sketches sit coms parody films and stand up routines Judith Roof builds on side comments from Henri Bergson's short treatise *Laughter* Sigmund Freud's *Jokes and Their Relation to the Unconscious* and various observations from Aristotle to establish comedy as a complex multifaceted practice In seeing comedy as a gathering event that resolves with a cut Roof characterizes comedy not only by a predictable unpredictability occasioned by a sudden expected unexpected insight but also by repetition seriality self consciousness self referentiality and an ouroboric return to a previous cut This theory of comedy offers a way to understand the operation of a broad array of distinct comic occasions and aspects of performance in multiple contexts
