Media Enthralled Singapore Revisited:

The Media Enthralled Francis T. Seow, 1998 Once a proud and independent institution the Singapore press was brought to its knees by threats arbitrary arrests and detentions general harassment and litigation during Prime Minister Lee Kuan Yew's administration Singapore's former solicitor general tells the story **Singapore** Souchow Yao, 2007-02-12 Taking ideas and frameworks from philosophy psychology political science cultural studies and anthropology this book tells the larger truth about the Singapore state This book argues that this strong hegemonic state achieves effective rule not just from repressive policies but also through a combination of efficient government good standard of living tough official measures and popular compliance Souchow Yao looks at the reasons behind the hegemonic ruling examining key events such as the caning of American teenager Michael Fay the judicial ruling on fellatio and unnatural sex and Singapore's war on terror to show the ways in which the State manages these events to ensure the continuance of its power and ideological ethos Lively and well written this book discusses key subject areas such as leftist radicalism and communist insurgency nation building as trauma Western yellow culture and Asian Values judicial caning and the meaning of pain the law and oral sex food and the art of lying cinema as catharsis Singapore after September 11 *The Limits of Authoritarian Governance in Singapore's Developmental State* Lily Zubaidah Rahim, Michael D. Barr, 2019-02-06 This book delves into the limitations of Singapore's authoritarian governance model In doing so the relevance of the Singapore governance model for other industrialising economies is systematically examined Research in this book examines the challenges for an integrated governance model that has proven durable over four to five decades The editors argue that established socio political and economic formulae are now facing unprecedented challenges Structural pressures associated with Singapore's particular locus within globalised capitalism have fostered heightened social and material inequalities compounded by the ruling party's ideological resistance to substantive redistribution As growth with equity becomes more elusive the rationale for power by a ruling party dominated by technocratic elite and state institutions crafted and controlled by the ruling party and its bureaucratic allies is open to more critical scrutiny **Reassessing Lee Kuan Yew's Strategic Thought** Ang Cheng Guan, 2023-03-13 Building on the author's 2012 book Lee Kuan Yew's Strategic Thought this new book presents a comprehensive overview of Lee Kuan Yew's strategic thought over the course of his entire life It analyses the factors underlying Lee Kuan Yew's thinking discusses his own writings and speeches and shows how his thinking on foreign policy security and international relations evolved It also appraises writing about Lee Kuan Yew and memorialisation of him assessing how views of his legacy have changed and continue to change [Civil Life, Globalization and Political Change in Asia](#) Robert P. Weller, 2004-08-02 Written by a team of international experts in the field the chapters in this book question whether and how NGOs actually lead to democratization and discuss the ways NGOs relate to broader global forces

Government Communication Karen Sanders, Maria Jose Canel, 2013-06-20 Government communication is a curiously

neglected area of discursive analysis No considered examination of the subject exists which provides either an account of the contemporary governmental landscape or an explanation of the common and divergent themes on both a domestic and international basis This volume aims to fill that gap providing a concise and illuminating case study based review of government communication It will be divided into three sections to reflect differences in both geography and political allegiances scrutinizing continental Europe Anglo American traditions and newly emerging democracies Offering a global and thematic account it is an indispensable resource for all students of political communication

The 1963 Operation Coldstore in Singapore Poh Soo Kai, Tan Kok Fang, Hong Lysa, Operation Coldstore remains the most contentious event in the history of postcolonial Singapore Despite attempts by the state to silence ex detainees by warning that they would not be permitted to rewrite the state's official version of history the authors in this volume have done just that They have placed on record their own perspective of events The autobiographical element in the narratives brings to life what these individuals went through as left wing political actors who responded to the call of anti colonialism and the challenge of shaping a new society Their accounts of life in prison are a sober reminder of the deprivations and tortures inflicted to break their spirit These stirring accounts are supplemented by academic contributions that provide contextual depth to the historical events and a critique of history writing in Singapore

A History of Human Rights Society in Singapore Jiyoun Song, 2017-05-08 To celebrate Singapore's fiftieth anniversary for its independence from Malaysia in 2015 35 students academics and activists came together to discuss and write about pioneering Singaporean human rights activists and their under reported stories in Singapore The city state is known for its remarkable economic success while having strict laws on individual freedom in the name of national security public order and racial harmony Singapore's tough stance on human rights however does not negate the long and persistent existence of a human rights society that is little known to the world until today This volume composed of nine distinctive chapters records a history of human rights activists their campaigns main contentions with the government survival strategies and other untold stories in Singapore's first 50 years of state building

Freedom from the Press Cherian George, 2012-04-01 For several decades the city state of Singapore has been an international anomaly combining an advanced open economy with restrictions on civil liberties and press freedom Freedom from the Press analyses the republic's media system showing how it has been structured like the rest of the political framework to provide maximum freedom of manoeuvre for the People's Action Party PAP government Cherian George assessed why the PAP's freedom from the press model has lasted longer than many other authoritarian systems He suggests that one key factor has been the PAP's recognition that market forces could be harnessed as a way to tame journalism Another counter intuitive strategy is its self restraint in the use of force progressively turning to subtler means of control that are less prone to backfire The PAP has also remained open to internal reform even as it tries to insulate itself from political competition Thus although increasingly challenged by dissenting views disseminated through the internet the PAP has so far

managed to consolidate its soft authoritarian hegemonic form of electoral democracy Given Singapore's unique place on the world map of press freedom and democracy this book not only provides a constructive engagement with ongoing debates about the city state but also makes a significant contribution to the comparative study of journalism and politics

The Rule of Law in Singapore Li-ann Thio, 2025-01-09 This book examines the operation of the rule of law in the non liberal democracy of Singapore The rule of law in Singapore has been both lauded for anchoring efficient and effective government and lambasted for being procedural and statist 21st century Singapore has experienced modest political liberalisation manifesting a paternal democracy where the governor governed relationship is evolving from a father knows best paternalistic mindset to a more consultative approach to governance where dialogue rather than diktat is the norm in a post deferential era The Singapore case study helps pluralise the rule of law as a universal principle which moderates power and may be variously implemented The book examines the reception of the rule of law within the Singapore legal order and how it interacts with constitutional principles like the separation of powers and democracy in the design of constitutional institutions and forging of structural and rights oriented judicial review It considers how the rule of law contoured by legal communitarianism sustains a managed democracy in relation to legislation governing internal security public assemblies religious harmony and online falsehoods It questions whether the chilling of political speech by strict laws on political defamation and contempt of court has been significantly defrosted by important developments which seek ordered liberty through a more calibrated form of review Lucid and engaging this book will be of interest to researchers working in constitutional law

Contentious Journalism and the Internet Cherian George, 2006 This nuanced work draws on social movement studies to challenge current understandings of the relationship between media and the internet The book's lively style will make it relevant for anyone interested in politics and media in Malaysia and Singapore

Reconfiguring East Asia Mark Beeson, 2014-04-23 Focuses both on specific regional organizations like ASEAN The Asian Development Bank and APEC as well as on key institutions such as East Asian legal systems the media organized labour Asian business systems and the developmental state

The Routledge Handbook of Nationalism in East and Southeast Asia Lu Zhouxiang, 2023-07-31 This handbook presents a comprehensive survey of the formation and transformation of nationalism in 15 East and Southeast Asian countries Written by a team of international scholars from different backgrounds and disciplines this volume offers new perspectives on studying Asian history society culture and politics and provides readers with a unique lens through which to better contextualise and understand the relationships between countries within East and Southeast Asia and between Asia and the world It highlights the latest developments in the field and contributes to our knowledge and understanding of nationalism and nation building Comprehensive and clearly written this book examines a diverse set of topics that include theoretical considerations on nationalism and internationalism the formation of nationalism and national identity in the colonial and postcolonial eras the relationships between traditional culture religion ethnicity education gender

technology sport and nationalism the influence of popular culture on nationalism and politics policy and national identity It illustrates how nationalism helped to draw the borders between the nations of East and Southeast Asia and how it is re emerging in the twenty first century to shape the region and the world into the future The Routledge Handbook of Nationalism in East and Southeast Asia is essential reading for those interested in and studying Asian history Social and Cultural history and modern history Constructing Identity in Contemporary Architecture Peter Herrle,Stephanus Schmitz,2009 The global spread of uniform modes of production and cultural values has been accompanied by a dissemination of stereotypes of modern architecture styles almost everywhere around the globe Paradoxically the reverse process has also emerged In some countries the elites feel the necessity to counterbalance the loss of identity and defend their own cultures against the intruding forces of globalization What started as a defensive notion has developed into a more progressive attempt to re create what has allegedly been lost This trend is being strongly expressed in discourses about architecture in countries of the South Who are the actors feeling compelled to construct new identities How are these new identities in architecture created in various parts of the world And which are the ingredients borrowed from various historical and ethnic traditions and other sources These and other questions are discussed in five case studies from different parts of the world written by renowned scholars from Brazil Mexico Egypt India and Singapore Asian Ethical Urbanism: A Radical Postmodern Perspective William Siew Wai Lim,2005-07-15 With the impending demise of modernist planning the footprints and corpses of failed modernist visions are littered everywhere A vacuum of implementable urban theories has occurred at the time when unprecedented expansion and restructuring of cities in rapidly developing economies are taking place In this collection of essays William S W Lim zeroes in on the peculiarities and dynamics of present Asian urban and architectural conditions in order to challenge and transcend the socio ecological forms and political influences generated by the current system of global capitalism Part I of this book consists of the main essay which attempts to establish baselines for an effective formulation of ethical urbanism in Asia by clarifying issues that have previously been unquestioningly bound up with Western values and discourses As an architect urbanist Lim lends a determinedly spatialist and environmental perspective to issues such as rights ethics happiness and social justice while compelling his readers to rethink previously established notions about them Part II of this book consists of three city studies on Hanoi Shanghai and Singapore completed in the last two years which attempt to match Lim s theoretical formulation with actual conditions occurring in Asia today Also included is Asian Architecture in the New Millennium a fascinating discourse on contemporary design conducted from a postmodern perspective Transparency and Authoritarian Rule in Southeast Asia Garry Rodan,2004-08-02 In Transparency and Authoritarian Rule in Southeast Asia Rodan rejects the notion that the 1997 98 Asian economic crisis was further evidence that ultimately capitalism can only develop within liberal social and political institutions and that new technology necessarily undermines authoritarian control Instead Rodan argues that in Singapore and Malaysia external

pressures for transparency reform were and are in many respects being met without serious compromise to authoritarian rule or the sanctioning of media freedom *The First Wave* Loke Hoe Yeong, 2019-09-30 Based on extensive interviews and archival material *The First Wave* tells the story of the opposition in Singapore in its critical first thirty years in Parliament Democratisation has been described to occur in waves The first wave of a democratic awakening in post independence Singapore began with J B Jeyaretnam's victory in the Anson by election of 1981 That built up to the 1984 general election the first of many to be called a watershed in which Chiam See Tong was also elected in Potong Pasir After their successes in 1991 the opposition began dreaming of forming the government But their euphoria was short lived Serious fault lines in the leading Singapore Democratic Party SDP rose to the surface almost immediately after the opposition victories of 1991 and the party was wiped out of Parliament by 1997 The opposition spent the next decade experimenting with coalition arrangements to work their way back to victory *Human Rights in Asia* D. Kingsbury, 2008-09-29 This book offers a critical reassessment of the Asian values debate which dominated the human rights discourse in the late 1990s and a reappraisal of the human rights situation in Asia since then The chapters in this book contextualize the debate and examine in what ways the issues raised then continue to trouble Asian societies **Political Leadership in an Era of Decolonisation** Malcolm Murfett, 2023-11-10 What is leadership and why is it so important In what ways does it look very different in different contexts and in what ways does it look the same Malcolm Murfett brings together a range of emerging and established scholars to examine these questions in light of some of the mid twentieth century's most intriguing national leaders In a series of striking biographical chapters lessons are drawn from the apartheid era in South Africa Lee's remarkable socio economic transformation of Singapore Castro's revolutionary overhauling of Cuba and the playing out of Bandaranaike's populist agenda in Sri Lanka The book illuminates what Brezhnev and Nixon were looking for in the Cold War and what happened when the people turned against Nyerere in Tanzania the Shah in Iran and Ceau escu in Romania These case studies address what leadership meant for the individuals whose record in power is being examined These are not idealised portraits of how to do leadership but warts and all portrayals of exceptional individuals who scrabbled their way to the top and stayed there for several years during a period of great change Business schools have long studied the theoretical axioms of corporate leadership What this book does however is to move beyond the theory into the practical realm of politics and statecraft This is a fascinating book on leadership that will be of interest for students researchers and practitioners studying leadership in business and politics as well as for students of global history decolonisation and the Cold War *Paths Not Taken* Michael D. Barr, Carl A. Trocki, 2008 This title will remind older Singaporeans of ages from their past while providing a younger generation with a novel perspective of their country's past struggles It reveals a complex situation which gives weight to the middle years of the 20th century as a period that offered real alternatives
