Sarah Childs

New Labours Women Mps Women Representing Women:

New Labour's Women MPs Sarah Childs, 2004-07-31 Drawing on interviews with over half of new Labour women MPs Sarah Childs reveals how the women experienced being MPs and explores whether they acted for and like women in constituencies in Parliament and in government

New Labour's Women MPs Sarah Childs, 2004-07-31 It was not long after the election of a record number of women to the House of Commons in 1997 that the backlash began The criticism was all encompassing they wore the wrong clothes they voted the wrong way and they were concerned with the wrong issues Above all they were accused of failing to make difference to have failed women and were dismissed by some as Blair's Babes Drawing on in depth interviews with more than half of the new Labour women MPs Sarah Childs reveals how these women actually experienced being MPs and explores whether they acted for and like women in their constituencies in parliament and in government She presents important insights into theories of women's political representation showing that the relationship between women's descriptive and substantive representation is complicated that party and gender identities are crucial that women's differences must be acknowledged and that it might not always be possible for women representatives to act for women even if they want to Including a key section on women's selection for parliament whether women MPs act as role models why it is important that women should be present in politics as well as exploring in depth the subject of women's substantive representation *New Labour's Women MPs* is essential reading for all those interested in women and politics legislative studies political behaviour and representation

Representing Women in Parliament Marian Sawer, Manon Tremblay, Linda Trimble, 2006-09-27 The first book length treatment of the political representation of women in countries with parliamentary systems based on the Westminster model Written by a major international team of authors this new study features twelve chapters on both new and established parliaments including Australia Canada New Zealand and the United Kingdom It tests the latest theories about women's political representation within Westminster style assemblies and is organized into three key sections that examine the extent to which the descriptive representation of women in the old Westminster parliaments has progressed in recent years and the factors which have enhanced or impeded development explore the relationship between the numbers of women elected and the substantive representation of women or the extent that women act for women review the recent experiences of four new Westminster parliaments Northern Ireland Scotland Wales and Nunavut and evaluate the political opportunities for women provided by the creation of new institutions This new comparative study will be of great interest to students and researchers of legislative studies and of gender politics and gender studies

Women and Political Inequality in Japan Mikiko Eto, 2020-12-17 Why are there so few Japanese women involved in the political system In 2019 Japanese women made up 10% of the national Lower House 21% of the Upper House and 14% of local assemblies According to the Inter Parliamentary Union this places Japan 164th out of 193 countries when it comes to women's representation in the legislature The percentage of women in the Lower House has only increased by

fewer than two percentage points since women gained full suffrage and the right to stand for election in Japan in 1946 Eto analyses the various factors that have led to women's low presence in the Japanese legislature She evaluates ways in which it might be possible for Japan to catch up and in doing so examines how Japanese society continues to perpetuate gender rigid expectations of people This text is a valuable study for scholars of Japanese politics and society and for readers with an interest in the broader issue of the representation of women in politics

Sex, Gender and the Conservative Party S.

Childs, P. Webb, 2011-11-15 As leader of the Conservative party David Cameron inherited a multi faceted gender problem only 17 women MPs an unhappy women's organization electorally uncompetitive policies for women and a party which was seemingly unattractive to women voters This book is an account of the feminization of the party since 2005

Women and Employment in Public Policy Susan Milner, 2024-07-15 In the UK women's economic empowerment through employment is a success story of the last three decades And yet women are over represented in low paid insecure jobs are under represented in top jobs and earn less than men on average with a marked income gap over the lifecourse When Labour took office in 1997 a new wave of women MPs entered parliament in record numbers and women gained access to ministerial roles including a newly created minister for women However policy on women and employment remained an area of conflict New rights were secured particularly for mothers but when Labour left office a sizeable policy agenda remained unfinished Using documentary evidence and interviews from leading policy actors from the period *Women and Employment in Public Policy* takes as its starting point the Women and Work Commission which was convened in 2004 to examine causes of the gender pay gap The commission was unable to defuse conflicts over equal pay but it set out an agenda for change at the level of government private sector work organizations and public sector organizations Milner examines why the commission could not resolve key conflicts and why its broad based recommendations were only partially taken up She traces the subsequent development of policy observing well established preferences for light touch regulation which can raise awareness but leave entrenched practices unchallenged and weaken individual women's access to redress Detailed study of the working of the commission provides lessons on the policy process particularly for those seeking to influence policy It also shows that within the wider policy space opportunities for action to effect change are possible based on appeals to instrumental logic or political exchange but are constrained by party leadership

The New Politics of Gender Equality Judith Squires, 2007-09-11 During the past decade governments around the globe have introduced institutional mechanisms to promote the advancement of women including measures to increase women's political participation rates and to incorporate women's interests into policy making Why have they done so How successful have these initiatives been What are the emerging agendas facing gender equality advocates now In *The New Politics of Gender Equality* Judith Squires examines the origins evolution and key features of three strategies that have been employed across the world in pursuit of gender equality quotas policy agencies and gender mainstreaming The author critically examines each strategy to see how far they transform

political institutions and agendas and to what extent they lead rather to the assimilation of women in male defined structures Squires argues that a multi pronged approach drawing on democratic rather than technocratic strategies offers the best potential for advancing gender equality She highlights too the limitations of approaches that ignore inequalities among women and the challenges of developing equality initiatives to address multiple and cross cutting inequalities between groups Judith Squires is Professor of Political Theory University of Bristol She has written researched and published widely in the field of gender politics and gender equality Political Power and Women's Representation in Latin America Leslie A. Schwindt-Bayer, 2010-09-30 The number of women elected to Latin American legislatures has grown significantly over the past thirty years This increase in the number of women elected to national office is due in large part to gender friendly electoral rules such as gender quotas and proportional electoral systems and it has in turn fostered constituent support for representative democracy Still this book argues that women are gaining political voice and bringing women s issues to state agendas but they are not gaining political power Women are marginalized by the male majority in office and relegated to the least powerful committees and leadership posts hindering progress toward real political equality In Political Power and Women's Representation in Latin America Leslie Schwindt Bayer examines the causes and consequences of women s representation in Latin America She does so by asking a series of politically relevant and theoretically challenging questions including why the numbers of women in office have increased in some countries but vary across others what the presence of women in office means for the way representatives legislate and what consequences the election of women bears for representative democracy more generally Schwindt Bayer articulates a comprehensive theory of women s representation that analyzes and connects trends in relation to four facets of political representation formal descriptive substantive and symbolic She then tests this theory empirically using aggregate data from all eighteen Latin American democracies and original fieldwork in Argentina Colombia and Costa Rica Ultimately this book communicates the complex and often incomplete nature of women s political representation in Latin America **Gender Quotas and Women's Representation** Mona Krook, Pär Zetterberg, 2017-10-02 Electoral gender quotas have emerged as one of the most critical political reforms of the last two decades having now been introduced in more than 130 countries worldwide The recent and global nature of these developments has sparked both scholarly and popular interest in the in which these quotas are designed as well as their origins and effects This volume seeks to expand these existing agendas to forge new directions in research on gender quotas and political representation The topics considered include new paths to adoption as well as in the wake of quota introduction changes in the dynamics of candidate selection the status and role of women in legislative institutions and the impact that women have on policy making Expanding the scope of quota studies the contributions also address trends in different political parties and different levels of government the effectiveness of quotas in democratic and non democratic settings and whether there might be non quota mechanisms that could be pursued together with or in lieu of gender quotas in order to

increase women's political representation This book was originally published as a special issue of Representation

Women in Governing Institutions in South Asia Nizam Ahmed, 2017-08-24 This edited volume examines policies aimed at increasing the representation of women in governing institutions in six South Asian countries Divided into three parts it addresses the implications of uniformity and diversity for the substantive representation of women in parliament civil service and local government The contributing authors explore the scope and limits of positive discriminatory policies within distinct country contexts and the implications of the lack of such policies in other countries Their findings shed new light on the extent to which the higher presence of women in different governing institutions matters particularly in respect of promoting women's issues and also on the way men and women in different governing institutions look upon each other's roles and adopt strategies for mutual adjustment This innovative collection will appeal to students and scholars of gender studies public policy and administration international relations law and political science
