Environmental Sociology Ed 2 John Hannigan,2006-04-18 This new edition of John Hannigan s well known and respected text has been thoroughly revised to reflect recent conceptual and empirical advances in environmental sociology and will prove to be a valuable student resource   Computational Social Science Dan Dobrota,Roshan Chitrakar,Maria Ciurea,Liliana Mâţă,Wei Luo,2022-07-01 The proceedings publish selected papers from the 2nd International Conference on New Computational Social Science focusing on the following five aspects Big data acquisition and analysis Integration of qualitative research and quantitative research Sociological Internet experiment research Application of ABM simulation method in Sociology Research Research and development of new social computing tools With the rapid development of information technology especially sweeping progress in the Internet of things cloud computing social networks social media and big data social computing as a data intensive science is an emerging field that leverages the capacity to collect and analyze data with an unprecedented breadth depth and scale It represents a new computing paradigm and an interdisciplinary field of research and application A broad comprehension of major topics involved in social computing is important for both scholars and practitioners This proceedings presents and discusses key concepts and analyzes the state of the art of the field The conference not only gave insights on social computing but also affords conduit for future research in the field Social computing has two distinct trends One is on the social science issues such as computational social science computational sociology social network analysis etc the other is on the use of computational techniques Finally some new challenges ahead are summarized including interdisciplinary cooperation and training big data sharing for scientific data mashups and privacy protect   People, Citizen, and User Guiquan Xu,2023-04-07 The book examines the changing discourses of Chinese audience research in the past four decades aiming to shed light on the complicated relationships among China s media audiences and society With the new sociology of knowledge it adopts Laclau and Mouffe s discourse theory as a meta theoretical framework and interprets the concept of audience as a floating signifier Based on the corpus of Chinese academic journal papers the author divides the scope of analysis into four phases In each period Chinese audience research was related closely to the changing societal and academic contexts and hegemonic struggle as a whole In addition it

discusses the relation between western audience theories and Chinese audience research as well as the contingency and rigidity of discourses in Chinese audience research The book contributes to the understanding of Chinese communication research in the changing societal context and will be valuable for scholars of media and communication studies or China studies   The Local and the Digital in Environmental Communication Joana Díaz-Pont,Pieter Maeseele,Annika Egan Sjölander,Maitreyee Mishra,Kerrie Foxwell-Norton,2020-05-05 This volume interrogates the intertwining of the local and the digital in environmental communication It starts by introducing a wave metaphor to tease out major shifts in the field and situates the intersections of local places and digital networks in the beginning of a third wave Investigations that feature the centrality of place and digital communication platforms show how we today as researchers and practitioners communicate the environment Contributions identify the need for critical approaches that engage with the wider consequences of this changing media landscape unpacking local and global tensions in environmental communication research This empirical case study collection from different parts of the world shows that environmental activists and citizens creatively use digital technologies for campaign purposes It identifies new environmental communication challenges and opportunities as well as practices of environmental activists NGOs citizens and local communities in the fight for social and environmental justice

Media Culture & Environ. Co-P Alison Anderson,2019-07-12 First Published in 1997 This book is intended for final year undergraduates and postgraduates in cultural and media studies as well as postgraduate and academic researchers Courses on culture and the media within sociology environmental studies human geography and politics   Landscape and the Environment in Hollywood Film Ellen E. Moore,2017-11-09 This book systematically explores how popular Hollywood film portrays environmental issues through various genres In so doing it reveals the influence exerted by media consolidation and the drive for profit on Hollywood s portrayal of the natural landscape which ultimately shapes how environmental problems and their solutions are presented to audiences Analysis is framed by a consideration of how cultural studies can make more theoretical and practical room for environmental concern thereby expanding its capacity for critical examination The book begins by introducing the theoretical underpinning of the research as it relates to cultural studies landscape and genre In the chapters that follow each genre is taken in turn starting with popular animated family films and progressing through spy thrillers eco thrillers science fiction Westerns superhero films and drama This book is ideal for students and scholars in a variety of disciplines including film environmental studies communication political economy and cultural studies   *Visual Environmental Communication* Anders Hansen,David Machin,2016-03-17 In 2008 the editors published a well cited journal paper arguing that while scholarly work on media representations of environmental issues had made substantial progress in textual analysis there had been much less work on visual representations This is surprising given the increasingly visual nature of media and communication and in light of emerging evidence that the environment is visualized through the use of increasingly symbolic and iconic images Addressing these matters this volume marks out the present state of the field and

contains chapters that represent fresh and exciting high quality scholarly work now emerging on visual environmental communication These include a range of fascinating and often alarming topics which draw on a variety of methods and forms of visual communication The book demonstrates that research needs to think much more widely about what we mean by the visual which plays a massive yet under researched role in the politics and ideology of public understanding and misunderstanding of and the environment and environmental problems The book is of relevance to students and researchers in media and communication studies cultural studies film and visual studies geography sociology politics and other disciplines with an interest in the politics of visual environmental communication This book was published as a special issue of Environmental Communication A Journal of Nature and Culture
