Predictive Sentencing Jan W de Keijser, Julian V Roberts, Jesper Ryberg, 2019-05-16 Predictive Sentencing addresses the role of risk assessment in contemporary sentencing practices Predictive sentencing has become so deeply ingrained in Western criminal justice decision making that despite early ethical discussions about selective incapacitation it currently attracts little critique Nor has it been subjected to a thorough normative and empirical scrutiny This is problematic since much current policy and practice concerning risk predictions is inconsistent with mainstream theories of punishment Moreover predictive sentencing exacerbates discrimination and disparity in sentencing Although structured risk assessments may have replaced gut feelings and have now been systematically implemented in Western justice systems the fundamental issues and questions that surround the use of risk assessment instruments at sentencing remain unresolved This volume critically evaluates these issues and will be of great interest to scholars of criminal justice and criminology

Assessing the Youthful Offender Robert D. Hoge, D.A. Andrews, 2013-06-29 Our society's preoccupation with crime and fear of crime appears to have shifted its focus to the juvenile offender Both electronic and print media continuously warn us that juvenile offenders are increasingly younger and more virulent The demographics of our population suggest that there will only be more juvenile offenders to fear in the near future All of these concerns arise in a social climate that is characterized by an ever increasing demand for stronger retributive measures against the offender The belief that only harsh justice will protect us from the ravages of juveniles has become dominant Increasingly perceptions and politics rather than scientific data dominate policy making with regard to youthful offenders In *Assessing the Youthful Offender* Issues and Techniques Robert D Hoge and D A Andrews make a restrained rational and ultimately persuasive argument for the use of standardized psychological assessments in the effective management of youth within juvenile justice systems They clarify how what we already know about the cause and management of youthful criminal activity can be incorporated into standardized testing and that the information obtained from testing can improve the administration of criminal justice Moreover this information is useful whatever the theoretical biases of those who administer the justice system The efficiency of policies of either retribution deterrence or rehabilitation is only enhanced by reliance on data

Offender Rehabilitation in Practice Gary A. Bernfeld, David P. Farrington, Alan W. Leschied, 2003-01-10 Documented evidence suggests that community safety is best

achieved through policies promoting human services rather than relying totally on prisons and that promoting intervention in an individual's own environment known as ecological integrity is closely associated with effective intervention. Until recently professionals in both investigation and treatment have considered the fields of sexual violence and domestic abuse as separate and distinct. Numerous studies have shown however that these fields may not be so neatly pigeonholed as once believed. Statistics indicate that there is an overlap in both the level and type of violence. exp **Criminal Recidivism** Georgia Zara, David Farrington, 2015-07-24. on unique access to two Supermax prisons and on in depth interviews with prison officials prison architects current and former prisoners mental health professionals penal legal and human rights experts it provides a holistic view of the theory practice and consequences of these prisons Given the historic uses of solitary confinement the book also traces continuities and discontinuities in its use on both sides of the Atlantic over the last two centuries It argues that rather than being an entirely new form of imprisonment Supermax prisons draw on principles of architecture surveillance and control which were set out in the early 19th century but which are now enhanced by the most advanced technologies available to current day prison planners and administrators It asks why a form of confinement which had been discredited in the past is now proposed as the best solution for dealing with difficult dangerous or disruptive prisoners and assesses the true costs of Supermax confinement

The Juvenile Offender Robert D. Hoge, 2012-12-06 This book provides a discussion of advances in our understanding of the juvenile offender These derive from

psychological and criminological theory and research on the phenomenon of youth crime and from efforts on the part of social science researchers and practitioners to develop and evaluate new approaches to prevention and treatment. The theoretical and empirical advances relate first to analyses of the nature and extent of youth crime. This is reflected for example in various descriptive and classification systems developed for characterizing juvenile offenders. Significant advances are also being made in understanding the risk factors associated with youthful criminal activity as well as the processes linking the risk factors with antisocial behaviors. This understanding is based on theory and research relating to the correlates and causes of delinquency. The advances in our understanding of the nature, correlates and causes of juvenile crime are accompanied by progress in analyzing the treatment of youth in juvenile justice systems and in developing and evaluating alternative approaches to treatment. These efforts include research on decision making within juvenile justice systems and the development of screening and assessment tools. This also includes efforts to develop and evaluate effective prevention and treatment programs for use with youths involved in criminal activity and those at risk for this activity.

The Black Child-Savers Geoff K. Ward, 2022-12-22 During the Progressive Era a rehabilitative agenda took hold of American juvenile justice materializing as a citizen and state building project and mirroring the unequal racial politics of American democracy itself. Alongside this liberal manufactory of citizens a parallel structure was enacted a Jim Crow juvenile justice system that endured across the nation for most of the twentieth century. In The Black Child Savers the first study of the rise and fall of Jim Crow juvenile justice Geoff Ward examines the origins and organization of this separate and unequal juvenile justice system. Ward explores how generations of black child savers mobilized to challenge the threat to black youth and community interests and how this struggle grew aligned with a wider civil rights movement eventually forcing the formal integration of American juvenile justice. Ward's book reveals nearly a century of struggle to build a more democratic model of juvenile justice an effort that succeeded in part but ultimately failed to deliver black youth and community to liberal rehabilitative ideals. At once an inspiring story about the shifting boundaries of race citizenship and democracy in America and a crucial look at the nature of racial inequality The Black Child Savers is a stirring account of the stakes and meaning of social justice.

implications for professionals selecting and administering assessment procedures and interpreting the data they yield yet assessment texts have focused on adults or children and devoted minimal attention to adolescents This book constitutes the first up to date and practical guide to the effective psychological assessment of adolescents Throughout the author s emphasis is on standardized instruments Their use he argues provides more valid information about individuals leads to better treatment or placement decisions and contributes to the more efficient management of organizational resources than does reliance on clinical interviews and judgment alone Assessing Adolescents in Educational Counseling and Other Settings will be welcomed by all those professionally involved in the assessment of adolescents psychologists psychiatrists social workers child care agency staff and educators as well as by those who must make decisions based on their assessments school principals youth court judges and managers of residential treatment facilities among others Developmental researchers will also find this review of available standardized tools helpful in their work

Working with Women Offenders in the Community Rosemary Sheehan, Gill McIvor, Chris Trotter, 2010-12-21 Though many more women offenders are supervised in the community than in custody much less is known about their needs and effective approaches to their supervision support and treatment Whilst there has been recent attention paid to responding to the needs of women in prison negligible attention has been paid to women exiting prison or on community based orders and what is needed to work with them to reduce re offending or entry into prison Contributions to this book challenge policy makers and corrections systems to concentrate more on community provision for women offenders and resist popular calls for more punitive responses to all offenders women included Contributors come from a wide range of countries including Australia Canada UK and USA They argue that the criminogenic lens applied to women s offending must be gender responsive if systems are to be successful at addressing the disadvantage and risk associated with offending behaviour Working With Women Offenders in the Community builds on ideas presented in the editors previous book What Works With Women Offenders 2007 extending the focus particularly on women offenders in the community rather than in prison This book concentrates on women who have committed criminal offences and who may have been placed on probation or other community based court orders or who have been released from prison on parole It discusses the work done by professional workers including probation officers community corrections officers and specialist case managers in areas such as drug treatment housing mental health or employment programmes This book will be of interest to professional probation officers case managers drug treatment workers and others who work with women offenders It will also be essential reading for students of criminology social work psychology sociology and other disciplines who have an interest in women offenders
