Human Purpose and Transhuman Potential Ted Chu,2014-03-01 For millennia great thinkers have contemplated the meaning and purpose of human existence but while most assumed that humanity was the end point of creation or the pinnacle of evolution Ted Chu makes the provocative claim that the human race may in fact be a means rather than an end that humankind will give rise to evolutionary successors In this wide ranging and authoritative work Chu reexamines the question of human purpose in light of the extraordinary developments of science and technology Arguing that a deep understanding of our place in the universe is required to navigate the magnitude of the choices that lie ahead he surveys human wisdom from both East and West traces the evolutionary trajectory that has led to this point and explores the potentials emerging on the scientific frontier The book addresses the legitimate fears and concerns of playing God but embraces the possibility of transcending biological forms and becoming or creating entirely new life forms **Rethinking Jewish Faith** Steven L. Jacobs,2012-02-01 This book addresses the faith of a member of the Second Generation the offspring of the original survivors of the Shoah It is a re examination of those categories of faith central to the Jewish Religious Experience in light of the Shoah God Covenant Prayer Halakhah and Mitzvot Life Cycle Festival Cycle Israel and Zionism and Christianity from the perspective of a child of a survivor **Literature 1988, Part 1** U. Douglas Kenyon, 2008-02-11 Reveals the cutting edge of New Science and shows how established science disallows inquiry that challenges the status quo even when it produces verifiable results Contains 43 essays by 19 researchers denoting cutting edge heretical or suppressed scientific research including Immanuel Velikovsky Nikola Tesla Rupert Sheldrake and Masaru Emoto Edited by Atlantis Rising publisher J Douglas Kenyon Following the model of his bestselling Forbidden History and Forbidden Religion J Douglas Kenyon has assembled from his bimonthly journal Atlantis Rising material that explores science and technology that has been suppressed by the orthodox scientific community from the true function of the Great Pyramid and the megaliths at Nabta Playa to Immanuel Velikovsky's astronomical insights free energy from space cold fusion and Rupert Sheldrake's research into telepathy and ESP There is an organized war going on in science between materialistic theory and anything that could be termed spiritual or metaphysical For example Masaru Emoto's research into the energetics of water although supported by photographic evidence has been scoffed at by mainstream science because he has asserted that humans affect their surroundings with their thoughts The materialism or absolute skepticism of the scientific establishment is detrimental to any scientific inquiry that thinks outside the box This mentality is interested in preserving funding for its own projects those that will not rock the establishment From Tesla's discovery of alternating current to Robert Schoch's re-dating of the Sphinx this book serves as a compelling introduction to the true history of alternative and New Science research Edge City Joel Garreau, 1992-09-01 First there was downtown Then there were suburbs Then there were malls Then Americans launched the most sweeping change in 100 years in how they live work and play The Edge City
