**New Directions in Philosophical Theology** Gavin Hyman, 2018-01-18 At the beginning of a new millennium philosophical theology has become more contested than ever before The appearance of non realist theologies postmodern theologies and the theology of radical orthodoxy has provoked a vibrant debate about the nature of theology itself In what new directions should theology be moving in the wake of the end of modernity For over thirty years Don Cupitt has been provoking theologians to reconsider the nature of their discipline Taking their inspiration from his work and writing in his honour on the occasion of his 70th birthday some of the leading figures in the contemporary theological scene address urgent questions facing theology today and in doing so exemplify the methodological diversity which characterises the contemporary field

*New Directions in Philosophical Theology* Gavin Hyman, 2017 At the beginning of a new millennium philosophical theology has become more contested than ever before The appearance of non realist theologies postmodern theologies and the theology of radical orthodoxy has provoked a vibrant debate about the nature of theology itself In what new directions should theology be moving in the wake of the end of modernity For over thirty years Don Cupitt has been provoking theologians to reconsider the nature of their discipline Taking their inspiration from his work and writing in his honour on the occasion of his 70th birthday some of the leading figures in the contemporary theological scene address urgent questions facing theology today and in doing so exemplify the methodological diversity which characterises the contemporary field

Provided by publisher     **A Short History of Atheism** Gavin Hyman, 2010-09-30 The last few years have seen a remarkable surge of popular interest in the topic of atheism Books about atheism by writers like Richard Dawkins and Christopher Hitchens have figured prominently in bestseller lists and have attracted widespread discussion in the media The ubiquity of public debates about atheism especially in conscious opposition to the perceived social threat posed by faith and religion has been startling However as Gavin Hyman points out despite their prevalence and popularity what often characterises these debates is a lack of nuance and sophistication They can be shrill ignorant of the historical complexity of debates about belief and tend to lapse into caricature What is needed is a clear and well informed presentation of how atheistic ideas originated and developed in order to illuminate their contemporary relevance and application That task is what the author undertakes here Exploring the rise of atheism as an explicit philosophical position notably in the work of Denis Diderot Hyman traces its development in the later ideas of Descartes Locke and Berkeley Drawing also on the work of contemporary scholars like Amos Funkenstein and Michael J Buckley the author shows that since in recent theology the concept of God which atheists negate is changing the triumph of its advocates may not be quite as unequivocal as Hitchens and Dawkins would have us believe

**Broken Hallelujah** Darren J. N. Middleton, 2007-01-01 Marking the fiftieth anniversary of Kazantzakis s death author Darren J N Middleton looks back on Kazantzakis s life and literary art to suggest that contrary to popular belief Kazantzakis and his views actually comport with the ideals of Christianity     *A Philosophical Theology of the Old Testament*

Jaco Gericke,2020-01-08 Are we able to identify and compare the philosophical perspectives and questions that must be postulated as having been somehow present in the language ideas and worldviews of the Biblical authors This book sets out an approach to something that has been generally considered impossible a philosophical theology of the Old Testament It demonstrates and addresses the neglect of a descriptive and comparative philosophical clarification of concepts in Old Testament theology and in so doing treads new ground in Biblical studies and philosophical theology Recognizing the obvious problems with and objections to any form of interdisciplinary research combining philosophical and Biblical theology this study presents itself as introductory and experimental in nature The methodology opted for is limited to a philosophical clarification of concepts already found in Old Testament theology while the findings are presented via the popular thematic approach found in analytic philosophical theologies with no attempted justification or critique of the textual contents under investigation These approaches are combined by primarily looking at the nature of Yahweh in the Old Testament This book offers a new vision of Biblical and philosophical theology that brings them closer together in order that we might understand both more broadly and deeply As such it will be vital reading for scholars of Theology Biblical Studies and Philosophy

*Henry Longueville Mansel* Francesca Norman,2023-09-25 Henry Longueville Mansel 1820 1871 Anglican theologian and philosopher has wrongly been remembered as a Kantian agnostic whose ideas led to those of Herbert Spencer Francesca Norman s book provides a thorough revisioning of Mansel s theology in context and reveals the personal basis of Spencer s animus towards Mansel Mansel is revealed as an orthodox Anglican theistic personalist whose ideas inspired Newman to write his Grammar of Assent Located in context Mansel s personal connections with leading Tory figures such as Lord Carnarvon and Benjamin Disraeli are explored Key controversies with Frederick Denison Maurice and John Stuart Mill are interpreted with reference to the party political elections of 1859 and 1865 Norman offers a vital vision of nineteenth century theology philosophy and politics

Secularization in Contemporary Religious Radicalism Corneliu Simut,2019-05-21 The concept of secularization has grown to become one of the most important features of contemporary religious thought This book introduces and examines the thinking of sixteen key theologians philosophers and historians of religion to explain a why by the late nineteenth century the traditional concept of God as an ontologically real being came to be considered no longer necessary and b how the new perspective on God which accepts him only as an idea turned into the preferred approach of today s religion and philosophy namely religious radicalism

**Transcending Fictionalism** Jessica Eastwood,2024-05-16 Exploring alternative conceptions of the divine Jessica Eastwood considers the ways of believing in God that are authentic and sincere moving beyond traditional metaphysical structures that many find difficult to accept In this study she examines a unique branch of religious non realism known as religious fictionalism making the case for its ability to resonate on an intellectual and emotional level Considering the extent to which fictionalism allows us to make sense of the role of religion in our spiritual lives she presents its limitations on adhering to what might be an attractive contemporary model for philosophy

of religion called the humane turn Articulating an alternative conception of God that we can relate to in an intellectual emotional and spiritual way Eastwood sheds light on a minimalist form of religious realism which preserves the reality of God without committing the theist to a host of additional religious beliefs      Technology and the Philosophy of Religion David Lewin,2010-09-13 The last one hundred years has seen unimaginable technological progress transforming every aspect of human life Yet we seem unable to shake a profound unease with the direction of modern technology and its ideological siblings global capitalism and massive consumption Philosophers such as Marcuse Borgmann and especially Heidegger have developed important analyses of technological society however in this book David Lewin argues that their ideas have remained limited either by their secular context or by the narrow conception of religion that they do allow This study guides the reader along the newly formed paths of the philosophy of technology arguing that where those paths come to an abrupt end a religious discourse is needed to articulate the ultimate concerns that drive technological action It calls for a meditation on the central insight of many religious traditions that in an ultimate sense we know not what we do To acknowledge that we know not what we do is the first step towards a theology of technology that draws upon insights from the mystical theological tradition as well as from recent developments in the continental philosophy of religion      *From Aberdeen to Oxford* Fergus Kerr,2023-10-30 Academic theologians when they write normally decide for themselves what to discuss Admittedly these days they may work under pressure to ensure tenure to advance their prospects or to secure funding for a departmental project Mostly however they work sometimes for years on the books which consolidate the vision of theology that has energised their teaching Sometimes of course the contingencies of being invited to review a book or take part in a conference lead to what for medieval theologians were quodlibets responses to whatever topics raised by members of the class during open ended discussions sometimes unexpected even random treated suggestively rather than fully worked out This volume is a miscellany of just such papers a wide ranging collection of papers from books and journals with a strong philosophical leaning
