

Medea The Sorceress

G Orfield

Medea The Sorceress:

Medea the Sorceress, 1991 **Medea** Emma Griffiths, 2012-11-12 Giving access to the latest critical thinking on the subject Medea is a comprehensive guide to sources that paints a vivid portrait of the Greek sorceress Medea famed in myth for the murder of her children after she is banished from her own home and replaced by a new wife Emma Griffiths brings into focus previously unexplored themes of the Medea myth and provides an incisive introduction to the story and its history Studying Medea s everywoman status one that has caused many intricacies of her tale to be overlooked Griffiths places the story in ancient and modern context and reveals fascinating insights into ancient Greece and its ideology the importance of life the role of women and the position of the outsider In clear user friendly terms the book situates the myth within analytical frameworks such as psychoanalysis and Griffiths highlights Medea s position in current classical study as well as her lasting appeal *Myths and Tragedies in their Ancient Greek Contexts* Richard Buxton, 2013-07-25 This work brings together eleven of Richard Buxton s studies of Greek mythology and Greek tragedy focusing especially on the interrelationship between the two and their importance to the Greeks themselves Situating and contextualising topics and themes such as mountains were wolves mythological names movement stillness blindness and feminization within the world of ancient Greece its landscapes social and moral priorities and mental structures he traces the intricate variations and retellings which they underwent in Greek antiquity Although each chapter has appeared in print in some form before each has been thoroughly revised for the present book taking into account recent research The introduction sets out the principles and objectives which underlie Buxton s approach to Greek myths and how he sees his own method in relation to those of his predecessors and contemporaries **Mythologica** Stephen P. Kershaw, 2019-08 An illustrated encyclopedia of characters from Greek mythology prepare to be amazed **Ritual and the Poetics of Closure in Flavian Literature** Angeliki-Nektaria Roumpou, 2023-08-07 This collection of papers responds to the question of whether a ritual at the end of a text can offer resolution and order or rather a complicated kind of closure It reveals that ritual can bring but also can thwart closure by alluding to new beginnings A ritual could be a perfect kind of ending but it hardly ever seems to be In Flavian literature this is even more apparent because of the complicated political background under which these texts were produced Ancient religious practices in the closing sections of Flavian texts help us create connections between endings and new beginnings order and disorder binding and loosening structure and dissolution which reflects the structure of the Empire in Flavian Rome Overall this volume offers a new tool for studying literary endings through ritual which promotes our understanding of Flavian culture and politics as well as creating a new perception of the use of religion and ritual in Flavian literature instead of giving a sense of closure this volume argues that ritual is a medium to increase complexity to expose ritual actors and to project a generic riskiness of ritual actors also onto the epic actors who are acting before and mostly after a ritual scene **Intertextuality in Flavian Epic Poetry** Neil Coffee, Chris Forstall, Lavinia Galli Milic, Damien

Nelis,2019-12-16 This collection of essays reaffirms the central importance of adopting an intertextual approach to the study of Flavian epic poetry and shows despite all that has been achieved just how much still remains to be done on the topic Most of the contributions are written by scholars who have already made major contributions to the field and taken together they offer a set of state of the art contributions on individual topics a general survey of trends in recent scholarship and a vision of at least some of the paths work is likely to follow in the years ahead In addition there is a particular focus on recent developments in digital search techniques and the influence they are likely to have on all future work in the study of the fundamentally intertextual nature of Latin poetry and on the writing of literary history more generally **Companion to**

Literary Myths, Heroes and Archetypes Pierre Brunel,2015-07-30 First published in French in 1988 and in English in 1992 this companion explores the nature of the literary myth in a collection of over 100 essays from Abraham to Zoroaster Its coverage is international and draws on legends from prehistory to the modern age throughout literature whether fiction poetry or drama Essays on classical figures as well as later myths explore the origin development and various incarnations of their subjects Alongside entries on western archetypes are analyses of non European myths from across the world including Africa China Japan Latin America and India This book will be indispensable for students and teachers of literature history and cultural studies as well as anyone interested in the fascinating world of mythology A detailed bibliography and index are included The Companion provides a fine interpretive road map to Western culture s use of archetypal stories Wilson Library Review It certainly is a comprehensive volume extremely useful Times Higher Education Supplement **Approaches to**

Greek Myth Lowell Edmunds,1990 There was no simple agreement on the subject of myth in classical antiquity and there remains none today In *Approaches to Greek Myth* Lowell Edmunds brings together practitioners of eight of the most important contemporary approaches to the subject Whether exploring myth from a historical comparative or theoretical perspective each lucidly describes a particular approach applies it to one or more myths and reflects on what the approach yields that others do not Contributors are H S Versnel on the intersections of myth and ritual Carlo Brillante on the history of Greek myth and history in Greek myth Robert Mondi on the near Eastern contexts and Joseph Falaky Nagy on the Indo European structure in Greek myth William F Hansen on myth and folklore Claude Calame on the Greimasian approach Richard Caldwell on psychoanalytic interpretations and Christiane Sourvinou Inwood on the iconography of vase paintings of Theseus and Medea and on a methodology for reading such visual sources In his introduction Edmunds confronts Marcel Detienne s recent deconstruction of the notion of Greek mythology and reconstructs a meaning for myth among the ancient Greeks *Ancient Magic and the Supernatural in the Modern Visual and Performing Arts* Filippo Carlà-Uhink,Irene Berti,2015-04-23 To what extent did mythological figures such as Circe and Medea influence the representation of the powerful oriental enchantress in modern Western art What role did the ancient gods and heroes play in the construction of the imaginary worlds of the modern fantasy genre What is the role of undead creatures like zombies and vampires in

mythological films Looking across the millennia from the distrust of ancient magic and oriental cults which threatened the new born Christian religion to the revival and adaptation of ancient myths and religion in the arts centuries later this book offers an original analysis of the reception of ancient magic and the supernatural across a wide variety of different media from comics to film from painting to opera Working in a variety of fields across the globe the authors of these essays deconstruct certain scholarly traditions by proposing original interdisciplinary approaches and collaborations showing to what extent the visual and performing arts of different periods interlink and shape cultural and social identities

Magic in the Literature of the Neronian Period Konstantinos Arampapaslis, 2024-04-22 Neronian representations of magic a practice prevalent in the everyday life of the period and a central topic in its literary production are characterized by unprecedented accuracy and detail The similarities of witchcraft depictions in Seneca's Medea Lucan's book 6 and Petronius Satyricon with spells of the PGM the defixiones as well as with Pliny's quasi magical recipes underscore realism as the distinctive trait of Neronian magic scenes which has often been considered the authors means to differentiate themselves from their Augustan predecessors However such high degree realism is not merely an ornamental feature but transforms into a tool that influences the reader's response toward magic according to each author's worldview and aims The cross generic examination of the motif of magic in the major Neronian authors shows how realism forms a link between reader contemporary experience and text that encourages more active participation on the part of the reader At the same time images of destruction the horrific and the ridiculous further enhance the negative view of magic as an ineffective Lucan Petronius or destructive force Seneca simultaneously eliciting the reader's critical response

Medea's Long Shadow in Postcolonial Contexts Ana Filipa Prata, Rodrigo Verano, 2024-06-10 This interdisciplinary volume explores the ancient Greek myth of Medea and its global analogues found in other mythic and folk tales of deadly exiled women such as those of La Malinche and La Llorona examining the connections between these figures and their depictions from antiquity to modernity The book considers the figure of the foreign woman her exile fratricide and infanticide in its ancient Greek form and in global postcolonial receptions in a range of media including drama film novels and the visual arts The chapters illuminate the contradictions of considering the classical Medea as a central reference point for analysis of other female figures from peripheral territories while simultaneously acknowledging the insights that such comparisons can yield Emphasizing the ways in which Medea's seditious nature enables the establishment of an extensive and heterogeneous intertextual network with other mythic characters who represent a similarly disruptive role in their specific local historical and cultural contexts the book argues for a comparative analysis that is equally attentive to myths and folk tales from all regions These essays by scholars of classics comparative and world literatures and postcolonial studies represent a plurality of perspectives from different academic contexts in Africa Latin America North America and Europe and examine how different cultures have depicted women foreigners crime and abjection The foundations of Greek myth and subsequently of

the classical tradition itself are interrogated from a postcolonial perspective In tracing the portrayals of Medea and other mythic women through the overlapping features of different female characters and plots and intertwining local cultural and literary materials with broader debates this volume challenges Eurocentric narratives of power and cultural domination and works to decentralize the discussion of Medea from the exclusive domain of classical studies *Medea's Long Shadow in Postcolonial Contexts* will be of interest to students and scholars working on Greek tragedy and its reception as well as to those studying postcolonial and global approaches to literature culture and gender studies *Medea* Barbara Hannon, 1986

Four Famous Greek Plays, 1929 **Medea's Daughters** Jennifer Jones, 2003 Explores the legal cultural and dramatic representations of six accused murderesses to look at how English speaking society responded to and controlled anxiety over female transgressions *Women Writers and the Dark Side of Late-Victorian Hellenism* T. Olverson, 2009-11-19 Examining the appropriation of transgressive violent female figures from ancient Greek literature and myth by late Victorian writers Olverson reveals the extent to which ancient antagonists like the murderous Medea and the sinister Circe were employed as a means to protest against and comment upon contemporary social and political institutions **The Saturday Review of Politics, Literature, Science, Art, and Finance**, 1871 **Requiem for Cavalli's Operas for the Stage** Ellen

Rosand, 2017-07-05 After more than three centuries of silence the voice of Francesco Cavalli is being heard loud and clear on the operatic stages of the world The coincidence of productions at La Scala Milan and Covent Garden London in the same month September 2008 of two different operas signals a new stage in the recovery of these extraordinary works confined until now to special venues committed to early music opera festivals conservatory and university productions The works of the composer who is credited with having invented the genre of opera as we know it are finally enjoying a renaissance A new edition of Cavalli's twenty eight operas is in preparation and the composer and his works are at the center of a great deal of new scholarship ranging from the study of sources and production issues to the cultural context of opera of this period In the face of such burgeoning interest this collection of essays considers the Cavalli revival from various points of view In particular it explores the multiple issues involved in the transformation of an operatic manuscript into a performance Although focused on the works of Cavalli much of this material can transfer easily to other operatic repertoires Following an introductory part reflecting back on four decades of Cavalli performances by some of the conductors responsible for the revival of interest in the composer the collection is divided into four further parts The Manuscript Scores *Giasone* Production and Interpretation Making Librettos and Cavalli Beyond Venice *Dutch Paintings in the Metropolitan Museum of Art* Walter A. Liedtke, Metropolitan Museum of Art (New York, N.Y.), 2007 Presents a catalog that surveys the Dutch paintings found in the Metropolitan Museum of Art *Greek Dramas by Aeschylus, Sophocles, Euripides, and Aristophanes*, 1904

Dictionary of Phrase and Fable, Giving the Derivation, Source, Or Origin of Common Phrases, Allusions, and Words that Have a Tale to Tell Ebenezer Cobham Brewer, 1895

Getting the books **Medea The Sorceress** now is not type of challenging means. You could not lonely going next book buildup or library or borrowing from your friends to edit them.
