New Forms Of Employment And Household Survival Strategies In Russia:

New Forms of Employment and Household Survival Strategies in Russia Simon Clarke, 1999 Work, Employment and Transition Al Rainnie, Adrian Smith, Adam Swain, 2005-07-28 Since the late 1980s the experiences of work and employment in the former communist world have been profoundly transformed Work Employment and Transition brings together a series of essays by leading international scholars which highlights the varied and complex forms that work and employment restructuring are taking in the post soviet world and makes important theoretical contributions to our understanding of these transformations Adapting to Russia's New Labour Market Sarah Ashwin, 2004-08-02 Economic reform in post Soviet

Russia created not only a devastating decline in living standards but also widespread insecurity and uncertainty This book is the first to analyse the situation from a gendered perspective shedding new light on the way in which Russians are coping with the transformation of the labour market The book examines gender differences in responses to economic reform and considers the implications of these for the labour market outcomes and wider well being of men and women during transition Based on original research carried out by an experienced team of sociologists the book analyses the journeys of 240 men and women through the turbulent Russian labour market of 1999 2001 It includes chapters on the way gender norms inherited from the Soviet era have influenced responses to transition sex segregation and discrimination in the labour market gender differences in work orientations and behaviour who benefits from networks which life events are most likely to initiate downward economic trajectories **Gender, State and Society in Soviet and Post-Soviet Russia** Sarah

Ashwin, 2012-10-12 One of the few English language studies to focus on the male experiences this book addresses the important questions raised by the rise and fall of the Soviet experiment in transforming gender relations Issues covered include the paternal role women as breadwinners men's loss of status at work changing gender roles in the press the relationship between the sexual and gender revolutions Featuring an outstanding panel of Russian contributors this collection is a valuable resource for students and scholars of Politics Gender Studies and Russian Studies Masculinities under Neoliberalism Andrea Cornwall, Frank G. Karioris, Nancy Lindisfarne, 2016-05-15 Neoliberalism has had a radical impact on the lived gendered experiences of people around the world But while the gendered dimensions of neoliberalism have already received significant scholarly attention the existing literature has given little consideration to men's identities and experiences Building on the work of Cornwall and Lindisfarne's landmark text Dislocating Masculinity this collection provides a fresh perspective on gender dynamics under neoliberalism Bringing together a series of short readable case studies drawn from new ethnographic fieldwork its subjects range from the experiences of working class men in Putin's Russia to colonial masculinities in Southern Rhodesia and from young British Muslim men to amateur footballers in Jamaica

The Dilemmas of Lone Motherhood Randy Albelda, Sue Himmelweit, Jane Humphries, 2013-09-13 In today's society women having entered the workplace in growing numbers worldwide are increasingly expected to earn wages whilst still

being primarily responsible for raising children While all parents confront the tensions of this double burden for lone mothers the situation can be especially acute as there is no other adult to share responsibilities and no access to a male wage The revealing essays in this volume address a range of the dilemmas lone mothers routinely face whilst also distinguishing important situational differences and considering other social perspectives It asks How can governments help without undermining their ability to enter the workforce Should the state indefinitely support lone mothers How should we measure the success of a policy What roles do ethnicity race religion class and sexual orientation play The impressive range of contributors to this volume speak from numerous contrasting perspectives Here they study a variety of international settings such as Sri Lanka the US Germany England and Norway and in so doing they allow the reader to draw powerful conclusions by comparing such issues and potential resolutions in varying countries and contexts This book was previously published as a special issue of *Feminist Economics*

Beyond the Resources of Poverty Sebnem Eroglu, 2016-04-08 This groundbreaking volume researches the lives of gecekondü settlers in the capital city of Turkey in order to understand how households cope with poverty and why some households are more successful than others in reducing their deprivation It takes a critical stance towards existing conceptions such as household survival livelihood and coping strategy and develops an alternative model based on four types of household response to poverty income generation income allocation consumption and investment In explaining household responses and their outcomes for poverty the book demonstrates the role of different resources beyond income including social economic and cultural capital It emphasises broader structural factors such as labour market processes and state policies which influence the availability and or benefit delivery capacity of household resources and thereby moves beyond the dominant view which overemphasises the resilience of the poor Gender divisions within the household are also examined The book adopts an innovative method for measuring poverty The new method combines objective and subjective dimensions of deprivation to develop a unique way of addressing two central questions what are those standards of living whose absence indicates deprivation and how can the value of each standard of living be determined

Attitudes, Poverty and Agency in Russia and Ukraine Ann-Mari Sätre, Ildikó Asztalos Morell, 2017-10-02 One of the main ideas behind this book was to trace continuities from the Soviet time to post Soviet Russia There are many similarities between Russia and Ukraine indicating such a continuation Russia and Ukraine had a lot in common in terms of culture language and history partly also because of their common origin After the dissolution of the Soviet Union however the two independent countries chose different routes of development This makes it possible to distinguish between the effects of politics reforms on the one hand and the impacts from the Soviet system on the other After some more or less chaotic development paths in the 1990s showing clear differences between the two countries and before the contemporary conflict broke out in Eastern Ukraine 2013 they had once again more similarities in terms of political leadership and policies in general The chapters in this book focus on Ukraine and on two regions in Russia Nizhny Novgorod and Archangelsk

Contributors look at attitudes towards poverty and poor people strategies of the poor and policies against poverty This book was published as a special issue of the Journal of Contemporary Central and Eastern Europe **Crisis and the Everyday in Postsocialist Moscow** Olga Shevchenko,2008-12-17 In this ethnography of postsocialist Moscow in the late 1990s Olga Shevchenko draws on interviews with a cross section of Muscovites to describe how people made sense of the acute uncertainties of everyday life and the new identities and competencies that emerged in response to these challenges Ranging from consumption to daily rhetoric and from urban geography to health care this study illuminates the relationship between crisis and normality and adds a new dimension to the debates about postsocialist culture and politics **The Legacy of State Socialism and the Future of Transformation** David Lane,2002 Taking stock of the first decade of the transformation in the former Soviet bloc this timely book explores the legacies of state socialism and attempts by once communist countries to move toward a democratic market oriented system Leading international scholars consider the ways traditions interact with other factors both domestic and foreign to influence the course of social political and economic change With its blend of theory and case studies and its clear narrative this book will be a valuable text for students of transition Russian politics and the transformation of Eastern Europe Visit our website for sample chapters
