New Instruments For Environmental Policy

Jonathan Golub

New Instruments For Environmental Policy:

New Instruments for Environmental Policy in the EU Jonathan Golub, 1998-06-04 New Instruments for Environmental Policy in the EU provides a comprehensive analysis of the debate over new forms of environmental regulation in the European Union. The conclusions draw attention to critical aspects of instrument design as well as the difficulty of accommodating national policy diversity without contravening EU and international law. Environmental Policy in Search of New Instruments B. Dente, 2013-03-09 Environmental policy is undergoing a dramatic transformation. The problems connected with global change, the need for preventative action and the growing importance of non-source pollution call for new courses of action and new institutional arrangements. In this situation, it is fairly obvious that both the traditional command and control policy instruments and the more modern financial and economic instruments are increasingly under stress. This volume deliberately aims to break new ground in providing the conceptual tools necessary for the next generation of environmental policies. In doing so, it covers a wide interdisciplinary range from public policy analysis to international law and draws upon much international experience well reflected by the mixed composition of the contributors. On the basis of a shared theoretical framework, the book explores the potential of new policy instruments such as policy evaluation or mediation, proposes alternative institutional arrangements for dealing with the issues, classifies existing instruments and illuminates the process through which old and new tools can be set into operation. **New Instruments of Environmental Governance?** Andrew Jordan, Rüdiger Wurzel, Anthony R. Zito, 2003 These papers offer a fresh perspective on the evolving tool box of environmental policy such as eco taxes, tradable permits, voluntary agreements and eco labels. New Instruments of Environmental Governance? Andrew Jordan, Rüdiger K.W. Wurzel, Anthony R. Zito, 2004-11-23 The use of so-called new environmental policy instruments such as eco taxes, tradable permits, voluntary agreements and eco labels has prompted widespread claims that these devices have replaced regulation. These papers offer a fresh perspective on the evolving tool box of environmental policy. **New Instruments for Environmental Policy in the EU.** Jan Willem Biekart, 1998 **Market-Based Instruments for Environmental Management** Mikael Skou Andersen, Rolf-Ulrich Sprenger, 2000-01-01 This volume brings together contributions from political scientists and environmental economists and will prove invaluable for academics, practitioners and policymakers interested in the experiences of countries where market-based instruments are well established. **BOOK JACKET** Global Competition and EU Environmental Policy Jonathan Golub, 1998-03-19 Global Competition and EU Environmental Policy is the first book to examine the relationship between economic competitiveness and environmental protection in European Union policy. A wide range of international case studies addresses key agreements and policies, including those dealing with ozone layer protection, pesticide exports, shipping, climate. New Environmental Policy Instruments in the European Union Ian Bailey, 2017-07-05 The use of legislation by EU governments to define environmental standards for industry has been criticised for its poor track record in arresting the

decline in the quality of Europe's environment Environmental economists in particular have proposed that legislation should be supplemented or replaced by New Environmental Policy Instruments NEPIs such as eco taxes environmental charges tradable permits and voluntary agreements This book focuses on practical experiences with NEPIs in the EU and tests their application using the case study of the Packaging and Packaging Waste Directive It traces the ways in which member states have adapted NEPIs to suit their preferred styles of environmental policy then assesses their performance and how NEPIs have both assisted and hindered the EU environmental programme It suggests options for ensuring that the environmental programme does not become fragmented by the use of NEPIs and discusses the implications of EU enlargement

Instrument Mixes for Environmental Policy OECD, 2007-05-31 Presents case studies analysing instrument mixes applied in OECD countries to address household waste non point sources of water pollution in agriculture residential energy efficiency regional air pollution and emissions to air of mercury
