Measuring Forensic Psychiatric And Mental Health Nursing Interactions Developments In Nursing And Health Care 11:

Therapeutic Interventions for Forensic Mental Health Nurses Alyson Kettles, Phil Woods, Mick Collins, 2002 This book explores current and emerging interventions in forensic nursing and the care of the mentally disordered offender with an emphasis on clinical practice and clinical competence It explores the practical issues facing forensic nurses such as environment and safety issues as well as the possible emotional trauma of such a role [The Use of Coercive Measures in Forensic Psychiatric Care](#) Birgit Völlm, Norbert Nedopil, 2016-05-02 This book presents the legal context and describes the ethical and practical challenges when using coercive measures in forensic psychiatric settings A wide range of aspects relevant to the use of such measures including environmental patient related and staff related factors are explored and the experience of coercive interventions is described from the staff and the patient perspective Differences in jurisdictions and examples of good practice are highlighted The authors are from a range of professional backgrounds ensuring breadth as well as depth in discussion of the topic The use of coercive measures in particular restraint seclusion and involuntary medication for the control of aggression in psychiatry remains controversial Forensic mental health care deals with individuals who pose a risk to others and often present with significant management problems within institutions The care of patients in these settings gives rise to debates about the balance between care and safety and between the interests of the patients and those of the wider society to be protected Despite these tensions limited research has been conducted specifically on the use of coercive measures in forensic mental health care This volume aims to fill the gap and will be of value to all professionals working in forensic psychiatric settings as well as to those working in general psychiatric and custodial settings law professionals and patients *The Handbook of Community Mental Health Nursing* Michael Coffey, Ben Hannigan, 2005-07-25 This handbook brings together authoritative contributions from leading mental health researchers educators and practitioners to provide a comprehensive text for community mental health nurses in training and practice In thirty three chapters it covers a wide range of topics from the history of the profession to current approaches to specific client groups organised around three linked themes professional context practice issues education and research Each chapter includes a summary of key points and suggestions for further reading and also includes useful appendices listing key professional and voluntary organisations journals Internet and mailing lists The handbook reflects the diversity and scope of the role of the CMHN and recognizes the multidisciplinary and service user context in which nurses work It is an essential text for CMHNs and mental health nurse educators and offers a useful source of reference for allied professionals **Psychiatric and Mental Health Nursing** Desmond Cormack, William Reynolds, 2013-11-11 Psychiatric and Mental Health Nursing Theory and practice was conceived as a result of three major premises which in the view of the editors relate to the practice of psychiatric and mental health nursing First that high quality psychiatric and mental health

nursing can be practised only if it is under pinned by appropriate nursing theory Secondly that there exists a body of theory which can and should be applied to psychiatric and mental health nursing Thirdly that there is a need for a text which will assist teachers students and clinicians to apply available nursing and borrowed theory to clinical practice The general aim of this book is to introduce nursing students to a theory based approach to caring for people with psychiatric and mental health problems The phrase psychiatric and mental health problems indicates that the text relates to clients with a psychiatric diagnosis and also to those who have mental health problems but who do not necessarily have such a diagnosis The client group to which the material in this text applies will include those who are or have been hospitalized and those in the community who have not been and may never be hospitalized The intended readership is all students of psychiatric and mental health nursing issues for example basic and post basic nurses and their teachers
