portrayal of foreigners and the delineation of culture and identity in antebellum American writing Both literary and historical in its approach this study shows how in a period marked by extensive immigration heated debates on national and racial traits during a flowering in American letters encouraged responses from American authors to outsiders that not only contain precious insights into nineteenth century America s self construction but also serve to illuminate our own time s multicultural societies The authors under consideration are alternately canonical Emerson Hawthorne Melville recently rediscovered Kirkland or simply neglected Arthur The texts analyzed cover such different genres as diaries letters newspapers manuals novels stories and poems

A Nationality of Her Own Candice Lewis Bredbenner,2024-06-14 In 1907 the federal government declared that any American woman marrying a foreigner had to assume the nationality of her husband and thereby denationalized thousands of American women This highly original study follows the dramatic variations in women s nationality rights citizenship law and immigration policy in the United States during the late Progressive and interwar years placing the history and impact of derivative citizenship within the broad context of the women s suffrage movement Making impressive use of primary sources and utilizing original documents from many leading women s reform organizations government agencies Congressional hearings and federal litigation involving women s naturalization and expatriation Candice Bredbenner provides a refreshing contemporary feminist perspective on key historical political and legal debates relating to citizenship nationality political empowerment and their implications for women s legal status in the United States This fascinating and well constructed account contributes profoundly to an important but little understood aspect of the women s rights movement in twentieth century America This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1999 Race and Nationality

A New Language, A New World Nancy C. Carnevale, 2010-10-01 An examination of Italian immigrants and their children in the early twentieth century A New Language A New World is the first full length historical case study of one immigrant group's experience with language in America Incorporating the interdisciplinary literature on language within a historical framework Nancy C Carnevale illustrates the complexity of the topic of language in American immigrant life By looking at language from the perspectives of both immigrants and the dominant culture as well as their interaction this book reveals the role of language in the formation of ethnic identity and the often coercive context within which immigrants must negotiate this process

Jury Trials and Plea Bargaining Mike McConville, Chester L. Mirsky, 2005-03-31 This book is a study of the social transformation of criminal justice its institutions its method of case disposition and the source of its legitimacy Focused upon the apprehension investigation and adjudication of indicted cases in New York City's main trial tribunal in the nineteenth century the Court of General Sessions it traces the historical underpinnings of a lawyering culture which in the first half of the nineteenth century celebrated trial by jury as the fairest and most reliable method of case disposition and then at the middle of the century dramatically gave birth to plea bargaining which thereafter became the dominant method of case disposition in the United States The book demonstrates that the nature of criminal prosecutions in everyday indicted cases was transformed from disputes between private parties resolved through a public determination of the facts and law to a private determination of the issues between the state and the individual marked by greater police involvement in the processing of defendants and public prosecutorial discretion As this occurred the structural purpose of criminal courts changed from individual to aggregate justice as did the method and manner of their dispositions from trials to guilty pleas Contemporaneously a new criminology emerged with its origins in European jurisprudence which was to transform the way in which crime was viewed as a social and political problem The book therefore sheds light on the relationship of the method of case disposition to the means of securing social control of an underclass in the context of the legitimation of a new social

order in which the local state sought to define groups of people as well as actual offending in criminogenic terms At a moment when France is poised to adopt plea bargaining McConville and Mirsky offer the best historical account of its emergence in mid nineteenth century America based upon exhaustive analysis of archival data Their interpretation of the reasons for the dramatic shift from jury trials to negotiated justice offers no comfort for contemporary apologists of plea bargaining as more professional The combination of new data and critical reflection on accepted theories make this essential reading for anyone interested in criminal justice policy Rick Abel Connell Professor of Law UCLA Law School A fascinating account which traces the origins of plea bargaining in the politicisation of criminal justice linking developments in day to day practices of the criminal process with macro changes in political economy notably the structures of local governance This is a classic socio legal study and should be read by anyone interested in criminology criminal justice modern history or social theory Nicola Lacey Professor of Criminal Law and Legal Theory London School of Economics
