Community Resilience to Sectarian Violence in Baghdad Ami C. Carpenter, 2013-10-04 The recent conflict in Iraq evolved from an insurgency against the interim U S led government the Coalition Provisional Authority or CPA into a sectarian civil war Violence became widespread especially in areas of Baghdad City such as Sadr City Al Amiriyah and Al Adhamiya However a number of multiethnic neighborhoods in Baghdad successfully prevented sectarian attitudes and behaviors from taking hold Four communities stand out in their self organization to prevent the escalation of violence This book looks at what makes these communities different from other areas within Baghdad In depth interviews in Sunni dominant Shia dominant and Mixed neighborhoods generated a few key insights about conflict resilience or the capacity to prevent structural changes associated with conflict escalation Key factors turned out to be the organization of non sectarian self defense groups place attachment collective efficacy active intervention to de escalate tensions and also the presence of local religious leaders who forbid sectarian attacks The continuity or strength of interpersonal relationships supported by the integrated physical structure of these neighborhoods and internal versus tribal conflict resolution mechanisms played a role as well This volume examines the characteristics of the communities that have successfully prevented the rise of violence and how they are able to maintain qualities of resilience to violent conflict

Rebuilding War-Torn States Graciana del Castillo, 2008-09-25 Post conflict economic reconstruction is a critical part of the political economy of peacetime and one of the most important challenges in any peace building or state building strategy After wars end countries must negotiate a multi pronged transition to peace Violence must give way to public security lawlessness political exclusion and violation of human rights must give way to the rule of law and participatory government ethnic religious ideological or class caste confrontation must give way to national reconciliation and ravaged and mismanaged war economies must be reconstructed and transformed into functioning market economies that enable people to earn a decent living Yet how can these vitally important tasks each be successfully managed How should we go about rehabilitating basic services and physical and human infrastructure Which policies and institutions are necessary to reactivate the economy in the short run and ensure sustainable development in the long run What steps should countries take to bring about national reconciliation and the consolidation of peace In all of these

cases unless the political objectives of peacetime prevail at all times peace will be ephemeral while policies that pursue purely economic objectives can have tragic consequences This book argues that any strategy for post conflict economic reconstruction must be based on five premises and examines specific post conflict reconstruction experiences to identify not only where these premises have been disregarded but also where policies have worked and the specific conditions that have influenced their success and failure

[How to Make Peace in the Middle East in Six Months or Less](#) Gregory Levey,2010-09-07 Gregory Levey s modest goal is to solve the Middle East conflict all by himself After returning to North America following a stint in his midtwenties writing speeches for the Israeli government first at the United Nations and then for the prime minister in Jerusalem he thinks he is leaving the madness of the Middle East conflict behind But nothing could be further from the truth Levey soon discovers that everyone on this side of the Atlantic seems to think that they have the solution to the intractable conflict and they all feel the need to tell him about it Fatigued by the endless debate the constant hostility and the cacophony of shrill voices he decides that the only way he is going to escape it all is if he solves the conflict himself once and for all So Levey sets out on a hilarious quixotic and surprisingly illuminating quest to broker a peace deal where a long line of world leaders have failed Interacting with White House officials DC lobbyists congressmen advisors to presidential candidates high profile journalists secretive fundraisers former Israeli spies now living in North America and hundreds and hundreds of Jewish grandmothers Levey tries to understand why the Middle East situation refuses to be resolved and why so many people who live a world away are so obsessed with it He combs through theories ranging from the

eminently reasonable to the completely insane engages in virtual peacemaking simulations investigates an online suicide bombing spends time with a former advisor to Yasser Arafat undergoes training with a half baked Jewish paramilitary group goes undercover as an Evangelical Christian and somehow ends up at a real life castle owned by an eccentric cape wearing crusader for peace In *How to Make Peace in the Middle East in Six Months or Less Without Leaving Your Apartment* Levey brings his trademark brand of street smart levity to a situation that many see as hopeless and thereby reveals the very human and sometimes very silly side of a brutal decades old geopolitical conflict Along the way he meets a cast of characters that would be outright funny if the situation weren't so dire The result is a fast paced humorous and insightful romp through U S policymaking in the Middle East
