New European Orders 1919 And 1991 Woodrow Wilson Center Special Studies:

New European Orders, 1919 and 1991 Samuel F. Wells, Paula Bailey Smith, 1996 This text examines the effects on US Europe relations brought about by the end of the Cold War and the changes in political relations between European states The current situation is compared and contrasted with the creation of a new Europe in 1919 in the belief that many of the issues are similar and even that many of the post Cold War issues have their origins in World War I and its peace settlement Topics covered include alterations in international systems public opinion and propaganda minority rights economic transitions lessons from the break up of Yugoslavia and collective security Annual Report Woodrow Wilson International Center for Scholars, 1993 *Global Rules* James E. Cronin, 2014-10-28 Questions long perceived views of post World War II America and its position in the world especially after Vietnam The author details the challenges the economic transition of the 1970s and 1980s engendered as the US and Great Britain together actively pursued their shared ideal of an international assemblage of market based democratic states NATO (Not for Individual Sale) G. Schmidt, 2019-06-12 NATO The First 50 Years offers the first comprehensive study of the institution s activities and development over the past five decades Written by a team of international scholars it analyses the factors which have made NATO the most successful politico military alliance in history It also addresses the perennial problems of transatlantic relationships the problems that the Alliance grapples with today A wide ranging and masterful survey NATO The First 50 Years will be a useful reference work for researchers as well as an accessible guide for students *The Transatlantic Relationship : Problems and Prospects* Sabina A. Subcommittee on Department of the Interior and Related Agencies, 1996

Multicultural Odysseys Will Kymlicka, 2009-02-05 We are currently witnessing the global diffusion of multiculturalism both as a political discourse and as a set of international legal norms States today are under increasing international scrutiny regarding their treatment of ethnocultural groups and are expected to meet evolving international standards regarding the rights of indigenous peoples national minorities and immigrants This phenomenon represents a veritable revolution in international relations yet has received little public or scholarly attention In this book Kymlicka examines the factors underlying this change and the challenges it raises Against those critics who argue that multiculturalism is a threat to universal human rights Kymlicka shows that the sort of multiculturalism that is being globalized is inspired and constrained by the human rights revolution and embedded in a framework of liberal democratic values However the formulation and implementation of these international norms has generated a number of dilemmas The policies adopted by international organizations to deal with ethnic diversity are driven by conflicting impulses Pessimism about the destabilizing consequences of ethnic politics alternates with optimism about the prospects for a peaceful and democratic form of multicultural politics The result is often an unstable mix of paralyzing fear and na ve hope rooted in conflicting imperatives of security and justice

Moreover given the enormous differences in the characteristics of minorities eg their size territorial concentration cultural markers historic relationship to the state it is difficult to formulate standards that apply to all groups Yet attempts to formulate more targeted norms that apply only to specific categories of minorities eg indigenous peoples or national minorities have proven controversial and unstable Kymlicka examines these dilemmas as they have played out in both the theory and practice of international minority rights protection including recent developments regarding the rights of national minorities in Europe the rights of indigenous peoples in the Americas as well as emerging debates on multiculturalism in Asia and Africa

Towards Global Justice: Sovereignty in an Interdependent World Simona Țuțuianu, 2012-10-28 With Forewords by Geoffrey Robertson QC Doughty Street Chambers London UK and Professor Mihail E Ionescu Bucharest Romania Simona Țuțuianu describes a new model of sovereignty which is fast replacing the traditional Westphalian model embodied in Article 2 of the UN Charter and rigorously followed throughout the Cold War The scholarly basis for this new model draws upon developments in international criminal law which first emerged from the Nuremberg trials and upon more recent interstate economic cooperation which has turned sovereign independence into interdependence across a range of state functions Does this mean that traditional Westphalian concepts of sovereignty should be abandoned in constructing a new theory of world governance for the twenty first century Not at all A new model which can be called the pattern of interdependence based sovereignty serves to explain contemporary events that puzzle traditional theorists such as the war over Kosovo the invasions of Iraq and Libya the emergence of a Responsibility to protect doctrine and its recent validation in Security Council Resolutions 1970 and 1973 We are witnessing the emergence of a new philosophy of action which is in the process of producing a 21st century system of international relations The Book will appeal to academics students and postgraduates studying international affairs politics international law diplomatic history or war and or peace studies It is particularly of interest for NATO establishments and national military schools while experts and scholars will value its theory of what sovereignty means today The Book offers a multidisciplinary approach which underpins a new theory of how human rights can be better protected in a better world There is a unique case study of cooperative security in the Greater Black Sea Area by one of the few experts on the politics of this region It will be read and appreciated by those who need to understand how modern international law and diplomacy really work Journalists media commentators human rights NGOs aid agencies diplomats and government officials need the information in this Book
