As a consequence the contributions of this book are revised versions or in many cases revised revisions of the original papers The book is divided into four parts Part I Measurement of Inequality and Poverty This part contains eleven papers on theory and empirical applications of inequality and or poverty measures Two contributions deal with among other things experimental findings on questions concerning the acceptance of distributional axioms Part II Taxation and Redistribution Distributional or rather redistributive aspects play an important role in Part II The topics of the 14 papers included in this part range from tax progressivity and redistribution allocative consequences of splitting under income taxation and connections between income tax and cost of living indices to merit goods and welfarism as well as to welfare aspects of tax reforms Economic Inequality and Poverty Nanak Kakwani,Hyun H. Son,2022 Economic Inequality

and Poverty examines how methods for measuring inequality and poverty have evolved Kakwani and Son draw on household surveys to demonstrate a framework based on economic variables that can be applied to draw up evidence based policies

Inequality of Opportunity Juan Gabriel Rodríguez,2011-10-12 Eight papers both theoretical and applied on the concept of equality of opportunity which says that a society should guarantee its members equal access to advantage regardless of their circumstances while holding them responsible for turning that access into actual advantage by the application of effort

Research on Economic Inequality Sanghamitra Bandyopadhyay,Juan Gabriel Rodríguez,2017-11-30 This volume presents ten chapters that discuss the economics of poverty inequality and welfare They address how we measure poverty inequality and welfare and how we use such measurements to devise policies to deliver social mobility They consider both theoretical and empirical topics with special reference to developing countries Measuring Inequality Frank Alan
