extensive archival sources *Architecture and Urbanism in the French Atlantic Empire* focuses on the French state's and the Catholic Church's ideals and motivations for their urban and architectural projects in the Americas. In vibrant detail, Gauvin Alexander Bailey recreates a world that has been largely destroyed by wars, natural disasters, and fires from Cap François (now Cap-Haïtien) which once boasted palaces in the styles of Louis XV and formal gardens patterned after Versailles to failed utopian cities like Kourou in Guiana. Vividly illustrated with examples of grand buildings, churches, and gardens as well as simple houses and cottages, this volume also brings to life the architects who built these structures: not only French military engineers and white civilian builders but also the free people of colour and slaves who contributed so much to the tropical colonies. Taking readers on a historical tour through the striking landmarks of the French colonial landscape, *Architecture and Urbanism in the French Atlantic Empire* presents a sweeping panorama of an entire hemisphere of architecture and its legacy. A History of French Architecture Sir Reginald Theodore Blomfield, 1911 [New French Architecture](#) Maurice Besset, 1967 [Architecture and Society in Normandy 1120-1270](#)

Lindy Grant, 2005-01-01 This wide-ranging book explores the architecture principally ecclesiastical of Normandy from 1120 to 1270, a period of profound social, cultural, and political change. In 1204, control of the duchy of Normandy passed from the hands of the Anglo-Norman Angevin descendants of William the Conqueror to the Capetian kingdom of France. The book examines the enormous cultural impact of this political change and places the architecture of the time in the context of the Normans' complicated sense of their own identity. It is the first book to consider the inception and development of gothic architecture in Normandy and the first to establish a reliable chronology of buildings. Lindy Grant extends her investigation beyond the buildings themselves and also offers an account of those who commissioned, built, and used them. The humanized story she tells provides sharp insights not only into Normandy's medieval architecture but also into the fascinating society from which it emerged.
