ROBERT A. BAGEANT  
B.S., M.S., A.R.R.T.

*Technical Director, Respiratory Therapy*

*University of Virginia Medical Center*

*Charlottesville, Virginia*

With the exception of the section on historical notes, this monograph has been completely rewritten for the Third Edition. The basic format has been retained, with sections on the diagnosis and characteristics of respiratory failure, equipment and hardware, various forms and distinguishing details of respiratory failure, and the physiology of respiration. New subject matter has been added, outdated information eliminated and other material updated.

This is a monograph that will provide a broad introduction to a subject that is of frequent concern to the busy practitioner and of great interest to the great majority of medical students and nurses as well as respiratory therapists. The bibliography provides expansive potential for the serious student of mechanical artificial ventilation.
