Poisoning Jay M. Arena,1970 *Poisoning Diagnosis and Treatment* J.A. Vale,T.J. Meredith,2012-12-06 In the last decade the incidence of acute poisoning in the developed world has risen considerably so that hospital admissions from this cause now represent a significant part of the work load of most medical units The purpose of this book is to provide an up to date account of the diagnosis and treatment of all the clinically important poisons Throughout the text the aim has been to emphasize the mechanisms of toxicity wherever they are known so that a rational approach to therapy may be devised In addition substantial chapters have been devoted to the psychiatric assessment of self poisoned patients and to the role of the laboratory Two styles of presentation have been adopted Certain topics are discussed in depth either because of their clinical importance or because recent data have become available concerning pathophysiology or treatment In contrast when subjects have been well described previously in general medical texts for example carbon monoxide poisoning the discussion is far more brief and to the point A similar style has been adopted with recently introduced drugs where little is known about the effects in overdose The value of certain chapters especially those on poisonous plants and snake bites has been enhanced by the inclusion of a large number of colour photographs **Poisoning** Jay M. Arena,1969 Toxic Superfoods Sally K. Acute Renal Disorders and Renal Emergencies J. Strauss,Louise Strauss,2012-12-06 My thoughts about the Hemolytic
 Uremic Syndrome HUS got started in 1961 along with my attempt to return to Argentina As I sought my way in Buenos Aires
 I visited Carlos Gianantonio whom I had met in Caracas the year before during the Pan American pediatric meetings At that
 time he was actively working on HUS which had become an epidemic in Buenos Aires and other parts of Argentina I was
 impressed by the team effort and devotion of his group to such heavy demands They obviously were meeting the challenge at
 an amazingly high level under a very crippling physical situation with shortages of space laboratories and equipment His
 group together with Dr Becu at the time the pathologist at the Children s Hospital of Buenos Aires we had met through his
 mother who was instrumental in arranging my return to Buenos Aires wrote some of the classic papers on HUS Through the
 years as Dr Gianantonio became more involved in general pediatrics the administrative aspects and its orientation in Latin
 America he became known for his deep philosophical questions as to what we are doing and where we are going His
 questions have obvious implications regarding an aggressive approach to our pediatric nephrology patients **U.S.**
