Roots and New Frontiers in Social Group Work Marcos Leiderman,Martin L. Birnbaum,Barbara Dazzo,1988 This exciting book captures the rich heritage of social group work and links the origin of social group work to its present and future frontiers The first 100 years of social group work are celebrated in this volume as social workers address a wide range and diversity of group work practice theory research and education with information on health and mental health institutions substance abuse programs rehabilitation centers the correctional system family service agencies nursing homes and other specialized areas including industry child and spouse abuse and incest Roots and New Frontiers in Social Group Work consists of selected proceedings from the Seventh Consecutive Symposium of the Committee for the Advancement of Social Work With Groups sponsored by Rutgers University School of Social Work What Would You Do?, Leader's Guide Lorraine L. Ukens,2007-12-19 The What Would You Do game contains eight decision making scenarios For each scenario players have to decide whether to take a collaborative or competitive road scoring points for each of several rounds Points are based on

how an individual's choice compares with those of the other players in the group. At the end of the game, players compare their decisions with the other players. The first scenario mirrors the original Prisoner's Dilemma: two prisoners are captured and brought in for questioning. Each has to decide whether to collaborate, which results in a lighter sentence, or save their own skin, which results in no punishment for one prisoner and a heavy sentence for the other. Each of the next seven scenarios introduces additional problems that turn up the heat and force the participants to make increasingly difficult ethical decisions.
