Recent years have witnessed an explosive growth in the literature published about Japan Yet it seems that the more that is written about Japan and Japanism its culture society people the more mysterious it becomes As well as exploring issues relating to advertising tourism women festivals and the art world the book depicts how the study of Japanese society contributes to anthropological theory and understanding The editors use the term unwrapping to provide insights into Japanese culture and relate these insights to broader problems and questions prevalent in contemporary anthropological discourse The issues explored include the contribution of applied anthropology to theory the relationship between tourism and nostalgia the interplay of marginality and belonging the role of advertising in gender relations status in the art world and the place of Japanese genres of writing within anthropology texts *Crested Kimono* Matthews Masayuki

Hamabata, 1991-08 Matthews Hamabata got off to an unpromising start when he first arrived in Japan to study influential business families An unmarried third generation Japanese American graduate student he was there to learn about business executives in their roles as male principals and heads of households Some Japanese were less than hospitable and often downright rude to him and the souvenirs bearing the Harvard University emblem that he had brought along for gifts proved to be inappropriate within the highly ritualized system of Japanese gift giving In this engaging and personal narrative we watch Hamabata in the first disappointing six months of his fieldwork as he attempts to map the boundaries of culture class and sexuality I became my own biggest fieldwork problem he writes Was I inside or out When I thought I was in I was actually out but when I acknowledged the fact that I was out I was let in He soon recognized the importance of marital and filial relations in transmitting power in the business world and he began to direct his study to examining the social and emotional lives of all members of the Japanese ie household and the way they affect business activity and ownership He takes us behind the scenes of the family enterprise to see how the multiple layers of reality biological social religious emotional and symbolic relate and cause dilemmas for ie members Names locations and other details have been altered for the sake of anonymity We meet the Moriuchis the Itoos the Okimotos people who must constantly balance their own personal desires against the good of the ie Many telling vignettes illustrate a central tension in their lives their need for love power and emotional expression versus the constraints of traditional attitudes toward their ancestors public honor the economic enterprise and the obligation to continue the ie over time A grandfather stubbornly refuses to hand over the reins of succession to the next generation creating an impossible situation that eventually tears apart an economic empire as well as the fabric of various interrelated families Economic familial and religious factors figure in a clash for succession between the person who possesses the ancestral tablets and the head of the enterprise A daughter must reconcile personal love with

arranged marriage Ambitions for the son in line for succession war with the realization that this spoiled incompetent young man may well ruin the ie A fascinating portrait of everyday life told with vibrant sensitivity as well as humor this book is full of the vitality of common concerns life choices love and commitment confrontations with death It is about very real people trying to make sense of their lives trying to reconcile the roles and duties dictated by custom and tradition with rapidly changing expectations in the international milieu of contemporary Japan **Everyday Justice** V. Lee Hamilton, Joseph Sanders, 1992-01-01 It is a fundamental human impulse to seek restitution or retribution when a wrong is done yet individuals and societies assess responsibility and allocate punishment for wrongdoing in different ways This book investigates how average citizens in the United States and Japan think about and judge various kinds of wrongdoing how they determine who is responsible when things go wrong and how they prefer to punish offenders Drawing on the results of surveys they conducted in Detroit Michigan and Yokohama and Kanazawa Japan the authors compare both individual and cultural reactions to wrongdoing They find that decisions about justice are influenced by whether or not there seems to be a social relationship between the offender and victim the American tendency is to see actors in isolation while the Japanese tendency is to see them in relation to others The Japanese who emphasize the importance of role obligations and social ties mete out punishment with the goal of restoring the offender to the social network Americans who acknowledge fewer ties that bind and have firmer convictions that evil resides in individuals punish wrongdoers by isolating them from the community The authors explore the implications of justice among friends versus justice towards strangers as approaches to the righting of wrongs in modern society Their findings will be of interest to students of social psychology the sociology of law and Japanese studies **Values of Happiness** Iza Kavedžija, Harry Walker, 2017-03-15 How people conceive of happiness reveals much about who they are and the values they hold dear Drawing on ethnographic insights from diverse field sites around the world this book offers a unique window onto the ways in which people grapple with fundamental questions about how to live and what it means to be human Developing a distinctly anthropological approach concerned less with gauging how happy people are than with how happiness figures as an idea mood and motive in everyday life the book explores how people strive to live well within challenging or even hostile circumstances The contributors explore how happiness intersects with dominant social values as well as an array of aims and aspirations that are potentially conflicting demonstrating that not every kind of happiness is seen as a worthwhile aim or evaluated in positive moral terms In tracing this link between different conceptions of happiness and their evaluations the book engages some of the most fundamental questions concerning human happiness What is it and how is it achieved Is happiness everywhere a paramount value or aim in life How does it relate to other ideas of the good What role does happiness play in orienting peoples desires and life choices Taking these questions seriously the book draws together considerations of meaning values and affect while recognizing the diversity of human ends **Global Perspectives in Family Therapy** Kit S.
