Rytz,A. Spornol,1991 The authors have addressed the basic need for internationally consistent standards and methods demanded by the new and increasing use of radioactive materials radiopharmaceuticals and labelled compounds Particular emphasis is given to the basic and practical problems that may be encountered in measuring radioactivity The text provides information and recommendations in the areas of radiation protection focusing on quality control and the precautions necessary for the preparation and handling of radioactive substances New information is also presented on the applications of both traditional and innovative instruments in the fields of diagnostic and clinical radiology radiation protection biomedical research industrial and agricultural applications power production and waste control **Canal Discharge Measurements with Radioisotopes** J. C. Schuster,1964 Half capacity tests in Feb 1962 and full capacity tests in June 1963 using Gold 198 were made in a straight section of a concrete lined irrigation canal with a design discharge of 620 cfs The pulse or total count radioisotope method was used for 65 discharge measurements Consistency of the radioisotope method was evaluated by using up to 4 portable Geiger counting systems Conclusions were 1 With adequate mixing of radioisotope and canal water accuracy of 97% or greater is possible when compared with current meter discharge measurements 2 In a canal with hydraulic characteristics similar to the one tested a 2 500 to 3 000 ft mixing length is needed for 98 to 99% mixing 3 Minimum mixing length may be computed for similar straight canals using a diffusion coefficient and time factor developed from these tests 4 Simultaneous multiple injections of tracer will provide higher probability of uniform mixing in shorter lengths than will single injections and also result in higher diffusion coefficients 5 With sufficient data from canals of various sizes mixing length equations can probably be derived for canals having a minimum of turbulence Library of Congress Subject Headings Library of Congress,Library of Congress.
