**The Quiet Man** Phillippa Berlyn, 1978      **The Quiet Man: a Biography of the Hon. Ian Douglas Smith, I.D. Prime Minister of Rhodesia** Phillippa Berlyn, 1978      Decolonisation, Identity and Nation in Rhodesia, 1964-1979 David Kenrick, 2019-11-02 This book explores concepts of decolonisation identity and nation in the white settler society of Rhodesia now Zimbabwe between 1964 and 1979 It considers how white settlers used the past to make claims of authority in the present It investigates the white Rhodesian state s attempts to assert its independence from Britain and develop a Rhodesian national identity by changing Rhodesia s old colonial symbols and examines how the meaning of these national symbols changed over time Finally the book offers insights into the role of race in Rhodesian national identity showing how portrayals of a timeless black population were highly dependent upon circumstance and reflective of white settler anxieties Using a comparative approach the book shows parallels between Rhodesia and other settler societies as well as other post colonial nation states and even metropolises as themes and narratives of decolonisation travelled around the world      **So Far and No Further!** Jrt Wood, 2012-05 So Far and No Further Rhodesia s Bid for Independence during the Retreat from Empire 1959 1965 Ian Smith s unilateral declaration of independence for Rhodesia now Zimbabwe on 11 November 1965 was seen by many as the act of a rebellious white minority seeking to preserve their privileged position in defiance of Britain s determination to shed her Empire and introduce rule by the African majority as soon as possible However the drama of UDI has long overshadowed and oversimplified the complexities of the preceding years In this account of that time based on sole access to the hitherto closed papers of Ian Douglas Smith and Sir Roy Welensky as well as extensive research at London s Public Record Office and in government and private collections elsewhere Dr J R T Wood chronicles the collision course on which Britain and Rhodesia were set after 1959 complementing his study of the fate of the Federation of Rhodesia and Nyasaland in his definitive *The Welensky Papers A History of the Federation of Rhodesia and Nyasaland 1953 1963* Britain Wood shows was intent on shedding her Empire as quickly as possible against a backdrop of the Cold War and the rise of Chinese and Soviet sponsored African nationalism She delivered some 600 one man one vote constitutions to her fledgling nations and had no intention of granting Rhodesia independence on different terms Unlike Britain s other African possessions however Rhodesia had enjoyed self governance since 1923 The largely white Rhodesian electorate wary of the consequences of premature and ill prepared majority rule sought instead dominion status akin to that of Canada Australia and New Zealand Their intention was gradually to pave the way for majority rule since 1923 Rhodesia s electoral qualifications had excluded race It was always understood that the African majority would acquire power the concern was the speed and smoothness of that acquisition Culminating in those dramatic days of November 1965 when Ian Smith concluded in the face of resolute British stonewalling that he had no alternative but UDI this unique account is the first in a series which chronicles the course of events that ultimately led to Robert Mugabe s accession to power in 1980 and all that entailed      Southern

Rhodesia-South Africa Relations, 1923-1953 Abraham Mlombo, 2020-09-07 This book provides the first comprehensive study of the special relationship between Southern Rhodesia and South Africa While most studies approach this from the history of British and South African relations or the history of South African territorial expansion this book offers new insights by examining Southern Rhodesia's relations with South Africa from the former's perspective Exploring relations through the lens of settler colonialism the book argues that settler colonialism in the region was marked by a competitive and antagonistic relationship between settler communities particularly Afrikaner and English communities The book explores the connections between these countries by examining high politics economic links and social and cultural ties highlighting both instances of competition and cooperation Above all it argues that economic ties were the cornerstone of the relationship and that these shaped the rest of the ties between the two countries Drawing on archival records from Britain South Africa and Zimbabwe as well as a number of secondary sources it offers a much more nuanced perspective of this relationship than has been previously offered

Garfield Todd: The End of the Liberal Dream in Rhodesia Susan Woodhouse, 2018-04-17 Against the backdrop of a politically approved view that Europeans did little to further the Zimbabwean nationalist freedom movements before Independence in 1980 this book will help to nail that misconception against a wall The story of Garfield Todd and his various roles as Christian missionary liberal prime minister of southern Rhodesia high profile opponent of UDI and its architect Ian Smith from 1965 to 1980 will surely be an eye opener for many young people in central and southern Africa who may never have heard of this great man who spent his life in education and public service The role of Garfield Todd and some of the people who worked with him has been effectively airbrushed from the pages of the official Zimbabwean story Why is the question Susan Woodhouse gives us the answer by telling the story of a small but influential group of men and women who dared swim against the racial current in Africa after the Second World War Its a story told with warmth personal insight and often great humour This Edinburgh based author who Sir Garfield said knew the Todds better than anyone else has introduced a small but dedicated group of long forgotten activists to a new generation of readers

**From the Barrel of a Gun** Gerald Horne, 2001 Explores how the American government's relationship with the country of Zimbabwe formerly Rhodesia between 1965 and 1980 affected the interracial dynamics in the United States

*Unpopular Sovereignty* Luise White, 2015-03-23 In 1965 the white minority government of Rhodesia after 1980 Zimbabwe issued a unilateral declaration of independence from Britain rather than negotiate a transition to majority rule In doing so Rhodesia became the exception if not anathema to the policies and practices of the end of empire In *Unpopular Sovereignty* Luise White shows that the exception that was Rhodesian independence did not in fact make the state that different from new nations elsewhere in Africa indeed this history of Rhodesian political practices reveals some of the commonalities of mid twentieth century thinking about place and race and how much government should link the two White locates Rhodesia's independence in the era of decolonization in Africa a time of great intellectual ferment in ideas about race citizenship and

freedom She shows that racists and reactionaries were just as concerned with questions of sovereignty and legitimacy as African nationalists were and took special care to design voter qualifications that could preserve their version of legal statecraft Examining how the Rhodesian state managed its own governance and electoral politics she casts an oblique and revealing light by which to rethink the narratives of decolonization

**A Matter of Weeks Rather Than Months** J. R. T. Wood, 2012 Founded on 35 years of research into the post 1945 Anglo Rhodesian history this book complements Richard Wood's *The Welensky Papers A History of the Federation of Rhodesia and Nyasaland 1953-1963* 1983 and *So Far and No Further Rhodesia's bid for independence during the retreat from empire 1959-1965* 2005 Of *So Far* Michael Hartnack wrote that 'Once in a lifetime comes a book which must force a total shift in the thinking person's perception of an epoch and of all the prominent characters who featured in it' *A Matter of Weeks Rather than Months* recounts the action and reaction to Ian Smith's unilateral declaration of Rhodesia's independence the second such declaration since the American one of 1776 It examines the dilemmas of both sides Smith's problem was how to legitimise his rebellion to secure crucial investment capital markets trade and more His antagonist the British Prime Minister Harold Wilson was determined not to transfer sovereignty until Rhodesia accepted African majority rule in common with the rest of Africa Given British feelings for their Rhodesian kith and kin and Rhodesia's landlocked position Wilson eschewed the use of force He could only impose sanctions but hoped they would defeat Smith in a matter weeks rather than months The Rhodesians however evaded the sanctions with such success that they forced Wilson to negotiate a settlement Negotiations were nevertheless doomed because the self-confident Rhodesians would not accept a period of direct British rule while rapid progress to majority rule was made or the imposition of restraints on powers they had possessed since gaining self-government in 1923 In tune with their allies in the African National Congress of South Africa the Rhodesian or Zimbabwean African nationalists had already adopted the Marxist concept of the Armed Struggle as a means to power Sponsored by the Communist Bloc its surrogates and allies they began a series of armed incursions from their safe haven in Zambia Although bloodily and easily repulsed they would learn from their mistakes as the Rhodesian forces would discover in the 1970s Consequently this is a tale of sanctions negotiations and counter-insurgency warfare

*Building a White Nation* Katharina Jörder, 2023-12-18 Throughout the apartheid era South Africa maintained a wide-reaching propaganda apparatus At its core was the information service that strongly capitalised on photography to visually articulate the minority regime's racist political messages promote Afrikaner nationalism and consolidate White rule By unearthing a substantial corpus of photographs that so far have been hidden in archives this book offers a distinctive perspective on the institutional context of the regime's photographic production and how it was tightly linked to the objective to build a White nation Through scrutiny of the photographic material's iconographies its circulation in printed matters and a comparison with works by photographers like Margaret Bourke White Ernest Cole and David Goldblatt readers gain fresh insight into the country's visual culture of the period Based on the ambiguity of photographs the

monograph challenges the alleged dichotomy between so called pro and anti apartheid photographs highlighting how the regime was able to position photographs in the grey area of inconspicuousness By blending photo theory and art historical analysis with historical studies Building a White Nation will appeal to scholars and postgraduate students in cultural studies interested in photo history and theory visual culture and art history African studies South African photography Afrikaner nationalism propaganda studies postcolonial studies and archive theory     **Zimbabwean History** ,1980
