Roger Chapman

New Deal For Social Security:

A New Deal for Social Security Peter Ferrara, Michael Tanner, 1998 This book examines the history of Social Security and predicts that the system will face bankruptcy within the next few years Social Security Bulletin, 2007 *Proposals Certified to Save Social Security* United States. Congress. House. Committee on Ways and Means, 2000 **Culture Wars** Roger Chapman, 2010 Although openness and inclusion are cornerstones of life in the United States intolerance and reactionary politics are also very real As the nation prepares to elect a new president The Culture Wars addresses the key defining issues of contemporar **Understanding The American Promise, Volume 2: From 1865** James L. Roark, Michael P. Johnson, Patricia Cline Cohen, Sarah Stage, Alan Lawson, Susan M. Hartmann, 2011-02-15 In response to the ever changing challenges of teaching the survey course Understanding the American Promise combines a newly abridged narrative with an innovative chapter architecture to focus students attention on what s truly significant Each chapter is fully designed to guide students comprehension and foster their development of historical skills Brief and affordable but still balanced in its coverage this new textbook combines distinctive study aids a bold new design and lively art to give your students a clear pathway to what s important **Social Security** John Attarian, 2017-07-05 One of today s most important national concerns is the projected bankruptcy of Social Security some time in the next few decades and its consequent inability to pay full benefits on time Yet despite two decades of warnings about this nothing is being done The saying that Social Security is the third rail of American politics touch it and you die still holds true In Social Security False Consciousness and Crisis John Attarian argues that the major cause of the current impasse is the misleading manner in which the program has been depicted to the public and the beliefs about Social Security which prevail as a result Social Issues in America James Ciment, 2015-03-04 More than 150 key social issues confronting the United States today are covered in this eight volume set from abortion and adoption to capital punishment and corporate crime from obesity and organized crime to sweatshops and xenophobia For All These Rights Jennifer Klein, 2010-01-02 The New Deal placed security at the center of American political and economic life by establishing an explicit partnership between the state economy and citizens In America unlike anywhere else in the world most people depend overwhelmingly on private health insurance and employee benefits The astounding rise of this phenomenon from before World War II however has been largely overlooked In this powerful history of the American reliance on employment based benefits Jennifer Klein examines the interwoven politics of social provision and labor relations from the 1910s to the 1960s Through a narrative that connects the commercial life insurance industry the politics of Social Security organized labor s quest for economic security and the evolution of modern health insurance she shows how the firm centered welfare system emerged Moreover the imperatives of industrial relations Klein argues shaped public and private social security Looking closely at unions and communities Klein uncovers the wide range of alternative community based health plans that had begun to germinate in the 1930s and 1940s but that eventually

succumbed to commercial health insurance and pensions She also illuminates the contests to define security job security health security and old age security following World War II For All These Rights traces the fate of the New Deal emphasis on social entitlement as the private sector competed with and emulated Roosevelt s Social Security program Through the story of struggles over health security and old age security social rights and the welfare state it traces the fate of New Deal liberalism as a set of ideas about the state security and labor rights in the 1950s the 1960s and beyond *Encyclopedia of Politics* Rodney P. Carlisle,2005-03-17 With the Left and Right amusingly placed into left hand v 1 and right hand v 2 volumes respectively this encyclopedia contains articles on the people ideas events laws and issues associated with left and right politics in language that will be accessible to the high school and undergraduate student as well as the general reader Each entry includes cross references and a bibliography Among the topics for politics of the left are Susan B Anthony Jean Jacques Rousseau abolitionism desegregation ACLU the New Deal Solidarity and the Workingmen s Party Entries are included in each volume for 40 countries and regions giving the history and current affairs for politics in each Among the topics for the right are capitalism Darwinism censorship martial law and the Christian Coalition The contributors teach at universities worldwide some are independent scholars Carlisle is at Rutgers U Annotation 2004 Book News Inc Portland OR booknews com Princeton Alumni Weekly ,1976
