New Confucianism A Critical Examination:

New Confucianism: A Critical Examination J. Makeham, 2003-02-21 This collection of essays explores the development of the New Confucianism movement during the twentieth century and questions whether it is in fact a distinctly new intellectual movement or one that has been mostly retrospectively created The questions that contributors to this book seek to answer about this neo conservative philosophical movement include What has been the cross fertilization between Chinese scholars in China and overseas made possible by the shared discourse of Confucianism To what extent does this discourse transcend geographical political cultural and ideological divides Why do so many Chinese intellectuals equate Confucianism with Chinese cultural identity and Does the Confucian revival of the 1990s in China and Taiwan represent a genuine philosophical renaissance or a resurgence in interest based on political and cultural factors *New Confucianism: A Critical Examination* J. Makeham, 2003-03-27 This collection of essays explores the development of the New Confucianism movement during the twentieth century and questions whether it is in fact a distinctly new intellectual movement or one that has been mostly retrospectively created The questions that contributors to this book seek to answer about this neo conservative philosophical movement include What has been the cross fertilization between Chinese scholars in China and overseas made possible by the shared discourse of Confucianism To what extent does this discourse transcend geographical political cultural and ideological divides Why do so many Chinese intellectuals equate Confucianism with Chinese cultural identity and Does the Confucian revival of the 1990s in China and Taiwan represent a genuine philosophical renaissance or a resurgence in interest based on political and cultural factors *New Confucianism in Twenty-First Century China* Jesús Solé-Farràs, 2013-11-20 This book explores how Confucian thought which was the ideological underpinning of traditional imperial China is being developed and refined into a New Confucianism relevant for the twenty first century It traces the development of Confucian thought examines significant new texts and shows how New Confucianism relates to various spheres of life how it informs views on key philosophical issues and how it affects personal conduct Starting by exploring the philosophical and ideological principles of New Confucianism the book goes on to explain how New Confucianism is a collective process of continuous creation and recreation an incessant and evolving discourse It argues that New Confucianism unlike its earlier manifestation is more accommodating of a plurality of ideologies in the world and that understanding Confucianism and how it is developing is essential for understanding contemporary China *Rediscovering Confucianism* Torbjörn Lodén, 2021-10-01 This book provides an outline and an appraisal of Confucianism as a system of ideas and beliefs that evolved during the past 3 millennia and continue to do so Its roots are traced back to pre Confucian times followed by a detailed examination of some 40 Confucian thinkers It also describes the social context of evolution of Confucian thought **The Intellectual Foundations of Chinese Modernity** Edmund S. K. Fung, 2010-03-22 In the early twentieth century China was on the brink of change Different ideologies those of radicalism conservatism liberalism and

social democracy were much debated in political and intellectual circles Whereas previous works have analyzed these trends in isolation Edmund S K Fung shows how they related to one another and how intellectuals in China engaged according to their cultural and political persuasions The author argues that it is this interrelatedness and interplay between different schools of thought that are central to the understanding of Chinese modernity for many of the debates that began in the Republican era still resonate in China today The book charts the development of these ideologies and explores the work and influence of the intellectuals who were associated with them In its challenge to previous scholarship and the breadth of its approach the book makes a major contribution to the study of Chinese political philosophy and intellectual history

Contemporary Confucian Political Philosophy Stephen C. Angle, 2013-04-17 Confucian political philosophy has recently emerged as a vibrant area of thought both in China and around the globe This book provides an accessible introduction to the main perspectives and topics being debated today and shows why Progressive Confucianism is a particularly promising approach Students of political theory or contemporary politics will learn that far from being confined to a museum contemporary Confucianism is both responding to current challenges and offering insights from which we can all learn The Progressive Confucianism defended here takes key ideas of the twentieth century Confucian philosopher Mou Zongsan 1909-1995 as its point of departure for exploring issues like political authority and legitimacy the rule of law human rights civility and social justice The result is anti authoritarian without abandoning the ideas of virtue and harmony it preserves the key values Confucians find in ritual and hierarchy without giving in to oppression or domination A central goal of the book is to present Progressive Confucianism in such a way as to make its insights manifest to non Confucians be they philosophers or simply citizens interested in the potential contributions of Chinese thinking to our emerging shared world **Confucianism** Paul Goldin, 2014-12-05 Confucianism presents the history and salient tenets of Confucian thought and discusses its viability from both a social and a philosophical point of view in the modern world Despite most of the major Confucian texts having been translated into English there remains a surprising lack of straightforward textbooks on Confucian philosophy in any Western language Those that do exist are often oriented from the point of view of Western philosophy or worse a peculiar school of thought within Western philosophy and advance correspondingly skewed interpretations of Confucianism This book seeks to rectify this situation It guides readers through the philosophies of the three major classical Confucians Confucius 551-479 BCE Mencius 372-289 BCE and Xunzi fl 3rd cent BCE and concludes with an overview of later Confucian revivals and the standing of Confucianism today Historical Dictionary of Confucianism Ronnie L. Littlejohn, 2023-11-03 Historical Dictionary of Confucianism is devoted exclusively to Confucianism the great Chinese tradition that has gathered around the teachings of Confucius Kongzi for more than 2 500 years Confucianism encompasses a broad array of moral social philosophical and religious ideas values and practices It is an ancient and immense tradition of great subtlety and complexity This work provides ready access to terms personalities movements and texts of the tradition as it has made its trek

throughout East Asia especially Korea and Japan This book contains a chronology introduction and extensive bibliography The dictionary section has more than 700 cross referenced entries on terms personalities movements and texts of the tradition Historical Dictionary of Confucianism is an excellent resource for students researchers and anyone wanting to know more about Confucianism **Thomé H. Fang, Tang Junyi and Huayan Thought** King Pong Chiu,2016-06-27 In Thom H Fang Tang Junyi and Huayan Thought King Pong Chiu discusses Thom H Fang and Tang Junyi two of the most important Confucian thinkers in twentieth century China who appropriated aspects of the medieval Chinese Buddhist school of Huayan to develop a response to the challenges of scientism the belief that quantitative natural science is the only valuable part of human learning and the only source of truth As Chiu argues Fang s and Tang s selective appropriations of Huayan thought paid heed to the hermeneutical importance of studying ancient texts in order to be more responsive to modern issues and helped confirm the values of Confucianism under the challenge of scientism a topic widely ignored in academia **Dong Zhongshu, a 'Confucian' Heritage and the Chunqiu Fanlu** Michael Loewe,2011-04-11 The assumption that a system described as Confucianism formulated by Dong Zhongshu became accepted as the norm during the Western Han dynasty 202 BCE 9 CE is challenged and his supposed authorship of the Chunqiu fanlu examined
