Media and Conflict Cees Jan Hamelink, 2015-11-17 The world faces explosive conflicts about the distribution and scarcity of resources about ethnicity and religion and about the risks of urban life These conflicts can easily spiral out of control toward mass slaughter an evil of huge proportions that is often escalated by the media What should be done to prevent this lethal trend We need to understand how the spiral of escalation works How do media create anxiety provide space for agitation and disconnect people Three approaches to the prevention of mass mediated aggression are proposed in this book an early warning system for incitement to mass destruction the invitation to disarming conversations in urban space and the teaching of compassionate communication to children and others Alertness to the recurrence of collective violence is urgently needed not only in unstable and poor societies but also in established democracies Ordinary people can be incited to the mass slaughter of other ordinary people anywhere Understanding the media s role in this and acting to prevent it are key goals of this book

Conflict Resolution in the Twenty-first Century Jacob Bercovitch, Richard Dean Wells Jackson, 2009-08-04 In the past arbitration direct bargaining the use of intermediaries and deference to international institutions were relatively successful tools for managing interstate conflict In the face of terrorism intrastate wars and the multitude of other threats in the post Cold War era however the conflict resolution tool kit must include preventive diplomacy humanitarian intervention regional task sharing and truth commissions Here Jacob Bercovitch and Richard Jackson two internationally recognized experts systematically examine each one of these conflict resolution tools and describe how it works and in what conflict situations it is most likely to be effective Conflict Resolution in the Twenty first Century is not only an essential introduction for students and scholars it is a must have guide for the men and women entrusted with creating stability and security in our changing world Cover illustration iStockphoto com

Media Strategy and Military Operations in the 21st Century Michal

Shavit,2016-07-15 This book applies the concept of mediatization to the contemporary dynamic between war media and society with a focus on the Israel Defence Forces IDF Since the beginning of the 21st century the IDF has undergone an intensive process of mediatization that has transformed the media into an interpretative grid for many of its military activities and increasingly utilized media to garner public support and construct civilian perceptions of conflict and security through media activity and strategy This process can be divided into four distinct chronological phases in accordance with the operational challenges confronted by the IDF during this period from the Al Aqsa Intifada of 2000 through Israeli unilateral disengagement from Gaza in 2005 and the second Lebanon war of 2006 to the series of Gaza confrontations of 2008 2014 The work shows how the IDF s media policy evolved from a narrow perception of its role and separation between operational and media actions to a cohesive and coherently articulated media strategy that is increasingly intertwined with military action and operational strategy and a vital component of strategic military aims and objectives This strategic stance has led the IDF to adopt a global media perspective using the most advanced new media platforms designed to influence public opinion and improve national narratives both in Israel and the international community By applying the concept of mediatization to the Israeli case this book fills a research lacuna and offers a new prism for the study of media military relations in contemporary conflicts The book will be of much interest to students of civil military relations strategic studies Middle Eastern Studies media and communication studies sociology and IR in general [Research Anthology on Environmental and Societal Impacts of Climate Change](#) Management Association, Information Resources,2021-10-29 Climate change is an issue that has been generating a significant amount of discussion research and debate in recent years Climate change continues to evolve at a rapid rate and continues to have a wide array of effects on everything from temperature to plant life Beyond the negative environmental impacts climate change is also proving to be a detriment to society with increasingly violent natural disasters and human health effects It is essential to stay up to date on the latest in emerging research within this field as it continues to develop The Research Anthology on Environmental and Societal Impacts of Climate Change discusses the varied effects of climate change throughout all areas of life and provides a comprehensive dive into the latest research on key elements of society that are affected by the rapidly increasing climate change Covering a range of topics including reproduction plants and animals and energy demand it is ideal for environmentalists policymakers environmental engineers scientists disaster and crisis management personnel professionals government officials practitioners upper level students and academics interested in emerging research on the numerous impacts of climate change [Sustainable Peace in the Twenty-First Century](#) Dilip Vasudeo Kulkarni,2017-02-01 Why haven t we been successful in finding sustainable solutions is a question that this book attempts to address This book questions the appropriateness of current approaches to international conflict mediation peacebuilding and whether today s practitioners have the necessary patience passion and training to manage twenty first century conflicts This book also examines whether the current approaches to the mediation of

international conflict and peacebuilding as well as the education in these fields effectively consider the influence of the post Cold War environment and whether they address sub national conflicts caused by the continually increasing social inequality within societies among parties with different cultural religious racial ethnic and linguistic backgrounds The narratives of the lived experiences of this book s contributors are used to illustrate the challenges associated with achieving sustained global peace in the twenty first century Using the author s conversations with the contributors to the book as well as educators this book suggests that a universally adopted answer to the book s underlying question has not yet been established Therefore the objective of this book is to start a public conversation about reforming the current education and practices used in the mediation of international conflicts and peacebuilding The author hopes that these reforms will enable practitioners in integrating the message of the youth uprisings across the globe in finding sustainable resolutions to social inequality based conflicts within their societies and among countries across the globe As all of the citizens of the world continue to live in the midst of conflicts erupting across the globe this book brings to the surface the urgent and acute need for finding better approaches to address this century s social inequality based conflicts This book seeks to bring hope and to energize individuals with different cultural religious ethnic racial and linguistic backgrounds as well as individuals with different professional and personal lived experiences to collaboratively work together to achieve sustainable global peace The author hopes that this book will foster among students educators and practitioners a better understanding of international conflict mediators approaches for accommodating the inter relationship between culture and the mediation of international conflicts

Communication and Conflict Transformation through Local, Regional, and Global Engagement Peter M. Kellett,Thomas G. Matyók,2016-12-13 Central to a transformational approach to conflict is the idea that conflicts must be viewed as embedded within broader relational patterns and social and discursive structures and must be addressed as such This implies the need for systemic change at generative levels in order to create genuine transformation at the level of particular conflicts Central also to this book is the idea that the origins of transformation can be momentary or situational small scale or micro level as well as bigger and more systemic or macro level Micro level changes involve shifts and meaningful changes in communication and related patterns that are created in communication between people Such transformative changes can radiate out into more systemic levels and systemic transformative changes can radiate inwards

to more micro levels This book engages this transformative framework Within this framework this book pulls together current work that epitomizes and highlights the contribution of communication scholarship and communication centered approaches to conflict transformation in local community regional environmental and global conflicts in various parts of the world The resulting volume presents an engaging mix of scholarly chapters think pieces and experiences from the field of practice The book embraces a wide variety of theoretical and methodological approaches as well as transformative techniques and processes including narrative dialogic critical cultural linguistic conversation analytic discourse analytic and rhetorical This book makes a valuable contribution to the ongoing dialogue across and between disciplines and people on how to transform conflicts creatively sustainably and ethically
