Media Education Assessment Handbook William G. to audiovisual material Ethics: Theory and Practice Y. V. Satyanarayana, 2009 Ethics is a part of philosophy that is concerned with living well and choosing the right course of action The choice of the course of action is based on moral reasoning and there is no single moral theory on which we can base the choices that we make The application of moral standards in life is also the concern of Ethics Theory and Practice which deals with moral theories in Indian and Western philosophical traditions as well as the debates that centre around their application The book has ten chapters the first chapter presents what morality and moral reasoning is the second chapter is a critical survey of some popular concepts of Indian ethics the third chapter surveys Western moral theories and the remaining seven chapters cover a variety of contemporary moral issues that are controversial as well as inescapable They deal with issues like capital punishment civil disobedience euthanasia and women's rights *Narrating Conflict in the Middle East* Dina Matar, Zahera Harb, 2013-06-21 The term conflict has often been used broadly and uncritically to talk about diverse situations ranging from street protests to war though the many factors that give rise to any conflict and its continuation over a period of time vary greatly The starting point of this innovative book is that to consider conflict within a singular concept disables a coherent analysis of the constituent factors behind any particular conflict At the same time to consider each conflict as entirely distinct and unique undermines an attempt to examine common factors in all conflicts The contributors set out to explore alternative ways in which the long term conflicts in Palestine and Lebanon have been and are narrated imagined and remembered in diverse spaces including that of the media They examine discourses and representations of the conflicts as well as practices of memory and performance in narratives of suffering and conflict all of which suggest an embodied investment in narrating or communicating conflict In so doing they engage with local global and regional realities in Lebanon and Palestine and they respond dynamically to these realities *The Routledge Companion to Journalism Ethics* Lada Trifonova Price, Karen Sanders, Wendy N. Wyatt, 2021-08-24 This volume provides a comprehensive discussion of enduring and emerging challenges to ethical journalism worldwide The collection highlights journalism practice that makes a positive contribution to people's lives investigates the link between institutional power and ethical practices in journalism and explores the relationship between ethical standards and journalistic practice Chapters in the volume represent three key commitments 1 ensuring practice informed by theory 2 providing professional guidance to journalists and 3 offering an expanded worldview that examines journalism ethics beyond traditional boundaries and borders With input from over 60 expert contributors it offers a global perspective on journalism ethics and embraces ideas from well known and emerging journalism scholars and practitioners from around the world The Routledge Companion to Journalism Ethics serves as a one stop shop for journalism ethics scholars and students as well as industry practitioners and experts Chapter 45 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license **Media Ethics** K.
