Media Democracy:

Democracy and the Media Richard Gunther, Anthony Mughan, 2000-08-28 This book presents a systematic overview and assessment of the impacts of politics on the media and of the media on politics in authoritarian transitional and democratic regimes in Russia Spain Hungary Chile Italy Great Britain Germany Japan the Netherlands and the United States Its analysis of the interactions between macro and micro level factors incorporates the disciplinary perspectives of political science mass communications sociology and social psychology These essays show that media s effects on politics are the product of often complex and contingent interactions among various causal factors including media technologies the structure of the media market the legal and regulatory framework the nature of basic political institutions and the characteristics of individual citizens The authors conclusions challenge a number of conventional wisdoms concerning the political roles and effects of the mass media on regime support and change on the political behavior of citizens and on the quality of democracy

Democracy Without Journalism? Victor W. Pickard, 2020 As local media institutions collapse and news deserts sprout up across the country the US is facing a profound journalism crisis Meanwhile continuous revelations about the role that major media outlets from Facebook to Fox News play in the spread of misinformation have exposed deep pathologies in American communication systems Despite these threats to democracy policy responses have been woefully inadequate In *Democracy Without Journalism* Victor Pickard argues that we re overlooking the core roots of the crisis By uncovering degradations caused by run amok commercialism he brings into focus the historical antecedents market failures and policy inaction that led to the implosion of commercial journalism and the proliferation of misinformation through both social media and mainstream news The problem isn t just the loss of journalism or irresponsibility of Facebook but the very structure upon which our profit driven media system is built The rise of a misinformation society is symptomatic of historical and endemic weaknesses in the American media system tracing back to the early commercialization of the press in the 1800s While professionalization was meant to resolve tensions between journalism s public service and profit imperatives Pickard argues that it merely camouflaged deeper structural maladies Journalism has always been in crisis The market never supported the levels of journalism especially local international policy and investigative reporting that a healthy democracy requires Today these long term defects have metastasized In this book Pickard presents a counter narrative that shows how the modern journalism crisis stems from media s historical over reliance on advertising revenue the ascendance of media monopolies and a lack of public oversight He draws attention to the perils of monopoly control over digital infrastructures and the rise of platform monopolies especially the Facebook problem He looks to experiments from the Progressive and New Deal Eras as well as public media models around the world to imagine a more reliable and democratic information system The book envisions what a new kind of journalism might look like emphasizing the need for a publicly owned and democratically governed media system Amid growing scrutiny of unaccountable monopoly control over media institutions and

concerns about the consequences to democracy now is an opportune moment to address fundamental flaws in US news and information systems and push for alternatives Ultimately the goal is to reinvent journalism

Media and Politics in New Democracies Jan Zielonka, 2015-10-08 This book analyses the relationship between the media and politics in new democracies in Europe and other parts of the world It does so from both theoretical and empirical angles How is power being mediated in new democracies Can media function independently in the unstable and polarised political environment experienced after the fall of autocracy Do major shifts in economic and ownership structures help or hinder the quality of the media How much can new media laws alter old journalistic habits and political cultures And how do new technologies impact the media and democracy The book examines these questions drawing on a vast set of data assembled by a large international project Media and Politics in New Democracies focuses chiefly on new democracies in Central and Eastern Europe but chapters analysing new democracies in Latin America Africa and Southeast Asia are also included These new democracies represent a variety of what sociologists call glocalism homogenisation and heterogenisation coexist revealing hybrid models and multiple modernities It is local culture that assigns meaning to global and regional influences Ideal liberal models and best practices are being promoted and aspired to but these models and practices are often being adopted in opaque ways generating results opposite to those intended The book finds many new democracies to be fragile if not deficient and tries to show what is really going on in these countries how they compare to each other and what they can learn from each other

Digital Destiny Jeff Chester, 2007 With the explosive growth of the Internet and broadband we now have the potential for a truly democratic media system offering a wide variety of independent sources of news and information with control over content in the hands of the many rather than a few select media giants But powerful communications companies have other plans the big cable TV and Internet providers are using their political clout to gain ever greater control over the Internet How does this new media system function What is at stake And what can we do to fight it

Media Advocacy Mr. Rohit Manglik, 2023-11-23 In this book we will study about how media can be used as a tool for advocacy driving social change policy influence and creating public awareness on critical issues

Media Ownership in Africa in the Digital Age Winston Mano, Loubna El Mkaouer, 2022-10-24 Who owns the media and communications in Africa today and with what implications The book elegantly answers this urgent question by unpacking multiple dimensions of media ownership through rare and authoritative perspectives including both historical and contemporary digital developments It traces the evolving forms of ownership of media and communications in specific African contexts showing how they interact with broader changes in and outside the continent The book also shows how Big Techs such as Meta formerly known as Facebook are involved in a scramble for Africa's digital ecosystem and how their advance brings both opportunities and concerns about ownership and control The chapters analyse evolving forms of ownership and their implications on media concentration and democracy across Africa The book offers a nuanced account of how media ownership structures are in

some instances captured with an ever growing and complex ecosystem that also has new opportunities for public interest media Offering a significant representation of the trends and diversity of existing media systems the book goes beyond the postcolonial geographical divisions of North and Sub Saharan Africa to highlight common patterns and significant similarities and differences of communications ownerships between and within African countries The contributors expose media and communications ownership patterns in Africa that are centralised and yet decentralising and in some cases battling resurging and globalising

Media/Democracy Alec Charles,2013-07-16 It is a view commonly acknowledged that the mass media have a crucial role to play in the development and maintenance of democracy It is a matter of greater controversy as to whether the media s influence upon democracy is as constructive as it might be This collection explores the various impacts upon democratic structures and processes of different media forms in different parts of the world It examines the very different influences of the press in democratic Nigeria and post Leveson Britain it looks at how social media are used by politicians voters and revolutionaries in the UK Poland and the Arab Region it investigates the political impact of media ownership in Britain Italy and Argentina and it asks whether we can ever hope to develop from being passive consumers of the mass media to active participants in modes of democratic citizenship underpinned by those media

Converging Media, Diverging Politics Mike Gasher,2005-01-01 What purpose does the news media serve in contemporary North American society In this collection of essays experts from both the United States and Canada investigate this question exploring the effects of media concentration in democratic systems Specifically the scholars collected here consider from a range of vantage points how corporate and technological convergence in the news industry in the United States and Canada impacts journalism s expressed role as a medium of democratic communication More generally and by necessity Converging Media Diverging Politics speaks to larger questions about the role that the production and circulation of news and information does can and should serve The editors have gathered an impressive array of critical essays featuring interesting and well documented case studies that will prove useful to both students and researchers of communications and media studies

Social Media and Democracy Nathaniel Persily,Joshua A. Tucker,Joshua Aaron Tucker,2020-09-03 A state of the art account of what we know and do not know about the effects of digital technology on democracy

Mass Media James B. Martin,2002 Mass media has become an integral part of the human experience News travels around the world in a split second affecting people in other countries in untold ways Although being on top of the news may be good at least for news junkies mass media also transmits values or the lack thereof condenses complex events and thoughts to simplified sound bites and often ignores the essence of an event or story The selective bibliography gathers the books and magazine literature over the previous ten years while providing access through author title and subject indexes

Media and Identity in Africa John Middleton,Kimani Njogu,2010-01-04 What is the role of the media in Africa How do they work How do they interact with global media How do they reflect and express local culture Incorporating both African and international

perspectives Media and Identity in Africa demonstrates how media outlets are used to perpetuate question or modify the unequal power relations between Africa and the rest of the world Discussions about the construction of old and new social entities which are defined by class gender ethnicity political and economic differences wealth poverty cultural behavior language and religion dominate these new assessments of communications media in Africa This volume addresses the tensions between the global and the local that have inspired creative control and use of traditional and modern forms of media

Mass Media and Political Communication in New Democracies Katrin Voltmer,2006 This book examines how political communication and the mass media have played a central role in the consolidation of emerging democracies around the world Covering a broad range of political and cultural contexts including Eastern and Southern Europe Latin America Asia and Africa this new volume investigates the problems and conflicts arising in the process of establishing an independent media and competitive politics in post autocratic societies Considering the changing dynamic in the relationship between political actors the media and their audience the authors of this volume address the following issues changing journalistic role perceptions and journalistic quality the reasons and consequences of persisting instrumentalization of the media by political actors the role of the media in election campaigns the way in which the citizens interpret political messages and the extent to which the media influence political attitudes and electoral behaviour the role of the Internet in building a democratic public sphere This book will be of great interest to all those studying and researching democracy and democratization comparative politics political communication journalism

media and the Internet **The Routledge Companion to Alternative and Community Media** Chris Atton, 2015-05-15

The Routledge Companion to Alternative and Community Media provides an authoritative and comprehensive examination of the diverse forms practices and philosophies of alternative and community media across the world The volume offers a multiplicity of perspectives to examine the reasons why alternative and community media arise how they develop in particular ways and in particular places and how they can enrich our understanding of the broader media landscape and its place in society The 50 chapters present a range of theoretical and methodological positions and arguments to demonstrate the dynamic challenging and innovative thinking around the subject locating media theory and practice within the broader concerns of democracy citizenship social exclusion race class and gender In addition to research from the UK the US Canada Europe and Australia the Companion also includes studies from Colombia Haiti India South Korea and Zimbabwe enabling international comparisons to be made and also allowing for the problematisation of traditional often Western approaches to media studies By considering media practices across a range of cultures and communities this collection is an ideal companion to the key issues and debates within alternative and community media **A Letter to the Press - Partisan**

Media, Propaganda, and Post-Truth Politics in the American Century Stephen Bates, 2020-10-27 The story behind the 1940s Commission on Freedom of the Press groundbreaking then timelier than ever now Bates skillfully blends biography and intellectual history to provide a sense of how the clash of ideas and the clash of personalities intersected Scott Stossel American Scholar A well constructed timely study clearly relevant to current debates Kirkus starred review In 1943 Time Inc editor in chief Henry R Luce sponsored the greatest collaboration of intellectuals in the twentieth century He and University of Chicago president Robert Maynard Hutchins summoned the theologian Reinhold Niebuhr the Pulitzer winning poet Archibald MacLeish and ten other preeminent thinkers to join the Commission on Freedom of the Press They spent three years wrestling with subjects that are as pertinent as ever partisan media and distorted news activists who silence rather than rebut their opponents conspiracy theories spread by shadowy groups and the survivability of American democracy in a post truth age The report that emerged A Free and Responsible Press is a classic but many of the commission s sharpest insights never made it into print Journalist and First Amendment scholar Stephen Bates reveals how these towering intellects debated some of the most vital questions of their time and reached conclusions urgently relevant today **New Media and**

Politics Barrie Axford, Richard Huggins, 2000-12-05 The book makes a successful attempt to map the potentially transformative effects of new media on various aspects of political institutions and culture both at a theoretical and empirical level Barrie Axford s discussion of the changing nature of political practice and technologies of political communication in relation to wider discourse of crisis is insightful and well argued This is a genuinely thought provoking and generally very well written book The book also works well by providing a potential basis for theoretically informed future research in the field of political communication Political Theory Exploring the theme of the putative transformation of

political modernity under the impact of new media this book adopts a questioning approach to the ways in which cultural and technological factors are affecting the temper of political life and reflects the variety of normative thinking about and empirical research on the changing character of politics in mediatized cultures New Media and Politics examines the extent to which commercial populism now dominates electoral and other political discourses the ways in which the functions of leadership government and political parties are modified by different forms of both old and new media the democratic or undemocratic import of such changes and the ways in which the dominant territorial paradigm of politics is challenged by the space and time devouring capacities of electronic media *The Media in Transitional Democracies* Katrin

Voltmer,2013-07-10 The last quarter of a century has seen an unprecedented wave of democratization around the globe In these transitions from authoritarian rule to a more democratic order the media have played a key role both by facilitating but frequently also inhibiting democratic practices to take root This book provides an accessible and systematic introduction to the media in transitional democracies It analyses the problems that occur when transforming the media into independent institutions that are able to inform citizens and hold governments to account The book covers the following topics normative conceptions of media and democracy the role of the past in the transition process the internet as a new space for democratic change the persistence of political interference in emerging democracies the interlocking power of media markets and political ownership the challenges to journalistic professionalism in post authoritarian contexts the role of the media in divided societies The book takes a global view by exploring the interplay of political and media transitions in different pathways of democratization that have taken place in Eastern Europe Latin America Africa and Asia It will be of interest to advanced students and scholars who want a better understanding of the media outside established Western democracies The book will also be of great value to policymakers and activists who are involved in strengthening the media in transitional democracies **Media Reforms and Democratization in Emerging Democracies of Sub-Saharan Africa** Ufuoma

Akpojivi,2018-04-03 This book examines the media reform processes and re democratization projects of Ghana and Nigeria s emerging democracies It evaluates and critiques these reform processes arguing that because of dependency approaches resulting from the transplanting of policy framework from the West into these emerging democracies the policy goals and objectives of the reforms have not been achieved Consequently the inherent socio cultural economic and political factors coupled with the historical antecedents of these countries have also affected the reform process Drawing from policy documents analyses and interviews Ufuoma Akpojivi argues that the lack of citizens active participation in policy processes has led to neo liberalization and the continued universalization of Western ideologies such as democracy media freedom and independence Akpojivi posits that the recognition of socio cultural political and economic factors inherent to these emerging democracies coupled with the communal participation of citizens will facilitate true media reform processes and development of these countries **Media and Political Engagement** Peter Dahlgren,2009-02-23 This book examines the media s role in

shaping civic engagement and enhancing political engagement
